## **The Human Factor A Requiem For Darwin:**

**The Human Factor** A.J. DiChiara,2004-01-13 In the 27th century An asteroid collides with the moon destroying it completely The resulting impact causes an ecological domino effect of biblical proportions wrecking havoc with the Earth s ecosystem Enter Dr Richard Alden of Project Outreach mankind s first and last hope for survival Together he and the worlds leading scientists embark on a cosmic junket in search of a new home for the human race out among the stars But all is not what it seems and the crew soon finds itself enmeshed in a government cover up that may spell doom for the mission and push it to the brink of extinction After a life and death struggle the surviving crewmembers contemplate a future in a utopian world untouched by the problems of Earth or humanity Or is it Will they be serpent or saint in this new Eden If the human race is to survive can they ever hope to overcome **THE HUMAN FACTOR** *The Human Factor* A. J. DiChiara,2004 In the 27th century An asteroid collides with the moon destroying it completely The resulting impact causes an ecological domino effect of biblical proportions wrecking havoc with the Earth s ecosystem Enter Dr Richard Alden of Project Outreach mankind s first and last hope for survival Together he and the worlds leading scientists embark on a cosmic junket in search of a new home for the human race out among the stars But all is not what it seems and the crew soon finds itself enmeshed in a government cover up that may spell doom for the mission and push it to the brink of extinction After a life and death struggle the surviving crewmembers contemplate a future in a utopian world untouched by the problems of Earth or humanity Or is it Will they be serpent or saint in this new Eden If the human race is to survive can they ever hope to overcome **THE HUMAN FACTOR** **The Prisoner** Carlos J. Cortes,2009-09-29 2049 Earth s prisons are shut down and all inmates placed in massive hibernation tanks In the ten years since then no one has broken out until now When prisoners check into Washington D C s maximum security sugar cube they don t check out Here lie suspended not just the planet s most dangerous criminals but also half a million so called center inmates troublesome activists whose only offense is to challenge those in power Laurel Cole was one of those inmates and now she s on the run After pulling off a meticulously executed escape plan she and her team must elude the police by descending into the tunnels that run like poisoned veins beneath the city Pursued by a ruthless mercenary who knows these sewers better than anyone Laurel seeks help from a group of renegades who live huddled in the fetid darkness But if she ever hopes to see daylight again and expose the government s lies she ll have to go even deeper and the clock is ticking **The Grinning Man** A. J. Dichiarra,2009-02 Aside from her nightmares Felice DePalma enjoys living on Long Island But when her conniving boyfriend steals all of her money and leaves her in debt she knows there is only one solution sell her house and start a new life So she lines up a new job in Buffalo and decides to make the road trip to her new home a mini vacation She ll visit all the interesting sites along the way making the best out of a bad situation But she quickly finds out that she hasn t left everything behind Her nightmares continue even when she s awake In them a man with a perverse grin terrorizes her She doesn t know what he wants but she knows very well that he s evil Meanwhile FBI agent

Frank Welker is investigating a string of deaths He s finding bodies along the same route that Felice is traveling to Buffalo and he s beginning to think that she might be a serial killer If Felice can t convince authorities to take her nightmares seriously she just might be the next victim of The Grinning Man      Redeeming Sin? Ernst M. Conradie,2017-10-11 Can Christian sin talk be retrieved within the public sphere In this contribution to ecotheology Ernst M Conradie argues that amid ecological destruction discourse on sin can contribute to a multidisciplinary depth diagnosis of what has gone wrong in the world He confronts some major obstacles related to the plausibility of sin talk in conversation with evolutionary biology the cognitive sciences and animal ethology He defends an Augustinian insistence that social evil rather than natural evil is our primary predicament If the root cause of social evil is sin then a Christian confession of sin may yet yield good news for the whole earth      Darwin and Faulkner's Novels M. Wainwright,2008-03-31 Displaying a wide range of knowledge and interpretive skill Darwin and Faulkner s Novels reexamines the fiction of the great twentieth century American author from the interdisciplinary perspective of sociobiology Challenging the assumption that Faulkner s South was nothing other than a reactionary wilderness and charting the manner in which Faulkner learned and applied his evolutionary concepts this book unsettles staid interpretations of the Falknerian canon and overturns habitual judgments as to the value of his later novels

**T&T Clark Handbook of Christian Theology and Climate Change** Hilda P. Koster,Ernst M. Conradie,2019-12-12 The T these essays are critically engaged by respondents situated in other geographic regions minority communities non Christian traditions or non theological disciplines Structured in seven main parts the handbook explores 1 the need for collaboration with disciplines outside of Christian theology to address climate change 2 the need to find common moral ground for such collaboration 3 the difficulties posed by collaborating with other Christian traditions from within 4 the questions that emerge from such collaboration for understanding the story of God s work and 5 God s identity and character 6 the implications of such collaboration for ecclesial praxis and 7 concluding reflections examining whether this volume does justice to issues of race gender class other animals religious diversity geographical divides and carbon mitigation This rich ecumenical cross cultural conversation provides a comprehensive and in depth engagement with the theological and moral challenges raised by anthropogenic climate change      **Human Rights in International Investment Law and Arbitration** Pierre-Marie Dupuy,Francesco Francioni,Ernst-Ulrich Petersmann,2009 This book offers a systematic analysis of the interaction between international investment law investment arbitration and human rights including the role of national and international courts investor state arbitral tribunals and alternative jurisdictions the risks of legal and jurisdictional fragmentation the human rights dimensions of investment law and arbitration and the relationships of substantive and procedural principles of justice to international investment law Part I summarizes the main conclusions of the 24 book chapters and places them into the broader context of the principles of justice global administrative law and multilevel constitutionalism that may be relevant for the administration of justice in international economic law and investor state

arbitration Part II includes contributions clarifying the constitutional dimensions of transnational investment disputes and investor state arbitration as reflected in the increasing number of arbitral awards and amicus curiae submissions addressing human rights concerns Part III addresses the need for principle oriented ordering and the normative congruence of diverse national regional and worldwide legal regimes focusing on the pertinent dispute settlement practices and legal interpretation methods of regional economic courts and human rights courts which increasingly interpret international economic law with due regard to human rights obligations of the governments concerned Part IV includes twelve case studies on the potential human rights dimensions of specific protection standards e g fair and equitable treatment non discrimination applicable law e g national and international human rights law rules on corporate social accountability procedural law issues e g amicus curiae submissions and specific fundamental rights e g the protection of human health access to water and protection of the environment These case studies discuss not only the still limited examples of human rights discourse in investor state arbitral awards they also probe the potential legal relevance of investor state arbitration for the judicial recognition interpretation and balancing of primary rules such as of investment law and human rights law in the light of the principles of justice as defined by national and international law

*Religion in the Anthropocene* Celia E. Deane-Drummond, Sigurd

Bergmann, Markus Vogt, 2017-03-28 This book charts a new direction in humanities scholarship through serious engagement with the geopolitical concept of the Anthropocene Drawing on religious studies theology social science history and philosophy and can be broadly termed the environmental humanities this collection represents a groundbreaking critical analysis of diverse narratives on the Anthropocene The contributors to this volume recognize that the Anthropocene began as a geological concept the age of the humans but that its implications are much wider than this Will the Anthropocene have good or bad ethical outcomes Does the Anthropocene idea challenge the possibility of a sacred Nature which shores up many religious approaches to environmental ethics Or is the Anthropocene a secularized theological anthropology more properly dealt with through traditional concepts from Catholic social teaching on human ecology Do theological traditions such as Christology reinforce negative aspects of the Anthropocene Not all contributors in this volume agree with the answers to these different questions Readers will be challenged provoked and stimulated by this book

*Examining Biophilia and Societal Indifference to Environmental Protection* Markey, Mary Ann, Meinecke, Lonny Douglas, 2020-07-24 The theory of biophilia posits that there is an innate connection between all the species that share Earth's biosphere and that this connection is inherently collaborative as organisms work together to ensure survival as opposed to competing for resources and territory As threats to the environment increase in frequency and scale applying a scientifically rigorous lens to the biophilia theory becomes crucial to ensuring survival Examining Biophilia and Societal Indifference to Environmental Protection is a pivotal reference source that explores the relationship between nature humanity and mindfulness The book is broken into three sections with the first section introducing the reader to biophilia and examining how this phenomenon

results in human awe for nature The second section investigates the value of biophilia and covers human exploitation of nature including how this has changed the regard for children and elders The final section outlines a practical approach to restoring nature and renewing faith in one another While highlighting a broad range of topics including mental health natural disasters and taxonomy this book is ideally designed for biologists activists engineers policymakers government officials academicians researchers and students **APAIS 1994: Australian public affairs information service ,**

**Saturday Review of Literature ,1930** *The Edge of Evolution* Michael J. Behe,2007-06-05 When Michael J Behe s first book Darwin s Black Box was published in 1996 it launched the intelligent design movement Critics howled yet hundreds of thousands of readers and a growing number of scientists were intrigued by Behe s claim that Darwinism could not explain the complex machinery of the cell Now in his long awaited follow up Behe presents far more than a challenge to Darwinism He presents the evidence of the genetics revolution the first direct evidence of nature s mutational pathways to radically redefine the debate about Darwinism How much of life does Darwin s theory explain Most scientists believe it accounts for everything from the machinery of the cell to the history of life on earth Darwin s ideas have been applied to law culture and politics But Darwin s theory has been proven only in one sense There is little question that all species on earth descended from a common ancestor Overwhelming anatomical genetic and fossil evidence exists for that claim But the crucial question remains How did it happen Darwin s proposed mechanism random mutation and natural selection has been accepted largely as a matter of faith and deduction or at best circumstantial evidence Only now thanks to genetics does science allow us to seek direct evidence The genomes of many organisms have been sequenced and the machinery of the cell has been analyzed in great detail The evolutionary responses of microorganisms to antibiotics and humans to parasitic infections have been traced over tens of thousands of generations As a result for the first time in history Darwin s theory can be rigorously evaluated The results are shocking Although it can explain marginal changes in evolutionary history random mutation and natural selection explain very little of the basic machinery of life The edge of evolution a line that defines the border between random and nonrandom mutation lies very far from where Darwin pointed Behe argues convincingly that most of the mutations that have defined the history of life on earth have been nonrandom Although it will be controversial and stunning this finding actually fits a general pattern discovered by other branches of science in recent decades The universe as a whole was fine tuned for life From physics to cosmology to chemistry to biology life on earth stands revealed as depending upon an endless series of unlikely events The clear conclusion The universe was designed for life *Inclusive Education in South African Further and Higher Education* Tsedisio Michael Makoelle,Cina P.
