The Castaways of the Flag (or Second Fatherland) (Includes the Complete Two Volumes: Their Island Home and the Castaways of the Flag) Jules Verne, 2016-08-24 The youth of Europe many generations of it owes a big debt to Jules Verne the old romancer who worked for so many years in his turret room at Amiens to entertain it From that room with its many bookshelves came volume after volume of adventure mostly with a big admixture of the scientific M Verne was not one of those who pile hairbreadth escapes one upon another till they become incredible There are plenty of things happening in his books but they are the sort of things that would happen given the circumstances and he explains why and how they chanced in the most convincing manner possible In these days of submarines and aeroplanes it is interesting to read again the wonderful Frenchman's forecast of them in such books as Twenty Thousand Leagues under the Sea and The Clipper of the Clouds Round the World in Eighty Days the task would be an easy one now but at the time when he wrote it required great ingenuity to make it seem possible and the end of that book is one of the most ingenious things in fiction though it has for justification a simple geographical fact Phineas Fogg was a day late as he believed He had apparently lost his wager But having gone round the world in the right direction he had gained a day and just won If he had gone the other way he would have been two days late for a day would have been lost to him cut right out of the calendar *The Castaways of the Flag: The Final Adventures of the Swiss Family Robinson* Jules Verne, 2021-11-05 In The Castaways of the Flag The Final Adventures of the Swiss Family Robinson Jules Verne intricately weaves a tale that blends adventure with the philosophical themes of survival and humanity's relationship with nature Written in Verne's

signature style which meticulously combines scientific detail with imaginative storytelling this novel serves as both a sequel and a tribute to Johann David Wyss's original work. Set against the backdrop of uncharted territories and treacherous seas, the story follows the daring escapades of the castaways as they navigate the trials of life on a deserted island, grappling with both the thrill of discovery and the harsh realities of isolation. Jules Verne, often hailed as the father of science fiction, drew inspiration from his own experiences and the advances of the 19th century. His background in law and his fascination with geography and technology shaped his literary pursuits, encouraging him to explore themes of exploration, adventure, and ingenuity. Through this work, Verne extends the narrative of the Swiss Family Robinson, urging audiences to contemplate the resilience of the human spirit in the face of adversity. Recommended for those who relish adventure intertwined with deep reflections on survival, *The Castaways of the Flag* is a compelling read that invites readers to embark on an extraordinary journey alongside its intrepid characters. Verne's masterful storytelling will captivate not only fans of the original Swiss Family Robinson but also anyone who appreciates thrilling voyages into the unknown.

The Castaways of the Flag (Illustrated) Jules Verne, 2020-09-30. This story is a sequel to *Their Island Home*, which takes up the adventures of the Swiss Family Robinson at the place where the author of the original narrative dropped them. *The Swiss Family Robinson* seems to have affected Jules Verne's literary bent as no other book ever did. It gave him that liking for the lonely island life as the basis of a yarn which is conspicuous in much of his work. In a preface to the story of which this is really a part, he tells how firmly New Switzerland established itself in the fabric of his thoughts till it became for him a real island inhabited by real people. At last he was compelled to write about it, and *Their Island Home* and *The Castaways of the Flag* are the result. The youth of Europe, many generations of it, owes a big debt to the old romancer who worked for so many years in his turret room at Amiens to entertain it. From that room, with its many bookshelves, came volume after volume of adventure, mostly with a big admixture of the scientific. Verne was not one of those who pile hairbreadth escapes one upon another till they become incredible. There are plenty of things happening in his books, but they are the sort of things that would happen given the circumstances, and he explains why and how they chanced in the most convincing manner possible. In these days of submarines and aeroplanes, it is interesting to read again the Frenchman's forecast of them in such books as *Twenty Thousand Leagues Under the Sea* and *The Clipper of the Clouds*. Round the World in Eighty Days, the task would be an easy one now, but at the time when he wrote it, it required great ingenuity to make it seem possible, and the end of that book is one of the most ingenious things in fiction, though it has for justification a simple geographical fact. Phileas Fogg was a day late as he believed. He had apparently lost his wager. But having gone round the world in the right direction, he had gained a day and just won. If he had gone the other way, he would have been two days late for a day would have been lost to him, cut right out of the calendar. With the restoration of Fritz Zermatt and his wife Jenny, his brother Frank, and the other Castaways of the Flag to their anxious and sorely tried relatives in New Switzerland, the story of *The Swiss Family Robinson* is brought

to its proper end Thereafter the interest of their domestic life is merged in that of the growth of a young colony Romance is merged in history and the romancer s work is finished Jules Verne has here set the coping stone on the structure begun by Rudolph Wyss and in The Swiss Family Robinson Their Island Home and The Castaways of the Flag we have not a story and two sequels but a complete trilogy which judges who survey it must pronounce very good **Their Island Home: The Later Adventures of the Swiss Family Robinson** Jules Verne,2008 The dry season set in at the beginning of the second week of October This is the first spring month in the Southern zone The winter in this nineteenth degree of latitude between the Equator and the tropic of Capricorn had not been very severe The inhabitants of New Switzerland would soon be able to resume their wonted labours After eleven years spent upon this land it was none too soon to attempt to ascertain whether it was a part of one of the continents laved by the Indian Ocean or whether it must be included by geographers among the islands of those seas Since the rescue by Fritz of the young English girl upon Burning Rock M Zermatt and his wife his four sons and Jenny Montrose had been happy on the whole Of course they had at times fears of the future and of the great improbability of deliverance reaching them from outside and they had too memories of home and a longing to get into touch again with mankind To day then at a very early hour M Zermatt passed through the orchard of Rock Castle and walked along the bank of Jackal River Fritz and Jack were there before him equipped with their fishing tackle As for Ernest always bad at getting up yearning for five minutes longer between the sheets he had not yet left his bed Mme Zermatt and Jenny were busy within doors Papa said Jack it is going to be a fine day I think it is my boy M Zermatt replied And I hope that it will be followed by many more as fine since we are at the beginning of spring What are you going to do to day Frank asked We are going fishing Fritz answered showing his net and lines In the bay M Zermatt enquired No Fritz answered if we go up Jackal River as far as the dam we shall catch more fish than we shall require for breakfast And then said Jack addressing his father Then my boy M Zermatt replied we shall not be at a loss for a job In the afternoon for example I am thinking of going to Falconhurst to see if our summer dwelling requires any repairs Besides we shall take advantage of the first fine days to visit our other farms Wood Grange Sugar cane Grove the hermitage at Eberfurt and the villa at Prospect Hill And then there will be the animals to attend to and the plantations to get into order

Theorising Literary Islands Ian Kinane,2016-11-16 Theorising Literary Islands is a literary and cultural

study of both how and why the trope of the island functions within contemporary popular Robinsonade narratives It traces the development of Western islandomania or our obsession with islands from its origins in Daniel Defoe's Robinson Crusoe right up to contemporary Robinsonade texts focusing predominantly on American and European representations of fictionalized Pacific Island topographies in contemporary literature film television and other media Theorising Literary Islands argues that the ubiquity of island landscapes within the popular imagination belies certain ideological and cultural anxieties and posits that the emergence of a Western popular culture tradition can largely be traced through the development of the Robinsonade genre and through early European and American fascination with the Pacific region
