Luster, 1971 The cave temples of Maichishan, 1984 *A Portrait of Five Dynasties China* Glen Dudbridge, 2013-02-28 The anecdotal literature of late medieval China is not unknown but it is under used Glen Dudbridge explores two collections of anecdotal memoirs to construct an intimate portrait of the first half of the tenth century as seen by people who lived through it The author Wang Renyu s adult life coincided closely with that period and his memoirs though not directly transmitted can be largely recovered from encyclopaedia quotations His experience led from early life on the north west border with Tibet through service with the kingdom of Shu to a mainstream career under four successive dynasties in northern China He bore personal witness to some great events but also travelled widely and transcribed material from a lifetime of conversations with colleagues in the imperial Hanlin Academy The study first sets Wang s life in its historical context and discusses the nature and value of his memoirs It then pursues a number of underlying themes that run through the collections presenting nearly 80 distinct items in translation Together these offer a characterization of an age of inter regional warfare in which individual lives not grand historical narrative form the focus A nuanced self portrait of the author emerges combining features that seem alien to modern values with others that seem more familiar Four appendixes give the text of the author s tombstone epitaph a detailed list of his surviving memoir items data from Song catalogues on the early transmission of his writings and Wang Renyu s own definition of the four musical modes inherited from the Tang dynasty **The Arts of China, Fifth Edition, Revised and Expanded** Michael Sullivan, 2008 From the Neolithic to the avant garde and through all the brilliant centuries in between Michael Sullivan s introduction to Chinese art history is the classic in its field unsurpassed in its clarity balance and sure grasp of the subject Whether for the classroom student or the casual reader its remarkable range and

Chinese Steles Dorothy C. Wong, 2004-09-30 Buddhist steles represent an important subset of early Chinese Buddhist art that flourished during the Northern and Southern Dynasties period 386-581 More than two hundred Chinese Buddhist steles are known to have survived Their brilliant imagery has long captivated scholars yet until now the Buddhist stele as a unique art form has received little scholarly attention Dorothy Wong rectifies that insufficiency by providing in this well illustrated volume the first comprehensive investigation of this group of Buddhist monuments She traces the ancient roots of the Chinese stele tradition and investigates the process by which Chinese steles were adapted for Buddhist use She arranges the known corpus of Buddhist steles into broad chronological and regional groupings and analyzes not only their form and content but also the nexus of complex issues surrounding this art form from cultural symbolism to the interrelations between religious doctrine and artistic expression economic production patronage and the synthesis of native and foreign art styles In her analysis of Buddhism's dialogue with native traditions Wong demonstrates how the Chinese artistic idiom planted the seeds for major achievements in figural and landscape arts in the ensuing Sui and Tang periods
