The Central Moluccas Katrien Polman,1983 *Annotated Bibliography of Bibliographies on Indonesia* H. Kemp,2024-09-16 **The Revolt of Prince Nuku** Muridan Satrio Widjojo,2009 During the period of the Dutch East India Company s rule of the Spice Islands Prince Nuku of Tidore stands out as the local hero who opposed the VOC s oppressive trade monopoly This study analyzes how he succeeded in regaining independence for the Sultanate of Tidore by creating an alliance with the English and his Malukan and Papuan adherents **The Malay World of Southeast Asia** Patricia Lim Pui Huen,1986 Over 5 000 entries arranged in four parts Part I comprises reference and general works to provide a guide to information on Southeast Asia Part II provides the setting of space and time Part III features the people and Part IV the many facets of culture and society language ideas beliefs values institutions creative expression and social and cultural change Within each section the arrangement is geographical beginning with Southeast Asia as a whole followed by the various countries in alphabetical order **Historical Dictionary of Indonesia** Audrey Kahin,2015-10-29 A wide flung archipelago lying between the Pacific and Indian Oceans Indonesia is the world s most populous Islamic country For over two thousand years it was a crossroads on the major trading route between China and India but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century Declaring its independence from the Dutch in 1945 the Republic of Indonesia was ruled by only two regimes over the next half century Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption However since 2004 Indonesia has successfully carried out four direct elections for president together with an equal number of elections for legislative bodies at all levels of government and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure This third edition of Historical Dictionary of Indonesia contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 900 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Indonesia

Ecology of Nusa Tenggara Kathryn Monk,Yance De Fretes,2012-06-05 The Ecology of Nusa Tenggara and Maluku is a comprehensive ecological survey of a series ecologically diverse islands in the Pacific It contains extensive baseline data on the region s people ecosystems biodiversity and land use and discusses these in a historical as well as a developmental context It also provides guidelines for scientific researchers on worthwhile ecological and socio economic research projects This region is the most diverse in Indonesia Its myriad islands range from small atolls to active volcanic islands rising 3 500 meters above sea level Each province has extensive coastlines only 10 percent of the province of Maluku is land The seas include shallow continental shelves and some of the deepest sea basins in the world The complexity and vulnerability of these islands mean that development and environment are inextricably linked If this is not understood and acted upon there is no

possibility for the ecologically sustainable development of Nusa Tenggara and Maluku

The Cambridge History of Southeast Asia: Volume 2, The Nineteenth and Twentieth Centuries Nicholas Tarling, 1992 Southeast Asia has long been seen as a unity although other terms have been used to describe it Further India Little China the Nanyang The region has had a protracted maritime history Confucianism Buddhism Islam Hinduism Christianity are all represented It has seen a quintet of colonial powers Britain France The Netherlands Spain the United States Most recently it has become one of the fastest growing parts of the world economy The very term Southeast Asia is clearly more than a geographical expression The Cambridge History of Southeast Asia is a multi authored treatment of the whole of mainland and island Southeast Asia from Burma to Indonesia Unlike other histories of the region it is not divided on a country by country basis and is not structured purely chronologically but rather takes a thematic and regional approach to Southeast Asia s history This volume the second and final in the series takes us into the nineteenth and twentieth centuries from the late eighteenth century of the Christian era when most of the region was incorporated into European empires to the complexity and dramatic change of the post World War II period It covers the economic and social life as well as the religious and popular culture of the region as they develop over two centuries The political structures of the region are also closely examined from the insurgencies and rebellions of early this century to the modern Nationalist movements which challenged the control of the colonial powers and led to the formation of independent states Under the editorship of Nicholas Tarling Professor of History at the University of Auckland New Zealand each chapter is well integrated into the whole Professor Tarling has assembled a highly respected team of international scholars who have presented the latest historical research on the region and succeeded in producing a provocative and exciting account of the region s history

China's Seaborne Trade with South and Southeast Asia (1200-1750) Roderich Ptak, 2024-12-11 This second selection of studies by Professor Ptak focuses on Chinese maritime trade in the medieval and early modern periods The first section deals with contacts between China and individual places in particular Timor the Sulu Islands southern India and the islands of the Indian Ocean Chinese geographical and other accounts of these areas and the trade routes leading to them are examined and where possible compared with Arabic and Western works from the colonial period The second part looks at trade in specific commodities such as sandalwood coral horses tortoise shell ebony cloves and tea Relevant Chinese terms the uses of each commodity and the production and distribution are analysed Both qualitative and quantitative information is drawn from the sources and it is demonstrated that many trade items were much more significant in international business than has been thought At the same time these studies highlight the importance of Chinese consumption in driving world commodity flows
