The Challenge Of New Territories:

The Unruly New Territories Malcolm Merry, 2019-05-06 At the end of the nineteenth century a slice of imperial China was abruptly incorporated into the British Crown Colony of Hong Kong. It became known as the New Territories. The people of this remote and traditional corner of the Qing empire were not consulted about the annexation; initially resisted and long resented it. To placate them, the incoming authorities promised that little would alter and that their customs would be respected. The promise would not be fully kept, but it became the source of the preservation of Chinese customary law in respect of rural land and the justification for privileges afforded to indigenous inhabitants. Their tenacious assertion of those rights and aversion to authority is detectable throughout the twentieth century and into the era of the Hong Kong Special Administrative Region; it permeates almost every aspect of policy and law relating to rural land. *The Unruly New Territories* is an account of the annexed area and of its special place in Hong Kong history and law. It recounts the customs and privileges, how they preserved a China that was elsewhere disappearing, and how they gave and, despite enormous changes, continue to give leverage to indigenous representatives in dealings with government, as well as handsome profits to rural landowners. This fascinating and impressive book is a must-read for all who want to know more about the New Territories. Malcolm Merry traces, with his usual clarity and insight, its unique land history that blends, not always harmoniously, Chinese custom with the advance of common law and this area's dramatic development. Sarah Nield, University of Southampton. *The Unruly New Territories* covers various aspects of land law and custom in the New Territories and the history of this region in a thoughtful and provocative combined thesis. A must-read for anyone studying the laws and customs affecting land in rural Hong Kong and interested in the history of the New Territories. Steven Gallagher, The Chinese University of Hong Kong.
