Emma is unhappy at home Her parents fight and party too much Her stepsister just moved away and Emma feels alone When the mysterious Jester Giraurd appears he convinces Emma to go with him through Strange Corridors promising to take her to her older sister Soon Emma encounters many bizarre creatures such as the Hanged Man the Talking Crow and the Woman In Black With her newfound friends Paul and Orgo Emma tries to rescue children shanghaied through the Strange Corridors But can they defeat the evil Drake Sisters and bring the children to freedom The Western Range Revisited Debra L. Donahue, 1999 Livestock grazing is the most widespread commercial use of federal public lands The image of a herd grazing on Bureau of Land Management or U S Forest Service lands is so traditional that many view this use as central to the history and culture of the West Yet the grazing program costs far more to administer than it generates in revenues and grazing affects all other uses of public lands causing potentially irreversible damage to native wildlife and vegetation The Western Range Revisited proposes a landscape level strategy for conserving native biological diversity on federal rangelands a strategy based chiefly on removing livestock from large tracts of arid BLM lands in ten western states Arizona California Colorado Idaho Nevada New Mexico Oregon Utah Washington Wyoming Drawing from range ecology conservation biology law and economics Debra L Donahue examines the history of federal grazing policy and the current debate on federal multiple use sustained yield policies and changing priorities for our public lands Donahue a lawyer and wildlife biologist uses existing laws and regulations historical documents economic statistics and current scientific thinking to make a strong case for a land management strategy that has been until now unthinkable A groundbreaking interdisciplinary work The Western Range Revisited demonstrates that conserving biodiversity by eliminating or reducing livestock grazing makes economic sense is ecologically expedient and can be achieved under current law *Kemmerer Field Office Planning Area, Resource Management Plan* , 2008
