

Child Case Study

Child Case Study Physical Presence and Gesture: Brady is a boy who is 7 yrs. 3 months in age. For his age Brady appears to be large in size. He stands 4 ft. 6 inches tall and weighs 95 pounds. Next to his peers Brady stands out as he is in the 99th percentile for both height and weight. Brady is the oldest child of 4. Brady has short brown hair, big brown eyes, and a big smile. When Brady is smiling the gap in his front teeth is very noticeable as well as his dimples. When Brady is feeling mischievous he gets slightly cross-eyes but only for a brief moment.

Brady has big ears and his right ear is missing cartilage causing it to fold over slightly. Brady has several freckles and a couple of tiny moles on his cheeks. Brady has a creamy white complexion but when frustrated becomes very red in the cheeks as well as on the tops of his ears. Brady's head is very circular and seems a bit large for his body. Brady has what some might consider a flat face. He has a button nose, big cheeks, and very long, thick eyelashes. Brady is quite storky with a little bit of chubbiness about him. Brady likes to fidget and is constantly moving.

He likes to sway his arms, kick his feet, fidget with his fingers; he is constantly moving some body part. **Disposition & Temperament** Brady is diagnosed as having an anger disorder and ODD. Brady likes to talk a lot and is very inquisitive. Brady is also gifted/talented causing him to become bored easily if he is not challenged. Brady is easily angered and is often triggered to an anger outburst by simple rejections. Brady at times can be very loving and cuddly. Brady fears being alone and is scared to be in a room when nobody is present. Brady appears to have two sides to him.

When Brady is not triggered by anger outbursts he is very friendly, kind, has a heart of gold, is helpful to others, likes to play with his friends & siblings, doesn't seem so fearful of small everyday events and situations, and yet when he is experiencing anger outbursts his anxiety level is extreme, he is harmful to himself/others, makes threats to kill people (has begun to tell them how he would kill them), states that he sees monsters/alligators, becomes extremely hot, and then when the outbursts are depleting he begins to feel sick to his stomach, coughs, and cries. Sometimes Brady feels remorse for his actions, but most likely not.

Brady has been physical with his siblings/friends & mother. Brady has hit things (causing himself to break his pinky), smashed things, and threatened to run away. Brady takes medication for his outbursts but they don't seem to be working. There are sometimes where these angry bouts disappear for a couple of weeks and then there are times where they happen several times throughout one day. Connections with other people Brady values his friendships that he does have and his relationships with teachers/authority. It takes a very long time for Brady to open up to others and tru
