Japan's Occupation of Java in the Second World War Ethan Mark, 2018-07-12 Shortlisted for the ICAS International Convention of Asia Scholars Book Prize in the Humanities 2019 Japan's Occupation of Java in the Second World War draws upon written and oral Japanese Indonesian Dutch and English language sources to narrate the Japanese occupation of Java as a transnational intersection between two complex Asian societies placing this narrative in a larger wartime context of domestic regional and global crisis Japan's occupation of Java is here revealed in a radically new and nuanced light as an ambiguous encounter revolutionary in the degree of mutual interests that drew the two sides together fascinating and tragic in its evolution and profound in the legacies left behind Mark structures his study around a diverse group of Japanese and Indonesians captivated by the wartime vision of a Greater Asia The book is not only the first transnational study of Japan's wartime occupation of Java but the first to focus on the Second World War experience in transnational terms on the ground anywhere in Asia Breaking new ground interpretatively thematically and narratively Mark's monumental study is of vital significance for students and scholars of modern Asian and global history This book is

published in partnership with Columbia University's Weatherhead East Asian Institute <http://weai.columbia.edu/japans-occupation-of-java> Japan's Cultural Policy Toward China, 1918-1931 See Heng Teow, 2020-03-23 Most existing scholarship on Japan's cultural policy toward modern China reflects the paradigm of cultural imperialism. In contrast, this study demonstrates that Japan, while motivated by pragmatic interests, international cultural rivalries, ethnocentrism, moralism, and idealism, was mindful of Chinese opinion and sought the cooperation of the Chinese government. Japanese policy stressed cultural communication and inclusiveness rather than cultural domination and exclusiveness and was part of Japan's search for an East Asian cultural order led by Japan. China, however, was not a passive recipient and actively sought to redirect this policy to serve its national interests and aspirations. The author argues that it is time to move away from the framework of cultural imperialism toward one that recognizes the importance of cultural autonomy, internationalism, and transculturation.

China-Japan Relations after World War Two Amy King, 2016-06-06 A rich empirical account of China's foreign economic policy towards Japan after World War Two, drawing on hundreds of recently declassified Chinese sources. Amy King offers an innovative conceptual framework for the role of ideas in shaping foreign policy and examines how China's Communist leaders conceived of Japan after the war. The book shows how Japan became China's most important economic partner in 1971 despite the recent history of war and the ongoing Cold War divide between the two countries. It explains that China's Communist leaders saw Japan as a symbol of a modern industrialised nation and Japanese goods, technology, and expertise as crucial in strengthening China's economy and military. For China and Japan, the years between 1949 and 1971 were not simply a moment disrupted by the Cold War but rather an important moment of non-Western modernisation stemming from the legacy of Japanese empire, industry, and war in China. Chinese Sojourners in Wartime Raj, 1942-45 Cao Yin, 2022 This book is about how the activities of the Chinese sojourners in wartime India caused great concerns to the British colonial regime and the Chinese Nationalist government alike and how these sojourners responded to the surveillance discipline and check imposed by the governments. *Chinese Perceptions of the Jews' and Judaism* Zhou Xun, Xun Zhou, 2013-12-16 While prejudice against Jews is a real and ongoing category in Western culture, little attention has been paid to the myths of the Jews and their impact in countries outside the West. This work draws on a wide variety of source materials from the past two centuries to examine the images of the Jews as constructed in China. However, the interest here does not lie in the determination of the boundary between the real and fictional aspects of these images. Rather, it lies in the implications associated with the Jew as an other which remains a distant mirror in the construction of the self amongst various social groups in modern China. Although it has been noted by a few scholars that the use of the Jews as a category was important to many thinkers of modern China in the construction of their nationalistic and socio-political ideologies, this is the first systematic study in the field to be published. This book is also more than a historical book on China in that it opens a new arena for modern Jewish studies from a unique angle. Chinese Politics in the Hu Jintao Era: New Leaders, New
