The Family Of Love:

The Family of Love Alastair Hamilton, 1981-01-01 The history of the 16th and 17th century Dutch heresy hated by both Protestants and Catholics but influenced by both The mystery which surrounded the heterodox sect known as the Family of Love has been a source of endless fascination to scholars On the one hand some of the greatest humanists of the late 16th century were associated with it the printer Christophe Plantin the cartographer Abraham Ortelius the philosopher and philologist Justus Lipsius and the Spanish biblical scholar Benito Arias Montano On the other it acquired a sinister reputation for antinomianism particularly in England where it survived into the 17th century and as a spiritual movement took its place amongst the non conformist movements under the Commonwealth Professor Hamilton's is the first comprehensive study to connect the Family of Love in England with the sect on the continent Working from extensive primary sources in Holland Belgium Great Britain and the United States he provides a detailed study of the careers and thought of the two main ideologists of the sect the founder Hendrik Niclaes and his schismatic follower Hendrik Jansen van Barrefet Hiel He gives a lucid account of the various humanists connected with the movement and analyses in depth the ramifications of the Family of Love not only in the Low Countries but also in France Germany and England The Family of Love is at once a readable and a definitive history of a neglected but significant sect in Europe

Family Love in the Diaspora Mary Chamberlain, 2017-07-05 Colonial social policy in the British West Indies from the nineteenth century onward assumed that black families lacked morals structure and men a void that explained poverty and lack of citizenship African Caribbean families appeared as the mirror opposite of the ideal family advocated by the white colonial authorities Yet contrary to this image what provided continuity in the period and contributed to survival was in fact the strength of family connections their inclusivity and support This study is based on 150 life story narratives across three generations of forty five families who originated in the former British West Indies The author focuses on the particular axes of Caribbean peoples from the former British colonies of Jamaica Trinidad and Tobago and Barbados and Great Britain Divided into four parts the chapters within each present an oral history of migrant African Caribbean families demonstrating the varieties organization and dynamics of family through their memories and narratives It traces the evolution of Caribbean life argues how the family can be seen as the tool that helps transmit and transform historical mentalities examines the dynamics of family life and makes comparisons with Indo Caribbean families

Above all this is a story of families that evolved against the odds of slavery and poverty to form a distinct Creole form through which much of the social history of the English speaking Caribbean is refracted Family Love in the Diaspora offers an important new perspective on African Caribbean families their history and the problems they face for now and the future It offers a long overdue historical dimension to the debates on Caribbean families
