The Far Side Mating Rituals 2006 Desk Calendar:

The Far Side Mating Rituals Gary Larson, 2005 Darwin figured it out 150 years ago The Theory of Natural Selection Survival of the fittest Remember that from junior high biology The strongest smartest fastest most attractive members of an animal species succeed in winning mates thus assuring the survival and gradual evolution of their breed Think about it and then feel good about yourself After all you've survived You spring from a long line of winners Well done But what comes of the less fit those that nature does not select You know the slow witted and weak the dim and the just plain dorky Well but for the work of one man we likely would never know Luckily Gary Larson has chronicled the mishaps maladies and miserable failures of these less than alpha males and females in *The Far Side* By paying special attention to the peculiar mating rituals practiced by *The Far Side*'s subjects dogs cows clowns apes nerds etc Larson has over the years developed what amounts to the definitive treatise on inept courtship behavior Call it Larson's own Theory of Natural Rejection Each week this little gem of a calendar presents a rare behind the scenes glimpse at nature's chronic romantic underachievers It's like that show *Blind Date* except starring insects aliens farm animals and cavemen Read these cartoons Laugh if you must But above all learn Learn from their mistakes Because like it or not the continued viability of the species depends on you We thank you and Charles Darwin thanks you *The Far Side* is a registered trademark of FarWorks Inc The Publishers Weekly, 2005
