The Farm Life Inside A Womens Prison:

The Farm Andi Rierden, 1997 Written by a journalist this book depicts the day to day struggles and concerns of inmates at the Connecticut Correctional Institution in Niantic renamed the Janet S York correctional Institution the state's only prison for women Built in 1917 as a work farm for prostitutes unwed mothers and other women of allegedly immoral character the Farm as it is still called has long served as a barometer of prevailing social attitudes toward women In the summer of 1992 Andi Rierden obtained permission from the warden at Niantic to conduct research on life inside the institution During the next three and a half years she spent more than fifteen hundred hours among the women recording interviews strolling the grounds with inmates and corrections officers sharing meals attending classes and group counseling sessions and tracking former inmates after their release The stories these women tell shed light on a wide range of issues from the effects of more stringent drug laws and sentences to the rise of violence among inmates In the process it becomes clear that the ideal of rehabilitation has been largely abandoned and replaced by a belief in punishment and retribution

The Environmental Psychology of Prisons and Jails Richard Wener, 2012-06-18 Jails and prisons are the only settings in which people are held against their will possibly for long periods of time and often

with no pretense of doing so for their personal benefit Occupants have little if any control over their lives as for instance the most basic assumptions about privacy to dress shower and use the toilet are violated This book addresses the impact of environmental design on inmates and staff members in jails and prisons and shows how design can dramatically affect the level of stress and violence Class, Race, Gender, and Crime Gregg Barak, Paul Leighton, Jeanne Flavin, 2010-07-16 A decade after its first publication *Class Race Gender and Crime* remains the only non edited book to systematically address the impact of class race and gender on criminological theory and all phases of the administration of criminal justice including its workers These topics represent the main sites of inequality power and privilege in the U S which consciously or unconsciously shape people s understandings of who is a criminal and how society should deal with them The third edition has been thoroughly updated and revised Maintaining the accessible high interest narrative from previous editions it incorporates current data recent theoretical developments and new examples ranging from Bernie Madoff and the recent financial crisis to the increasing impact of globalization in addition to classic examples This edition also features a revised structure to better tailor the book for use in the classroom Part I now provides an introduction to criminology and criminal justice Part II introduces foundational information on the key concepts of class and economic privilege race ethnicity and white privilege gender and male privilege and the intersections of these privileges And Part III examines victimization criminal law criminal prosecution and punishment looking at each through the lenses of class race and gender *Impacts of Incarceration on the African American Family* Othello Harris, Robin Miller, 2018-05-04 The criminal justice system has driven a wedge between black men and their children African American men are involved in the criminal justice system whether through incarceration probation or parole at near epidemic levels At the same time the criminal justice system has made little or no institutional efforts to maintain or support continuing relationships between these men and their families Consequently African American families are harmed by this in countless ways from the psychological physical and material suffering experienced by the men themselves to losses felt by their mates children and extended family members The volume opens with an introduction and brief review by R Robin Miller Sandra Lee Browning and Lisa M Spruance outlining the impacts of incarceration on the African American family Brad Tripp explores changes in family relationships and the identity of incarcerated African American fathers Mary Balthazar and Lula King discuss the loss of the protective effect of marital and nonmarital relationships and its impact on incarcerated African American men and the implications for African American men and those who work with them in the helping professions Theresa Clark explores the relationship between visits by family and friends and the nature of inmate behavior In a research note Olga Grinstead Bonnie Faigeles Carrie Bancroft and Barry Zack investigate the actual costs families incur to maintain contact with family members be it emotional social or financial Patricia E O Connor uses data from sociolinguistic interviews of male inmates from a maximum security prison to study how some of these men manage to continue to fulfill the fatherhood role long distance In a concluding chapter Sandra Lee

Browning Robin Miller and Lisa Spruance focus on actions of the criminal justice system that undermine the black family on reasons that black male inmate fathers are studied so rarely and discuss the role restorative justice may play This insightful volume fills a void in the literature on the role of African American men in the functioning of families It will be of interest to students of African American studies social workers and policy makers **Class, Race, Gender, and Crime** Paul

A Comprehensive Study of Female Offenders Martin Guevara Urbina, 2008 Few empirical studies have focused on women in prison In the last few years though a number of studies have demonstrated that there are fundamental differences between male and female prisoners in an ever changing penal system Consequently there has been a need for more comprehensive studies of female offenders for three primary reasons 1 imperative research gaps remain to be bridged 2 the female prison experience is not constant and 3 prison rates for female offenders especially minority offenders have increased considerably in the last few years A central goal of this book then is to provide a balance to the existing literature and research on female prisoners in the United States and to an extent abroad focusing primarily on female offenders and using data gathered from the Wisconsin Department of Corrections The book utilizes a comprehensive investigative approach by

equating the experience of female offenders by the totality of circumstances within an historical institutional political and ideological context The critical objective is to offer an inclusive analysis of the things that are considered by female inmates to be the most significant before during and after their incarceration as a way of better understanding the reasons that lead to their first incarceration as well as subsequent incarcerations By reading this book the reader will have a greater understanding of the many challenges facing female inmates as well as the relationship between inmates correctional officers and by extension society in general Also provided is a series of policy recommendations throughout the book particularly in the concluding chapter and epilogue *Insiders* Olivia Goldsmith, 2014-10-12 From the New York Times bestselling author of *THE FIRST WIVES CLUB* comes a story perfect for viewers of *ORANGE IS THE NEW BLACK* Jennifer is a smart sexy woman who has broken through the glass ceiling to become a big time trader in the world of high finance When her boss is caught playing fast and loose with the regulations Jennifer agrees to take the rap After all her fiancé is a lawyer with the connections to get her off But instead of beating the charges she ends up in a women's prison a world a whole lot meaner than Wall Street and where her designer clothes and fancy education count for nothing She has to learn fast if she wants to survive The women in the prison's top crew are people Jennifer would never ever have befriended on the outside but on the inside she soon discovers that working together is the only way out

America Joycelyn M. Pollock, 2012 This text offers a concise affordable and reader friendly introduction to the criminal justice system It explores the system in four sections the criminal justice system as social control law enforcement as social control the law as social control and corrections as social control *Prisons in the United States* Cyndi Banks, 2017-03-27 Offering perspectives from a range of experts both academic and nonacademic this reference book examines the development of prisons in the United States and addresses the principal contemporary issues and controversies of our prisons and prison systems Prisons were initially created as a means of reforming offenders but over time the objective of rehabilitation gave way to a strategy of mass imprisonment a system that has resulted in correctional facilities dealing with serious problems such as overcrowding prison gangs pervasive violence and a significant incidence of mental illness among inmates Prisons in the United States A Reference Handbook examines the history of corrections in America detailing how well intentioned policies intended to get tough on crime sanctioned the dismantling of parole systems and resulted in laws that imposed mandatory minimum sentences These changes contributed to the United States now having the biggest incarcerated population worldwide and the highest rate of incarceration The book offers an accessible history of the development of the prison system in the United States and analyzes the various problems and controversies associated with prisons in the present day The coverage includes key related issues including those of race and gender and enables readers to understand how past developments continue to affect public and official perceptions of the prison experience for example how the practice of keeping inmates in solitary confinement for lengthy periods has been reinvented and represents a return to a historically discredited practice Accounts of former inmates and of correctional officers are integrated into the text adding context and offering rarely heard perspectives on difficult issues affecting prisons Doing Time in the Depression Ethan Blue, 2014-11-22 As banks crashed belts tightened and cupboards emptied across the country American prisons grew fat Doing Time in the Depression tells the story of the 1930s as seen from the cell blocks and cotton fields of Texas and California prisons state institutions that held growing numbers of working people from around the country and the world overwhelmingly poor disproportionately non white and displaced by economic crisis Ethan Blue paints a vivid portrait of everyday life inside Texas and California s penal systems Each element of prison life from numbing boredom to hard labor from meager pleasure in popular culture to crushing pain from illness or violence demonstrated a contest between keepers and the kept From the moment they arrived to the day they would leave inmates struggled over the meanings of race and manhood power and poverty and of the state itself In this richly layered account Blue compellingly argues that punishment in California and Texas played a critical role in producing a distinctive set of class race and gender identities in the 1930s some of which reinforced the social hierarchies and ideologies of New Deal America and others of which undercut and troubled the established social order He reveals the underside of the modern state in two very different prison systems and the making of grim institutions whose power would only grow across the century **American Journal of Criminal Law** ,1997
