Understanding the Opportunities and Challenges of Dual Credit: ASHE Higher Education Report, Volume 42, Number 3

Barbara F. Tobolowsky, Taryn Ozuna Allen, 2016-03-29 The dual credit curricular initiative offers high school students the opportunity to earn college and high school credits simultaneously without taking a standardized test to acquire the credit. The courses are purported to introduce students to a more rigorous curriculum in high school and save them time and money in their pursuit of college degrees. Dual credit programs have grown rapidly and this monograph provides a synthesis of the scholarly literature on dual credit offered at high school and a variety of postsecondary settings underrepresented students' experiences with the course s and suggestions for future research and drivers that will influence its development. Originally these initiatives focused on high achieving students but additional models have emerged that expand the benefits to lower and middle achieving students as well. This is the third issue of the 42nd volume of the Jossey Bass series ASHE Higher Education Report. Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication.

The Fast Track to Financial Independence , *The Fast Track Program for Children at Risk Conduct Problems*
Prevention Research Group, Karen L. Bierman, John D. Coie, Kenneth A. Dodge, Mark T. Greenberg, John E. Lochman, Robert J. McMahon, Ellen E. Pinderhughes, 2019-09-11 This unique volume reports on the largest long term preventive intervention study ever conducted with children at risk for serious violence and poor life outcomes. From first through 10th grade Fast Track provided multicomponent interventions to support children, families and schools in achieving positive social, emotional and academic outcomes. The book explores the developmental processes associated with early aggression, describes how each component of FastTrack was developed and implemented and summarizes outcomes up to 20 years later. Vivid case studies track the impact of comprehensive school and family based programming on children's pathways through the elementary and high school years. The concluding chapter offers recommendations for using Fast Track components in future violence prevention initiatives. See also the authors' Social and Emotional Skills Training for Children: The Fast Track Friendship Group Manual, a step by step guide to implementing one of the core components of Fast Track.

Mothers on the Fast Track
Mary Ann Mason, Eve Mason Ekman, 2007-06-18 In the past few decades the number of women entering graduate and professional schools has been going up and up while the number of women reaching the top rung of the corporate and academic worlds has remained relatively stagnant. Why are so many women falling off the fast track? In this timely book Mary Ann Mason traces the career paths of the first generation of ambitious women who started careers in academia, law, medicine, business and the media in large numbers in the 1970s and 80s. Many women who had started families but continued working had ended up veering off the path to upper management at a point she calls the second glass ceiling. Rather than sticking to their original career goals they allowed themselves to slide into a second tier of management that offers fewer hours, less pay, lower prestige and limited upward mobility. Men who did likewise entered the career world with high aspirations and then

started families while working not only did not show the same trend they reached even higher levels of professional success than men who had no families at all Along with her daughter an aspiring journalist Mason has written a guide for young women who are facing the tough decision of when and if to start a family It is also a guide for older women seeking a second chance to break through to the next level as Mason herself did in academia The book features anecdotes and strategies from the dozens of women they interviewed Advice ranges from the personal know when to say no the importance of time management to the institutional with suggestions for how the workplace itself can be changed to make it easier for ambitious working mothers to reach the top levels The result is a roadmap of new choices for women facing the sobering question of how to balance a successful career with family
