A History of Egypt Jason Thompson,2011-03-02 In A History of Egypt Jason Thompson has written the first one volume work to encompass all 5 000 years of Egyptian history highlighting the surprisingly strong connections between the ancient land of the Pharaohs and the

modern day Arab nation No country's past can match Egypt's in antiquity richness and variety However it is rarely presented as a comprehensive panorama because scholars tend to divide it into distinct eras prehistoric pharaonic Greco Roman Coptic medieval Islamic Ottoman and modern that are not often studied in relation to one another In this daringly ambitious project drawing on the most current scholarship as well as his own research Thompson makes the case that few if any other countries have as many threads of continuity running through their entire historical experience With its unprecedented scope and lively and readable style *A History of Egypt* offers students travelers and general readers alike an engaging narrative of the extraordinarily long course of human history by the Nile

The Fayum Landscape Claire J. Malleson, 2019-04-19 Located some one hundred kilometers southwest of Cairo the Fayum region has long been regarded as unique often described in terms that conjure up images of an idealized Garden of Eden In *An Egyptian Landscape* Claire Malleson takes a novel approach to the study of the region by exploring the ways in which people have through millennia perceived and engaged with the Fayum landscape Distinguishing between the experienced landscape of state and bureaucratic record and the imagined landscape of myth meaning and observers personal influences and expectations Malleson questions in detail where those perceptions come from She traces religious practices follows the tracks of myths and traditions and investigates the roots of stories found in texts from the pharaonic classical and Medieval Islamic periods She also reviews many more recent travel writings on the region from the seventeenth to the nineteenth centuries The work of each author is presented in its historical and cultural context and Malleson integrates what is known about ancient

activities in the Fayum based on the archaeological evidence from the many monuments and ancient settlements that exist in the region. Scholars and students of archaeology and landscape studies as well as general readers interested in Egypt's history and archaeology will find this book highly engaging and enlightening. *The Christian Epigraphy of Egypt and Nubia* Jacques van der Vliet, 2018-04-20. Collected Studies CS1070. The present book collects 31 articles that Jacques van der Vliet, a leading scholar in the field of Coptic Studies, Leiden University, Radboud University Nijmegen, has published since 1999 on Christian inscriptions from Egypt and Nubia. These inscriptions are dated between the third, fourth, and the fourteenth centuries and are often written in Coptic and/or Greek, once in Latin and sometimes partly in Arabic, Syriac, or Old Nubian. They include inscriptions on tomb stones, walls of religious buildings, tools, vessels, furniture, amulets, and even texts on luxury garments. Whereas earlier scholars in the field of Coptic Studies often focused on either Coptic or Greek, Van der Vliet argues that inscriptions in different languages that appear in the same space or on the same kind of objects should be examined together. In addition, he aims to combine the information from documentary texts, archaeological remains, and inscriptions in order to reconstruct the economic, social, and religious life of monastic or civil communities. He practiced this methodology in his studies on the Fayum, Wadi al Natrun, Sohag, Western Thebes, and the region of Aswan and Northern Nubia, which are all included in this book.

Historical Dictionary of Egypt Arthur Goldschmidt, Jr., 2023-07-25. Egypt is the world's oldest continuous country with a recorded past of over 6,000 years. Often invaded, conquered, and occupied by foreign armies, Egypt has never lost its identity. The Egyptians of today, although they have changed their language once and their religion twice, descend mainly from the Egyptians who built the Giza Pyramids and the Temple of Karnak, who served Alexander the Great and his heirs, who submitted to Augustus Caesar, and raised much of the grain that fed the Roman Empire, who started Christian monasticism and the veneration of the Virgin Mary, and who advanced and sustained Muslim learning in what is now the world's oldest functioning university. It was and is one of the most important countries in the world. *Historical Dictionary of Egypt*, Fifth Edition, contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 600 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Egypt.
