The Feminine Principle In Creation:

The Feminine Principle in the Sikh Vision of the Transcendent Nikky-Guninder Kaur Singh, 1993-09-24 This work is a critical analysis of Sikh literature from a feminist perspective It begins with Guru Nanak's vision of Transcendent Reality and concludes with the mystical journey of Rani Raj Kaur the heroine of a modern Punjabi epic The eight chapters of the book approach the Sikh vision of the Transcendent from historical scriptural symbolic mythological romantic existential ethical and mystical perspectives Each of these discloses the centrality of the woman and show convincingly that Sikh Gurus and poets did not want the feminine principle to serve merely as a figure of speech or literary device it was intended rather to pervade the whole life of the Sikhs The present work bolsters the claim that literary symbols should be translated into social and political realities and in so doing puts a valuable feminist interpretation on a religious tradition which has remained relatively unexplored in scholarly literature

choices and relationships *The Spiritual Path To Success* Corinne Waller,2025-09-09 Have you ever reflected back on your life and realised that you have been experiencing the same health challenges as your parents did repeating the same emotional and mental habits or perhaps have developed similar behavioural patterns You are not alone as life s twists and turns have taken you down a similar path that your parents walked experiencing marriage and financial issues work challenges or going through bouts of sickness illness or disease to leave you with a dis ability The strategies contained in the guided meditations enable you to let go of the ancestral habitual patterns to embark upon a new adventure to become the best version of yourself A new family legacy can set your spirit free to soar to new heights of abundance and prosperity having new opportunities and resources based on the divine plan for your life that establishes positive beliefs of wealth in all areas of your life and an enriched Earthly life for spiritual evolution while assisting in shifting planet Earth to the next dimension **Hindu Goddesses** David Kinsley,1998 Hindu Goddesses is a valuable sourcebook and reference work for students and scholars of Hindu goddesses and of Hinduism in general Each goddess is dealt with as an independent deity with a coherent mythology theology and in some cases cult of her own Within the complex diverse and rich goddess traditions of Hinduism one can find suggestions of nearly every important theme in the Hindu religion In many ways this book is as much a study of the Hindu tradition itself as it is a study of one aspect of that tradition No other living religious tradition has displayed such an ancient continuous and diverse history of goddess worship **Origins and the Next 50 Years** Robert Shapiro,1997-01-01 The accounts given by extraterrestrials in this volume are about events that occurred in our solar system many millions of years ago In that ancient time the solar system consisted of four planets and four radiar systems that orbited the central sun The four planets of the solar system are known today as Venus Earth Mars and a now totally shattered world that was called Maldec The term radiar applies to the astronomical bodies we presently call Jupiter Saturn Uranus and Neptune The original satellites of these radiars are generally called moons by Earth astronomers but the extraterrestrials prefer to call them planetoids This book reflects the personal views of a number of different types of extraterrestrials regarding the state of the local solar system and the state of the Earth The Kybalion Three Initiates,2020-05-19 The Three Initiates who authored The Kybalion chose to remain anonymous As a result a great deal of speculation has been made about who actually wrote the book The most common proposal is that The Kybalion was authored by William Walker Atkinson 1862 1932 either alone or with others such as Paul Foster Case 1884 1954 and Elias Gewurz _x000D_ The Kybalion is based on the extensive research and study of the world old Hermetic Teachings The book has dedicated to everyone interested in Secret Doctrines _x000D_ There has been so little written upon this subject not withstanding the countless references to the Teachings in the many works upon occultism that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of this present volume The purpose of this work is not the enunciation of any special philosophy or doctrine but rather is to give to the students a statement of the Truth that will serve

to reconcile the many bits of occult knowledge that they may have acquired but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study Our intent is not to erect a new Temple of Knowledge but rather to place in the hands of the student a Master Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered Three Initiates The Kybalion **SUMMUM** Summum Bonum Amen Ra,2020-02-26 Billions of years ago the universe came into existence with a Big Bang The creation of the universe is the single paramount event from which all other events precipitate and why it happened is the greatest mystery we have ever known On the tiniest of scales the cosmos reveals to us a universe filled with quanta particles and on the largest a universe of planets stars galaxies and life The expanse is endless Are we then to believe ourselves alone in the vastness of creation or to solely occupy the crown of it In 1975 Corky Ra an administrative manager for a large supply company began to experience a series of encounters with advanced beings His first reactions of shock and disbelief led him to a period of seclusion yet the visits continued leading him to an awakening Ra realized it was the purpose of these beings to re introduce in a pure form principles of nature that have always existed and address all issues of existence sexuality and death SUMMUM Sealed Except to the Open Mind is about existence in its broadest context and delves into the forces behind cosmic rhythms and change Most importantly it describes a meditation for developing a personal relationship with the essence of nature This is the second edition of a work first published in 1988 and contains illustrations Make this book your companion and venture to get a glimpse of the inner workings of Creation **Divine Dialogues: The Mantras of Prashnopanishad and Their Timeless Wisdom** Ramesh Chauhan,2024-07-18 Divine Dialogues The Mantras of Prashnopanishad and Their Timeless Wisdom presents a deep exploration of one of the significant Upanishads the Prashnopanishad This book delves into the profound questions and answers shared between the seekers and the sage Pippalada offering timeless spiritual insights and philosophical teachings Each mantra is presented in its original Devanagari script accompanied by a Romanized version followed by detailed translation explanation interpretation and significance The author meticulously unveils the deeper meanings behind these ancient verses providing contemporary reflections and practical applications to enhance spiritual growth and understanding in modern life The book is structured to guide readers through each Prashna inquiry of the Prashnopanishad offering summaries reflections and questions for contemplation after every Prashna to solidify comprehension and personal connection to the teachings Divine Dialogues not only illuminates the essence of the Prashnopanishad but also bridges the gap between ancient wisdom and today s world making it accessible and relevant to modern seekers The final consolidated reflection synthesizes the key teachings offering a comprehensive guide to applying these insights to everyday life Whether you are a student of philosophy a spiritual seeker or simply curious about ancient Indian wisdom this book provides a rich engaging and transformative experience that will deepen your understanding of the self and the universe **Kybalion - Arcane Formulas** JT Thayer,2010-02-14 The underlying text from

which The Secret was distilled is found in the writings of William Walker Atkinson Atkinson authored The Kybalion under the pseudonym The Three Initiates in 1909 At the same time he authored The Arcane Formulas which followed the chapter headings of The Kybalion and provided a series of practical exercises for a student desiring to incorporate the Hermetic Arts of Transmutation into their mental practices For the first time this annotated version of The Kybalion and The Arcane Formulas are combined in one volume

The Metaphysics of Sex ...in a Changing World! Christopher Alan Anderson, 2014-07-16 Is sex metaphysical This is to say does it have a purpose and a nature that is encoded in the very construct of the universe These are the questions the author takes up in this day and age where most everything is up for grabs This writing is not without an examination of sensitive issues and explicit terms Think of it as a third way if you will It resides between the fixed identity of our declining religions and the fluid identity of the emerging L G B T Q movement In that it presents to us all another choice In the end it is about a construct for sexual balance that any reader can understand and use as a guide for his or her life Keywords Metaphysics Sex Relationship Procreation Soul Life Birth Love Desire Healing

God, Morality, and Beauty Randall B. Bush, 2019-07-01 Randall B Bush analyzes the ways unacknowledged axiological assumptions e g about what is important why human beings are valuing creatures and where the capacity to value comes from prejudice the perspectives and approaches of various academic disciplines especially in the social sciences and the humanities The disciplines of ethics and aesthetics provide the most useful tools for a philosophy of value but academic overspecialization has compartmentalized and segregated these disciplines from others threatening to unravel the unity of conceptions of the moral and the beautiful in human existence Bush argues that a dialectical approach to conflicts between ethics and aesthetics can point to a broader axiological vision informed by a Trinitarian conception of reality in which the whole a coherent theory of value is more than the sum of its parts
