The Fifteen Streets:

The Fifteen Streets Catherine Cookson, 2011-04-12 Catherine Cookson was one of the world's most beloved writers. Her books have sold millions of copies and her characters and their stories have captured the imaginations of readers around the globe. Now available for the first time in this country comes one of Cookson's earliest and most stirring historical romances. *The Fifteen Streets* John O'Brien lives in a world where surviving is a continual struggle. He works long hours at the docks to help support his parents' large family. Many other families in the Fifteen Streets have already given up and descended into a dismal state of grinding poverty, but the O'Briens continue to strive for a world they are only rarely allowed to glimpse. Then John O'Brien meets Mary Llewellyn, a beautiful young teacher who belongs to that other world. What begins as a casual conversation over tea quickly blossoms into a rare love that should have been perfect. Fate steps in, however, when John is accused of fathering the child of a local girl and Mary's parents forbid her to see him. The couple begins to realize that the gulf of the Fifteen Streets between them is a chasm they could never bridge or might they still find a way. In these pages Catherine Cookson displays the irresistible plotting, scene setting and characterization that have made her a recognized master of historical and romance fiction. Fans of her novels with their larger themes of romantic love and class conflict will be delighted to find that even at the beginning of her illustrious career Cookson had the power to captivate audiences. Filled with passion and compelling drama *The Fifteen Streets* is a rare treat for lovers of romantic fiction. **The Fifteen Streets** Catherine COOKSON, 1970 *The Fifteen Streets, by Catherine Cookson (6 Cassettes).* Catherine Cookson, Susan* Jameson,

At the centre is the apparently impossible love affair between rugged docker John O'Brien and Mary Llewellyn, a schoolteacher. With elements of tragedy, humour, intrigue and love, this simple tale affords plenty of scope for imaginative and evocative production. Large flexible cast. **Catherine Cookson Country** Julie Taddeo, 2016-12-05 Britain's most widely read author of the late twentieth century Catherine Cookson published more than 100 books including *The Fifteen Streets*, *The Black Velvet Gown* and *Katie Mulholland*. Set in England's industrial northeast, her novels depict the social, economic and emotional hardships of that area. In the first essay collection devoted to Cookson, the contributors examine what Cookson's memoirs and historical fiction mean to readers, including how her fans contribute to her position in the cultural imaginary, constructions of gender, class and English and Irish identity in her work, the importance of place in her novels, Cookson's place in the heritage industry and television adaptations of Cookson's works. Cookson's work tackled topics that were still taboo in the early post-World War II era, such as domestic abuse, rape and incest. This collection places Cookson in historical context and shows how skillful she was at pushing generic boundaries. collector of tears &

collection of Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence Introduction Looking through Sarah Richardson s *Writing on the Line* 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working

class male novelists and I selected British woman writers from Writing on the Line and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there s plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life but were extraordinary writers and people We could also discuss the genre snobbery in literary circles that puts crime young peoples literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel
