Long 60s Sarah Hill, 2016-01-14 San Francisco and the Long 60s tells the fascinating story of the legacy of popular music in San Francisco between the years 1965-69. It is also a chronicle of the impact this brief cultural flowering has continued to have in the city and more widely in American culture right up to the present day. The aim of *San Francisco and the Long 60s* is to question the standard historical narrative of the time, situating the local popular music of the 1960s in the city's contemporary artistic and literary cultures at once visionary and hallucinatory, experimental and traditional, singular and universal. These qualities defined the aesthetic experience of the local culture in the 1960s and continue to inform the cultural and social life of the Bay Area even fifty years later. The brief period 1965-69 marks the emergence of the psychedelic counterculture in the Haight-Ashbury neighbourhood, the development of a local musical sound into a mainstream international style, the mythologizing of the Haight-Ashbury as the destination for seekers in the Summer of Love, and the ultimate dispersal of the original hippie community to outlying counties in the greater Bay Area and beyond. *San Francisco and the Long 60s* charts this period with the references to received historical accounts of the time, the musical, visual and literary communications from the counterculture, and retrospective glances from members of the 1960s Haight community via extensive first-hand interviews. ICICKM2008- 5th International Conference on Intellectual Capital, Knowledge Management and Organisational Learning Dr Kevin O'Sullivan, **Children of the Fifth World** P. M. H. Atwater, 2012-10-24 Our species is evolving in preparation for the new world on the horizon. Explains how the increase in intuitive, creative and abstract thinking abilities of children, as well as incidences of ADHD, dyslexia and autism, signal evolutionary changes at work in humanity: the emergence of the Fifth Root Race. Connects the appearance of these traits with ancient myths and evolutionary calendars, as well as predictions by Teilhard de Chardin, Edgar Cayce and other visionary seers. Reveals how these new kids act as agents for world change by reflecting back every misguided aspect of business, politics, religion and culture. The past 30 years have seen a quantum leap in the intuitive, creative and abstract thinking abilities of children, as well as an unprecedented rise in incidences of ADHD, dyslexia and autism spectrum disorders. As P. M. H. Atwater explains, we are witnessing evolution at work. The changes in consciousness and brain function evident in these new kids signal the widespread emergence of the Fifth Root Race and fortuitously coincide with our transition into the Fifth World. Providing a resource for parents and new kids themselves, Atwater explains what is happening to our species and our world, from neurological changes and climate upheavals to the drive to be constantly connected through screen-based technology and the unnecessary widespread use of drug therapies. Sharing individual case histories, underscoring the traits of the new child personality, she reveals how these children, born with universal consciousness encoded in their DNA, act as agents for world change by reflecting back every misguided aspect of business, politics, religion, entertainment, technology and

culture so we can't ignore what needs to be repaired Atwater shows how children labeled as autistic or otherwise damaged have enormous potential for greatness Connecting recent events and cultural shifts with creation myths evolutionary calendars and historical records from every culture as well as predictions by Teilhard de Chardin Sri Aurobindo Edgar Cayce and other visionary seers Atwater shows how the genetic shift now occurring follows the Rule of Thirds in its progression Exploring timelines for the next several hundred years she explains that the coming new world will be tailored specifically for the new kids who will lead the way in the Great Shift from old world to new [Currents of Change in Latin America](#) Cyrus Roberts Vance,1979 **Congressional Record** United States.
