**Capitalism and Colonialism: The Making of Modern Canada 1890-1960** Bryan D. Palmer,2025-09-02 This second volume of Bryan Palmer s history of Canada covers 1890 to 1960 Weaving together themes that include business labour politics and social history this account brings the experiences of Indigenous peoples into the centre of the narrative Canada experienced extraordinary growth during these decades notably after the Second World War when many Canadians quickly became far better off Yet vast inequalities persisted Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives These realities set the stage for the interplay of reform resistance and reaction that followed after 1960 Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960 from capital s conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians *The State, Business, and Industrial Change in Canada* Michael M. Atkinson,William D. Coleman,1989-12-15 The late twentieth century has seen profound changes in the character of the international economic order According to the authors of this study Canada has failed to come to terms with those changes Our industrial policy is diffuse ad hoc and sectoral Michael Atkinson and William Coleman argue that in order to analyse Canada s industrial policy effectively particular attention must be given to industry organization state structures and systems of interest intermediation at the sectoral level To make such an analysis they introduce the concept of policy network and apply it to three types of industrial sectors the research intensive sectors of telecommunications manufacturing and pharmaceuticals the rapidly changing sectors of petrochemicals and meat processing and the contracting and troubled sectors of textiles clothing and dairy processing Through the lens of these sectors Coleman

and Atkinson shed considerable light on the intersection of political considerations and policy development and offer a new base on which to move forward in planning for economic growth      Evolving Financial Markets and International Capital Flows Lance E. Davis, Robert E. Gallman, 2001-05-07 This study examines the impact of British capital flows on the evolution of capital markets in four countries Argentina Australia Canada and the United States over the years 1870 to 1914 In substantive chapters on each country it offers parallel histories of the evolution of their financial infrastructures commercial banks non bank intermediaries primary security markets formal secondary security markets and the institutions that provide the international financial links connecting the frontier country with the British capital market At one level the work constitutes a quantitative history of the development of the capital markets of five countries in the late nineteenth century At a second level it provides the basis for a useable taxonomy for the study of institutional invention and innovation At a third it suggests some lessons from the past about modern policy issues      *Canadian Multinationals and International Finance* Gregory P. Marchildon, Duncan McDowall, 2013-12-02 Seven studies explore the modest but significant role of Canadian multinational enterprises in world finance trade and direct investment Presents a historical overview analyses of individual companies and considerations of whole industries      **The New Practical Guide to Canadian Political Economy** Daniel Drache, Wallace Clement, 1985-01-01 The New Practical Guide to Canadian Political Economy is a handy reference to the vast range of research and writing that political economists in Canada have completed to the date of publication The book is divided into twenty five subject bibliographies each one compiled and introduced by an expert in the field The overall range of subjects includes economic development in Canada Canada s external economic relations regional disparities and regional development social and economic classes women Native peoples politics and the Canadian state nationalism culture and political thought The book is indexed by author and includes a helpful shortlist of the staples in Canadian political economy Published in 1985 The New Practical Guide to Canadian Political Economy remains a useful reference to some of the classic literature of the discipline      *A History of Law in Canada, Volume Two* Jim Phillips, Philip Girard, R. Blake Brown, 2022-11-01 This is the second of three volumes in an important collection that recounts the sweeping history of law in Canada The period covered in this volume witnessed both continuity and change in the relationships among law society Indigenous peoples and white settlers The authors explore how law was as important to the building of a new urban industrial nation as it had been to the establishment of colonies of agricultural settlement and resource exploitation The book addresses the most important developments in the seventeenth eighteenth and nineteenth centuries including legal pluralism and the co existence of European and Indigenous law It pays particular attention to the Métis and the Red River Resistance the Indian Act and the origins and expansion of residential schools in Canada The book is divided into four parts the law and legal institutions Indigenous peoples and Dominion law capital labour and criminal justice and those less favoured by the law A History of Law in Canada examines law as a dynamic process shaped by and affecting other histories over the long term      Money, Banking

and the Canadian Financial System H. H. Binhammer, Peter S. Sephton, 1998      **Whom Fortune Favours** Laurence B. Mussio, 2020-04-16 The Bank of Montreal is not only Canada's first bank it has also occupied a prominent place in the pantheon of Canadian nation building Whom Fortune Favours examines the trajectory of this extraordinary organization across the span of two centuries The historian Laurence Mussio applies an analytical lens to a financial institution whose strategies fundamentally shaped and were shaped by the evolution of a country and a continent The Bank of Montreal BMO represents an extremely rare institution one that has both endured and adapted to fundamental change The depth and breadth of the Bank's history offer a unique opportunity to analyze a singular organization over ten generations As an institution BMO played a critical part in the destiny of its home city and in the emergence of Canada on an international scene Crucial to the development of Canadian and North American financial systems BMO shaped the political economy of banking Over the last half century the institution's response to successive economic technological demographic and regulatory shifts illustrates how Canadian and North American finance has adapted to the challenges before it At its heart Whom Fortune Favours presents a multifaceted story about the making of contemporary finance This epic chronicle is the result of a massive research effort incorporating thousands of never before released internal documents Mussio's accessible narrative will appeal to both scholars and executives who seek to understand the origins development and present day implications of one of North America's great institutions      Corporate Power and Canadian Capitalism William K. Carroll, 2011-11-01 Challenging standard dependency theory William Carroll argues from empirical evidence that Canada's financial industrial elite have maintained and consolidated their competitive position at the centre of an inter corporate network Corporate Power and Canadian Capitalism thus acknowledges the unusually high degree to which capital is concentrated in a relatively few giant corporations in Canada but it denies that these commercial interests are subordinated to American corporate capital To test the validity of this new perspective on the transformation of indigenous capitalists into a national bourgeoisie Carroll traces the accumulation of capital in the largest Canadian corporations and the institutional relations that have existed among the same firms since World War II Instead of selling out to foreign capital Canadian firms have in fact become increasingly interlocked and Canadian controlled firms have been and continue to be the focus of both the industrial and financial sectors with foreign controlled companies occupying decidedly peripheral positions From this interpretative position Canada's development is seen as markedly similar to that of other advanced capitalist countries culminating in consolidation of control under an elite accompanied both by penetration of foreign economies by domestic financial capitalists and a concomitant penetration of the domestic economy by foreign capital      *Banking, Trade and Industry* Alice Teichova, Ginette Kurgan-van Hentenryk, Dieter Ziegler, 1997-05-15 An account of the rise of banking since the Middle Ages and its place in the modern international economy first published in 1997      *The Foundations of Nigeria's Financial Infrastructure* J. K. Onoh, 2021-11-30 First Published in 1980 The Foundations of Nigeria's Financial Infrastructure

presents a comprehensive overview of different aspects of Nigeria's financial developments. Divided in five parts, this book brings twenty-one chapters dealing with themes like Nigeria's traditional financial system, fundamental problems of banking in Nigeria, the banking system and the financial market, aspects of public and private sectors finance, revenue allocation in Nigeria, Nigerian currency system, Nigeria's balance of payments and external liquidities, development in Nigeria's external assets and Nigeria and the International Monetary Fund to showcase the catalytic role of the financial system in economic development. This volume will be useful for scholars and researchers of public finance, finance, economics, political economy, development economics, and development studies.

*A History of Canadian Accounting Thought and Practice* George J. Murphy, 2020-09-04. This book, first published in 1993, focuses on the evolution of accounting institutions, practices, and standard setting in Canada. Canada's federal system complicates the jurisdictional authority for accounting matters. The Canadian constitution empowers the ten provinces to regulate the training and certification of accountants, and each can incorporate organizations. A great deal of effort has been made by accounting bodies on jurisdictional coordination and disputes, and this book analyses how these systems have come to function in their present form.

Federalism and the Constitution of Canada David E. Smith, 2010-10-30. The Canadian system of federalism divides the power to govern between the central federal parliament and the provincial and territorial legislative assemblies. In what can be seen as a double federation, power is also divided culturally between English and French Canada. The divisions of power and responsibility, however, have not remained static since 1867. The federal language regime of 1969, for example, reconfigured cultural federalism, generating constitutional tension as governments sought to make institutions more representative of the country's diversity. In *Federalism and the Constitution of Canada*, award-winning author David E. Smith examines a series of royal commission and task force inquiries, a succession of federal provincial conferences, and the competing and controversial terms of the Constitution Act of 1982 in order to evaluate both the popular and governmental understanding of federalism. In the process, Smith uncovers the reasons constitutional agreement has historically proved difficult to reach and argues that Canadian federalism in practice has been more successful at accommodating foundational change than may be immediately apparent.

**Rise to Greatness, Volume 1: Colony (1000-1867)** Conrad Black, 2017-03-07. Masterful, ambitious, and groundbreaking, this is a major new history of our country by one of our most respected thinkers and historians: a book every Canadian should own. From the acclaimed biographer and historian Conrad Black comes the definitive history of Canada: a revealing, groundbreaking account of the people and events that shaped a nation. The first of three volumes, spanning from the year 1000 to 1867 and beginning with Canada's first inhabitants and the early explorers, this masterful history challenges our perception of our history and Canada's role in the world, taking on sweeping themes and vividly recounting the story of Canada's development from colony to dominion to country. Black persuasively reveals that while many would argue that Canada was perhaps never predestined for greatness, the opposite is in fact true: the emergence of a magnificent country.

against all odds was a remarkable achievement Brilliantly conceived this major new reexamination of our country's history is a riveting tour de force by one of the best writers writing today      **Business and Social Reform in the Thirties** Alvin Finkel, 1979-01-01 This book challenges the commonly accepted view that governments enacted social reforms in the 1930s in response to demands for more equitable redistribution of wealth in a time of trouble robbing from the rich to give to the poor Alvin Finkel demonstrates conclusively that Canadian big business was overwhelmingly in favour of more state intervention during the Thirties in the economic and social sphere Private enterprise in Canada has always depended on government aid capital grants high tariffs the repression of organized labour and in the 1930s the corporations need for help was more acute than ever before They realized that the capitalist system could not survive without legislated structural reforms that would provide safeguards for private investment and profit under the guise of social welfare Examining the emergence of an unprecedented intertwining of business and government management during the Depression *Business and Social Reform in the Thirties* analyzes an inordinant concentration of power that remains with us today      *Canada in the European Age, 1453-1919* R.T. Naylor, 2006-07-10 When *Canada in the European Age 1453 1919* was first published it reversed traditional methodology by placing Canada's evolution in the context of the rise and fall of empires around the world not just in the Americas R T Naylor contends that the struggle for property and political rights in early nineteenth century Newfoundland is incomprehensible without an understanding of events as distinct as the Afro American slave trade or the Napoleonic Wars the opening of the natural resource frontier of British Columbia makes sense only if seen as another manifestation of the same historical forces that fired the opening shots in the Opium wars in China and the fate of Canada's native peoples may have been different in form but not in essence from that of the aboriginal inhabitants on almost every continent
