300,000-Year Struggle for Equality ALVIN FINKEL, 2024-09-13 This is a history of humanity like it s never been told before Historian Alvin Finkel builds on the work of archaeologists anthropologists and historians to present the very long view of the history of the human species His focus is not on the leaders whose exploits are recounted in traditional histories but rather on the experiences of ordinary people the 99% whose experiences and activities are often overlooked In the extensive research of many contemporary scholars Alvin Finkel notes a common thread which most historians have ignored the constant efforts of ordinary people throughout history to create and sustain societies based on equality of all individuals Contrary to traditional historical writing he finds that the earliest human communities usually treated all individuals as equals In the histories of societies all around the world he records how individuals who found ways to gain wealth and power have faced constant often successful resistance from the rest From the first recorded communities in Mesopotamia to the COVID 19 pandemic this book features the resistances uprisings struggles and solidarities of the majority against those seeking to dominate The result is a fresh and challenging interpretation of the history of our species one that casts a new light on the true nature of humans **Zurvan** Robert Charles Zaehner, 1972 Journal of the Royal Asiatic Society of Great Britain and Ireland Royal Asiatic Society of Great Britain and Ireland, 1856 **Journal of the Royal Asiatic Society of Great Britain and Ireland** , 1856 **Journal of the Royal Asiatic Society of Great Britain & Ireland** Royal Asiatic Society of Great Britain and Ireland, 1856 With appendices *The Journal of the Royal Asiatic Society of Great Britain and Ireland* Royal Asiatic Society of Great Britain and Ireland, 1856 **The Ages of the Earth** J. Negationism is an irrational but useful tool for manipulation Almost nobody supports the Flat Earth model or the geocentrism but some European educational laws still offer a confessional education that treats as real the myth about Adam and Eve This book recounts the struggle that human mind has maintained over two millennia against creationist myths The journey takes place between cosmogonies theological dogmas natural philosophy Deism and the inevitable secularism of the Age of Enlightenment *Complexity, Cognition and the City* Juval Portugali, 2011-07-06 Complexity Cognition and the City aims at a deeper understanding of urbanism while invoking on an equal footing the contributions both the hard and soft sciences have made and are still making when grappling with the many issues and facets of regional planning and dynamics In this work the author goes beyond merely seeing the city as a self organized emerging pattern of some collective interaction between many stylized urban agents he makes the crucial step of attributing cognition to his agents and thus raises for the first time the question on how to deal with a complex system composed of many interacting complex agents in clearly defined settings Accordingly the author eventually addresses issues of practical relevance for urban planners and decision makers The book unfolds its message in a largely nontechnical manner so as to provide a broad interdisciplinary readership with

insights ideas and other stimuli to encourage further research with the twofold aim of further pushing back the boundaries of complexity science and emphasizing the all important interrelation of hard and soft sciences in recognizing the cognitive sciences as another necessary ingredient for meaningful urban studies
