The Story of an African Farm Olive Schreiner,2019-11-19 In her groundbreaking novel The Story of an African Farm Olive Schreiner intricately weaves a narrative that explores the struggles of identity gender and colonialism in late 19th century South Africa Written in a vivid and evocative prose style the book alternates between philosophical introspection and sharp social commentary employing a semi autobiographical approach Set against the backdrop of the Karoo desert the narrative unfolds through the lives of its complex characters particularly the spirited young protagonist

Lyndall as they navigate personal aspirations and societal constraints within a patriarchal and colonial society Critics have lauded the work for its pioneering feminist themes and its challenge to the conventions of Victorian literature marking it as a precursor to modernist explorations of consciousness and existentialism Olive Schreiner herself raised on a remote farm experienced firsthand the intersection of colonial life gender roles and social injustice that pervades her literary work Her extensive involvement in political activism and feminist movements deeply influenced her writing leading her to advocate for social reform and the rights of women Schreiner's experiences and observations of the complex socio political landscape uniquely positioned her to articulate the challenges faced by individuals caught between personal desires and societal expectations I wholeheartedly recommend *The Story of an African Farm* to readers interested in rich multilayered narratives that offer profound insights into the human condition Schreiner's exceptional ability to blend personal struggle with broader socio political themes creates a compelling tapestry of life in colonial South Africa This novel not only enriches the reader's understanding of the era but also resonates with timeless questions about freedom identity and the quest for self determination

Prester John: Africa's Lost King Richard Denham, He sits on his jewelled throne on the Horn of Africa in the maps of the sixteenth century He can see his whole empire reflected in a mirror outside his palace He carries three crosses into battle and each cross is guarded by one hundred thousand men He was with St Thomas in the third century when he set up a Christian church in India He came like a thunderbolt out of the far East eight centuries later to rescue the crusaders clinging on to Jerusalem And he was still there when Portuguese explorers went looking for him in the fifteenth century He went by different names The priest who was also a king was Ong Khan he was Genghis Khan he was Lebna Dengel Above all he was a Christian king who ruled a vast empire full of magical wonders men with faces in their chests men with huge backward facing feet rivers and seas made of sand His lands lay next to the earthly Paradise which had once been the Garden of Eden He wrote letters to popes and princes He promised salvation and hope to generations But it was noticeable that as men looked outward exploring more of the natural world as science replaced superstition and the age of miracles faded Prester John was always elsewhere He was beyond the Mountains of the Moon at the edge of the earth near the mouth of Hell Was he real Did he ever exist This book will take you on a journey of a lifetime to worlds that might have been but never were It will take you if you are brave enough into the world of Prester John
