*The Historical Archaeology of Dam Construction Camps in Central Arizona: Synthesis*, 1994      **Evaluating Critical Care** William J. Sibbald, Julian F. Bion, 2002-01-21 Measuring the quality of a complex service like critical care that combines the highest technology with the most intimate caring is a challenge Recently consumers clinicians and payers have requested more formal assessments and comparisons of the quality and costs of medical care 2 Donabedian 1 proposed a framework for thinking about the quality of medical care that separates quality into three components structure process and outcome An instructive analogy for understanding this framework is to imagine a food critic evaluating the quality of a restaurant The critic might comment on the decoration and lighting of the restaurant how close the tables are to each other the extent of the wine list and where the chef trained These are all evaluations of the restaurant structure In addition the critic might comment on whether the service was courteous and timely measures of process Finally the critic might comment on outcomes like customer satisfaction or food poisoning Similarly to a health care critic structure is the physical and human resources used to deliver medical care Processes are the actual treatments offered to patients Finally outcomes are what happens to patients for example mortality quality of life and satisfaction with care Table 1 There is a debate about which of these measurements is the most important measure of quality      **Congressional Record** United States. Dragoons in Apacheland William S. Kiser, 2013-03-05 In the fifteen years prior to the American Civil War the U S Army established a presence in southern New Mexico the homeland of Mescalero Mimbres and Mogollon bands of the Apache Indians From the army s perspective the Apaches presented an obstacle to be overcome in making the region newly acquired in the Mexican American War safe for Anglo settlers In Dragoons in Apacheland William S Kiser recounts the conflicts that ensued and examines how both Apache warriors and American troops shaped the future of the Southwest Borderlands Kiser narrates two distinct contests The Apaches were defending their territory against the encroachment of soldiers and settlers At the same time the Anglo Americans maneuvered against one another in a competition for political and economic power and for Apache territory Cross cultural misunderstandings political corruption in Santa Fe and Washington anti Indian racism troublemakers among both Apaches and settlers irresponsible army officers and troops corrupt American and Mexican traders and policy disagreements among government officials all contributed to the ongoing hostilities Kiser examines the behaviors and motivations of individuals involved in all aspects of these local regional and national disputes Kiser is one of only a few historians to deal with this crucial period in Indian white relations in the Southwest and the first to detail the experiences of the First and Second United States Dragoons elite mounted troops better equipped and trained than infantry to confront Apache guerrilla warriors more accustomed to the southwestern environment Often led by the Gila leader Mangas Coloradas the Apaches fought desperately to protect their lands and way of life The Americans Kiser shows used unauthorized tactics of total warfare encouraging field units to attack villages and destroy crops and livestock particularly when the Apaches refused to engage the troops in pitched battles Kiser s insights into the pre Civil War conflicts in southern New Mexico are essential to a deeper understanding of the larger U S Apache war that culminated in the heroic resistance of Cochise Victorio and Geronimo
