## **The First Historians:**

*The Histories Book 4: Melpomene* Herodotus, 2012-11-01 Herodotus was an ancient Greek historian who lived in the fifth century BC c 484 425 BC He has been called the Father of History and was the first historian known to collect his materials systematically test their accuracy to a certain extent and arrange them in a well constructed and vivid narrative The Histories his masterpiece and the only work he is known to have produced is a record of his inquiry being an investigation of the origins of the Greco Persian Wars and including a wealth of geographical and ethnographical information The Histories were divided into nine books named after the nine Muses the Muse of History Clio representing the first book then Euterpe Thaleia Melpomene Terpsichore Erato Polymnia Ourania and Calliope for books 2 to 9 respectively [The Bible's First History](#) Robert B. Coote, David Robert Ord, 2018-01-04 This is a book about an ancient writer the J writer the Yahwist who produced a work of political imagination This work is embedded mainly in the first four books of the Bible best known for some of the most popular and influential biblical stories in Genesis and Exodus The purpose of the book is to represent the whole of the original story with attention to its own meaning without the influence of the other literary strands with which it was later supplemented Therefore the work includes a fresh complete translation of the text of the J writer who produced the Bible's first history The translation itself helps to establish more clearly than ever the integrity of the J writer The concern here is WHEN and WHY this history was written especially in light of the concerns for justice and prosperity Throughout it is demonstrated HOW and WHY this history comes from the court of David it is a royal history of David's subjects as though they were descended from pastoral nomads such as Abram Isaac and Jacob It is argued that the intended audience of the history was probably those Bedouin who regularly visited the court of David in Hebron and Jerusalem Here is a bold and brilliant representation of the J writer's composition perhaps as it was originally intended to be read or heard This ancient tour de force takes on new life in the hands of these skilled interpreters **The early historians. Sir Walter Raleigh. William Camden. Edward Hyde, Earl of Clarendon. Gilbert Burnet, Bishop of Salisbury. Thomas Fuller. Lawrence Echard. Robert Brady. John Oldmixon. Thomas Carte. William Robertson. George, Lord Lyttelton. Tobias Smollett** Eugene Lawrence, 1855 **An Inquiry Into the Credibility of the Early Roman History** Sir George Cornewall Lewis, 1855 *The Concept of History* Dmitri Nikulin, 2017-01-26 The Concept of History reflects on the presuppositions behind the contemporary understanding of history that often remain implicit and not spelled out It is a critique of the modern understanding of history that presents it as universal and teleological progressively moving forward to an end Although few contemporary philosophers and historians maintain the view that there is strict universality and teleology in history the remnants of these positions still affect our understanding of history But if history is not universal and singular evolving toward an objective universal end it should be possible to admit of multiple histories some of which we appropriate as our own Another important aspect of this book is that it provides an account of history that is itself both historical and rooted

in attempts to narrate and explain history from its inception in antiquity The book seeks to establish features or constituents of history that might be found in any historical account and might themselves be considered historical invariants in history

Hiribarren,2017-02-17 Borno in northeast Nigeria is notorious today as the home of an Islamist terrorist group Boko Haram whose insurgency is a major security threat but it was once the heartland of the Kanuri speaking royal empire of Kanem Borno renowned throughout Africa and beyond which in its later incarnation the Bornu Empire lasted from 1380 to 1893 This book offers the reader the first modern history of Borno drawing upon sources in London Berlin Paris Kaduna and Maiduguri and recently released migrated archives As its longevity suggests what is particularly remarkable about Borno is the permanence of its boundaries its territorial integrity which dates back centuries and the political and social identities that such borders framed in the minds of its inhabitants      **An Universal History, from the Earliest Account of Time to the Present** ,1740      *Early History of the Israelite People* Thompson,2024-07-15 Through a review of historical scholarship of the past century and an analysis of data drawn from archaeological excavations and surveys and from written and historical records from the late second and early first millennium the author reconstructs the historical basis of Israel s origins within the contexts of geography anthropology and sociology Thompson argues that none of the traditional models for the origin of biblical Israel in terms of conquest peaceful settlement or revolution are viable The indigenous nature of the Israelite people has roots that lead back to the late Neolithic period The Iron I period is not the period in which the origins of Israel are to be sought Rather the geographical and regional expansion of settlements in this period reflects an economic response to drought conditions that affected the entire East Mediterranean basin The ninth and eighth century states of Samaria and Jerusalem had separate and independent origins rooted in the development of a Mediterranean economy and an expansion of trade brought about by Assyrian interests The development of the ethnic concept of biblical Israel with its roots in the United Monarchy finds its context in history first at the time of the Persian renaissance guided by the theological concepts of exile and restoration Finally Thompson argues that biblical Israel is historically the creation of the tradition itself in the Persian period and attempts to outline both a historical context and an interpretative matrix for the Bible      History of Rome [by H. Smith,2009-04-01 As a historical inquiry and synthesis this intellectual history is the first study to apply the ideal type or model building methodology of Otto Hintze 1861 1940 to Western historical thought or to what R G Collingwood called The Idea of History for it contains succinct and useful models for seeing and teaching classical Christian and modern professional historiography Religion and the Rise of History is also the first work to suggest that in addition to

his well known paradoxical simul and or at the same time way of thinking and viewing life Martin Luther also held to a way that was deeply incarnational dynamic and or in with and under This dual vision and a Lutheran ethos strongly influenced Leibniz Hamann and Herder and was therefore a matter of considerable significance for the rise of a distinctly modern form of historical consciousness commonly called historicism in Protestant Germany Smith s essay suggests a new time period for the formative age of modern German thought culture and education The Cultural Revolution in Germany This age began in the early 1760s and culminated in 1810 with the founding of the University of Berlin the first fully modern and modernizing university This university first became the recognized center for the study of history however through the work of Leopold von Ranke 1795 1886 Here the story shows how a young Ranke derived his individualizing way of thinking and viewing life mainly from Luther how his life work is the best example in Western literature of the rise of history from a calling to a profession and how the three way discussion between Troeltsch Meinecke and Hintze concerning the nature of modern historical thought was of central importance for the reorientation of Western social historical thought in the twentieth century Letters on the study and use of history ... **History of Ancient Greek Literature** Franco Montanari,2022-05-09 Spanning over 1100 pages this two volume work offers the most comprehensive and up to date history of ancient Greek literature from Homer to Late Antiquity Its clear structure and detailed presentation of Greek authors and their works as well as literary genres and phenomena makes it an indispensable reference work for all those interested in Greek Antiquity Niebuhr's Lectures on Roman History H. M. Chepmell,F. Demmler,2024-05-09 Reprint of the original first published in 1875 Luke among the Ancient Historians John J. Peters,2022-05-24 For centuries scholars have analyzed the composition of Luke Acts presupposing that the reference to many accounts in Luke s Preface indicates the written texts which served as the author s primary sources of information To justify this portrait of Luke as a text based author scholars have appealed to analogies with the text based authors Dionysius of Halicarnassus Diodorus Siculus Plutarch and Arrian Luke among the Ancient Historians challenges this portrait of Luke s method through surveying the origins and development of ancient Greek historiography in chapters on Herodotus Thucydides Polybius Josephus and Luke By focusing on the values and practices of ancient historians Peters demonstrates not only that ancient authors following the model of Thucydides regarded the testimony of eyewitnesses as opposed to texts as the proper sources for historians but that Luke emulated the values practices and craft terminology of the contemporary historiographical tradition Taking seriously the self presentation of Luke as a reporter of contemporary events who claims to write on the basis of eyewitnesses from the beginning and personal investigation this book argues against analogies with text based historians who wrote about non contemporary events and instead situates Luke within a portrait of the values and practices of historians of contemporary events *The Historians' History of the World: The British colonies, The United*
