## **The First Labour Government 1924:**

*Britain's First Labour Government* J. Shepherd, K. Laybourn, 2006-10-27 This volume is the first major account for nearly fifty years to critically re assess Labour's first period in office in terms of domestic foreign and imperial policy It draws on a wide range of private papers and official sources and reconstructs the history of this forgotten government in the broader social and political context of the 1920s      **The First Labour Government, 1924** Richard W. Lyman, 1975      **The Foreign Office and Foreign Policy, 1919-1926** Ephraim Maisel, 2013-11-01 Tells of the administrative changes of the post war period and of the senior permanent officials their personalities and cast of mind who advised the foreign secretary and carried out his policies      Short History of the Trades Union Congress John Lovell, Benjamin Charles Roberts, 1968-06-18

The Bolsheviks and Britain during the Russian Revolution and Civil War, 1917-24 Evgeny Sergeev, 2022-06-16 This book analyses the principal aspects of the relations between Soviet Russia USSR and Britain in the crucial phase of their formation namely the period from 1917 to 1924 Using previously unavailable and largely unknown archival records and memoirs published by statesmen diplomats and military commanders directly involved in the events Evgeny Sergeev not only reconstructs the dynamics of the interaction between Moscow and London but also strips its key episodes of common myths and stereotypes The most debatable issues to which this study draws its primary attention include Britain's role in the Entente armed intervention against the Bolshevik regime as well as a series of reciprocal attempts to avoid political controversies and London's contribution to humanitarian aid and the economic recovery of post revolutionary Russia Special consideration is also given to the impact of British diplomacy on the recognition of the USSR by other great powers like France Italy and Japan in the mid 1920s      **UNITE History Volume 1 (1880-1931)** Mary Davis, John Foster, 2021-06-15 Sold as a multi volume set the individual volumes are also available for purchase This is volume 1 of six accessible volumes covering UNITE's history from 1880 2010 The history of the TGWU is the core of this collection with a significant emphasis on the union's regions as well as several key themes such as equality internationalism the wider labour movement and its attitude to the conflict between capital and labour This first volume 1880 1931 covers the formation of the TGWU It was rooted in an era in which starting in the 1880s a mass trade union movement was formed The drive to amalgamate the unions was spearheaded by Ernest Bevin and resulted in the creation of the TGWU 1920 22 a period which witnessed an intensification of pre and post WW1 militancy Such militancy continued albeit unevenly until 1926 and was met with resistance from employers and the State culminating in the mighty confrontation of the General Strike Politically the union had a close relationship with the Labour Party and its two minority Governments 1923 4 and 1929 31 The defeat of 1926 marked a watershed in British labour history in which again the TGWU played a key role Trade union militancy was succeeded by an attempt at negotiated accommodation with the employers known as Mondism Bevin was central to this development      **Evolution of the British Party System** Robert C. Self, 2014-07-30 By the end of the nineteenth century

reform and development of the British electoral system had inaugurated a new style of mass politics which fundamentally transformed the face of the British party system This book traces the evolution of recognisably modern parties from their roots in the 1880s through half a century of dramatic change in organisational structure electoral competition and constitutional thought In the House of Commons the Labour Party replaced the Liberals as the radical answer to the Conservative Party In the country at large the complex web of Victorian social regional and religious allegiances gave way to a cruder but more dynamic model of modern political loyalties The transformation at Westminster and in the constituencies is surveyed in relation to changes to the franchise including the vote for women class consciousness political organisation and doctrine The comprehensive account explains the varying fortunes of the parties in the face of mass democracy collectivism the First World War and economic uncertainty It also provides a critical insight into the debates and conflicts of interpretation which surround this pivotal period in British political history A History of Britain, 1885-1939 John Davis, 1999-05-26 The period between 1885 and 1939 was a pivotal half century in British history in which the Victorian political system yielded to a system far more recognisably modern in response to popular pressure for social reform and the implications of global superpower status Dr Davis relates these political developments to the background of social and economic change and to the consequences of Britain's position as an imperial power Drawing extensively upon the new historical scholarship of the 1980s and 1990s John Davis presents an original analysis of political change in a crucial period of Britain's recent past Access to History: Britain 1900-51 Michael Lynch, 2008-07-25 The Access to History series is the most popular and trusted series for AS and A level history students This title is written specifically for the 2008 AS specifications for OCR and AQA covering the key economic political and social issues of the period It focuses on the changing fortunes of the political parties at the time and the ways in which they were affected by the impacts of the two world wars The pressures for social reform throughout the period are also analysed Great Britain, Germany, and the Soviet Union Stephanie Salzmann, 2003 The treaty of Rapallo concluded in 1922 between Germany and the Soviet Union the two vanquished powers of the Great War ranks high among the diplomatic coups de surprise of the twentieth century Its real importance however lies in the repercussions of the alliance on the subsequent policies of the two victorious powers Britain and France This study examines the impact of Rapallo on British foreign policy between 1922 and 1934 when the German Soviet relationship had virtually ended The ghost of Rapallo is the central theme of this story as ever since the treaty's conclusion Rapallo has been a byword for Soviet German secret and potentially dangerous collaboration This book describes how the British viewed the Rapallo co operation how they dealt with this special relationship and how the lingering memory of Rapallo affected British policy for decades to come While examining a particular aspect of international relations it throws additional light on broader topics of European relations in the 1920s and early 1930s Dr STEPHANIE SALZMANN completed her PhD at Trinity Hall Cambridge **A Dictionary of Political Biography** Christopher Riches, Dennis
