Svensson, 2019-05-10 This book provides a rich analysis of the history of Swedish victim support With the majority of research on victim support centering on the Anglosphere this book offers a unique case study for considering the role of the victim in the criminal justice system While Sweden has enacted many laws to support victims and victim assistance programs have grown rapidly welfare policy has become more restrictive and crime policy to some degree more punitive Drawing on archival material and interviews with key representatives for the Swedish Association for Victim Support BOJ this book examines what role the victim movement has played in a changing welfare state It argues that BOJ filled a function in the decentralization and privatization of the Swedish welfare state and explores distinctive features of the Swedish victim movement and the form it has taken as compared to that in other countries This book will be of interest to scholars and students of criminology sociology social policy civil society studies and social work and those engaged in studies of victims and victimology *Introduction to Criminology* Frank E. **Victims of Crime** Matthew Hall, 2018-01-18 This volume critically engages with the development of official policy and reform in relation to the support of victims of crime both within and beyond the criminal justice system of England and Wales Since the election of the Conservative Liberal Democrat Coalition Government in May 2010 it is argued that victimization has increasingly taken on a greater cultural resonance both in England and Wales and in other industrialised countries Images of terrorism public debates around the handling of sexual victimisation by the courts and the issue of child sexual exploitation have catapulted victim issues into the public consciousness like never before generating a new form of what Hall terms victim capital As such this book utilises a combination of cultural victimological analysis governance theory and legal scholarship to address fundamental questions concerning the drivers and impact of victim policy in England and Wales in the 21st century An engaging and original study this book will be of particular interest to scholars of victimology and the criminal justice system as well as activists and policy makers

*Victims and Restorative Justice* Inge Vanfraechem, Daniela Bolívar Fernández, Ivo Aertsen, 2015-05-15

Restorative justice aims to address the consequences of crime by encouraging victims and offenders to communicate and discuss the harm caused by the crime that has been committed In the majority of cases restorative justice is facilitated by direct and indirect dialogue between victims and offenders but it also includes support networks and sometimes involves professionals such as police lawyers social workers or prosecutors and judges In theory the victim is a core participant in restorative justice and the restoration of the harm is a first concern In practice questions arise as to whether the victim is actively involved in the process what restoration may entail whether there is a risk of secondary victimisation and whether the victim is truly at the heart of the restorative response or whether the offender remains the focal point of attention Using a combination of victimological literature and empirical data from a European research project this book considers the role

and the position of the victim in restorative justice practices focusing on legislative organisational and institutional frameworks of victim offender mediation and conferencing programmes at a national and local level as well as the victims personal needs and experiences The findings are essential reading for academics and students engaged in the study of justice victimology and law The publication will also be valuable to policymakers and professionals such as social workers lawyers and mediators
