The Fiscal Behaviour Of State And Local Governments:

Federal Presence in Nigeria. The 'Sung' and 'Unsung' Basis for Ethnic Grievance Festus O. Egwaikhide, Victor A. Isumonah, Olumide S. Ayodele, 2009 Minorities of the oil producing states are seriously disturbed by the inequity that is apparent from the existing principles of revenue allocation in Nigeria In taking issues with them and other southern advocates of new revenue allocation criteria the dominant north's organic intellectuals have always relied on the obvious concentration of economic and commercial activities in southern Nigeria to refute the argument that the north is the greater beneficiary of Nigeria's wealth Scholarly contribution to the ethno regional debate on the equity of resource allocation has been anchored to the same popular platform namely the criteria for inter governmental revenue allocation It is as if they absolutely embody the revelation about equity or inequity of resource allocation in Nigeria where the federal government has retained between 48.5 per cent and 56 per cent of the federation account let alone revenues unpaid into this account This study marks a departure from the orthodox focus on Nigeria's ethnic problems including the contentious demand of the southern minorities for an increase in the weight assigned the principle of derivation by examining federal expenditures to determine the distribution of federal presence and thus winners and losers bearing in mind that the entire country is federal government's coverage

The Fiscal Behavior of State and Local Governments Harvey S. Rosen, 1997 The Fiscal Behavior of State and Local Governments presents in one authoritative volume Harvey Rosen's considerable contribution to the field of sub federal public finance in the United States He investigates how state and locality spending and taxing decisions are influenced by the economic environment in which they operate This important book begins by examining the fiscal structures of states and localities The analyses augment traditional models with new economic and political considerations Rosen investigates the effect of tax structure on the growth of expenditure the influence of the level of expenditure of neighbouring governments and the impact of the federal income tax on the fiscal structure of state and local governments He also employs the tools of modern dynamic analysis to shed new light on state and local behaviour in an intertemporal setting using both panel and aggregate data In addition he discusses the problems involved in characterizing state tax structure Finally he explores a number of methodological issues relating to the theory and econometrics of tax analysis This book will prove invaluable to economists who specialise in public finance political economy and public policy
