Frantz,Eric Murphy Selinger,2014-01-10 Despite the prejudices of critics popular romance fiction remains a complex dynamic genre It consistently maintains the largest market share in the American publishing industry even as it welcomes new subgenres like queer and BDSM romance Digital publishing originated in erotic romance and savvy online communities have exploded myths about the genre's readership Romance scholarship now reflects this diversity transformed by interdisciplinary scrutiny new critical approaches and an unprecedented international dialogue between authors scholars and fans These eighteen essays investigate individual romance novels authors and websites rethink the genre's history and explore its interplay of convention and originality By offering new twists in enduring debates this collection inspires further inquiry into the emerging field of popular romance studies "The" Floricultural Cabinet and Florist's Magazine ,1848 **The Floricultural Cabinet, and Florists Magazine** ,1847 **Floricultural Cabinet and Florists' Magazine. ...** ,1847 *The Formulas of Popular Fiction* Anna Faktorovich,2014-09-22 This book creates a taxonomy for the major bestselling fictional genres romance e.g authors Heyer Cartland Woodiwiss and Roberts religious and inspirational Corelli and Douglas mystery and detective Conan Doyle Christie and Mankell and science fiction horror and fantasy Wells Tolkien Orwell Niven King and Rowling Chapters look at a genre from its roots to its most recent works The structural patterns in the plot characters and setting of these genres are then explained The book also provides a critique of currently popular hyper formulaic hack unliterary writings that have multiplied in recent decades Special topics such as the publishing oligopoly and the resulting homogeneity among bestselling works and the steady movement from literary to

unliterary fiction are also examined      *The Oxford History of the Novel in English* Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States      Reading the Romance Janice A. Radway, 2009-11-18 Originally published in 1984 Reading the Romance challenges popular and often demeaning myths about why romantic fiction one of publishing's most lucrative categories captivates millions of women readers Among those who have disparaged romance reading are feminists literary critics and theorists of mass culture They claim that romances enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture Radway questions such claims arguing that critical attention must shift from the text itself taken in isolation to the complex social event of reading She examines that event from the complicated business of publishing and distribution to the individual reader's engagement with the text Radway's provocative approach combines reader response criticism with anthropology and feminist psychology Asking readers themselves to explore their reading motives habits and rewards she conducted interviews in a midwestern town with forty two romance readers whom she met through Dorothy Evans a chain bookstore employee who has earned a reputation as an expert on romantic fiction Evans defends her customers choice of entertainment reading romances she tells Radway is no more harmful than watching sports on television We read books so we won't cry is the poignant explanation one woman offers for her reading habit Indeed

Radway found that while the women she studied devote themselves to nurturing their families these wives and mothers receive insufficient devotion or nurturance in return In romances the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect The heroines admired by Radway's group defy the expected stereotypes they are strong independent and intelligent That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do Radway argues with the women readers fantasies and choices than with their need to deal with a fear of masculine dominance These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading tastes In fact women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture Paradoxically the books that they read make conventional roles for women seem desirable It is this complex relationship between culture text and woman reader that Radway urges feminists to address Romance readers she argues should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination In a new introduction Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations
