**Arturo Pérez-Reverte** Anne L. Walsh, 2007 The complex narrative technique of one of Spain's most renowned contemporary authors The writings of Arturo Pérez-Reverte one of Spain's most renowned contemporary authors have been described as a minefield This monograph examines the complexities behind the narrative technique employed in creating such a minefield including an analysis of the role played by both male and female characters the relevance of the past as a motif and aspects of the role of storytelling in creating mystery where none should exist Both Revertian novels and journalistic writing are seen to be part of an over all game which is played between their author and his readers Film too forms part of the material reviewed as though Pérez-Reverte is not a script writer many films have been based on his novels The text centred analysis concludes that the themes of interest in all Revertian output revolve around two main areas the significance of the past whether historical cultural or literary and the role of the written word in communicating in rescuing and in challenging versions of that past in order to combat what Pérez-Reverte terms *dismemory* ANNE L WALSH lectures in Hispanic Studies at University College Cork

*Relational Designs in Literature and the Arts*, 2012-01-01 This collection focuses on texts that address the other arts from painting to photography from the stage to the screen and from avant garde experiments to mass culture Despite their diversity of object and approach the essays in *Relational Designs* coalesce around the argument that representations are defined by relations and dynamics rather than intrinsic features This rationale is supported by the

discourses and methodologies favoured by the book's contributors their approaches offer a cross section of the intellectual and critical environment of our time The book illustrates the critical possibilities that derive from the broad range of modes of inquiry poststructuralist criticism gender studies postcolonial studies new historicism that the book's four sections bring to bear on a wealth of intermedial practices But Relational Designs compounds such critical emphases with the voice of the practitioner the book is rounded off by an interview in which a contemporary novelist discusses her attraction to the other arts in terms that extend the book's insights and bridge the gap between academic discourse and artistic practice

details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing. Such approaches can yield valuable insights. Nonetheless, there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society. In this perspective, issues of structure and style are sidelined or, if addressed, are praised to the extent that they approach invisibility. Concision, sparseness, realism are the qualities singled out for praise. The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason. The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre. The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative. The patterns of reassurance, the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems, ambiguities and uncertainties of the self and of society. The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors. The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche. The role of the reader, spectator and critic in conferring meaning is a crucial one.

Reading the Popular in Contemporary Spanish Fiction Nickianne Moody, 2004-12. Although Spain has one of the lowest per capita rates of book buying in Europe, popular and mass market print fiction is perennially in demand. The essays in this volume assess the appeal of popular genres such as the detective novel, romance and science fiction to particular groups of readers and consider what makes a bestseller in the Spanish context. They look at how reader taste is directed by non-academic book buying magazines and analyze the political intentions of seemingly innocuous comics and popular novels with particular reference to women's writing. Montalban, Esther Tusquets or Carmen Martin Gaité decide to incorporate the themes, devices and structures of mass cultural products into their highbrow literature. The wide-ranging nature of this volume and its fusion of textual analysis and theoretical overview provide unique access to aspects of Spanish mass popular and high literature hitherto largely ignored by the critics. Shelley Goddard is Jubilee Research Fellow, Department of Hispanic Studies, Royal Holloway University of London. Nickianne Moody is principal lecturer in Media and Cultural Studies at Liverpool John Moores University.
