The Hill Of The Martyr An Architectural History Of St Albans Abbey:

The Hill of the Martyr Eileen Roberts,1993 **St Albans Abbey: The Excavation of the Chapter House 1978** Martin Biddle,Birthe Kjølbye-Biddle,Megan Kirkpatrick,Francis M. Morris,2024-06-13 Excavations at the site of the medieval chapter house of St Albans Abbey in 1978 uncovered fragments of decorated floor tiles of the Anglo Saxon abbey and associated burials along with the magnificent floor of relief decorated tiles of the medieval chapter house and the graves of 16 known figures of the late 11th to 15th century abbey *The Abbot and the Rule* Michelle Still,2017-03-02 St Albans was one of the greatest Benedictine abbeys of medieval England and the early 14th century was a period during which the concerns of the community and the role of the abbot emerge particularly clearly Yet the history of the abbey during this period has received little attention since general surveys undertaken over eighty years ago and the manorial history by Levett in 1938 Basing herself on the unique and relatively unexploited *Gesta Abbatum Monasterii Sancti Albani* Michelle Still examines the position of St Albans in both the secular and monastic worlds with a focus on the period 1290 1349 The study includes discussion of the role of the abbot as a feudal landlord a provider of education at the abbey s grammar school and a dispenser of charity In conclusion she notes the pivotal importance of the personality and influence of the abbot of St Albans in ensuring the strict observance of the Rule of St Benedict in an age when traditional monasticism was increasingly challenged Through the detailed study of this one abbey this book makes an important contribution to the overall picture of monastic life in medieval England *Alban and St Albans: Roman and Medieval Architecture, Art and Archaeology: v. 24* Philip Lindley,Martin Heing,2024-11-01 This is a collection of eighteen papers presented at a conference that was held at the Hatfield Campus of the University of Hertfordshire with 122 members and guests from the United Kingdom the United States of America Germany and Norway were present The papers are on the research on various aspects of the art and architecture of the abbey at St Albans and provides an ideal forum for bringing together many aspects of the abbey s history **The Hill of the Martyr** Eileen Roberts,1993 *The Light Ages: The Surprising Story of Medieval Science* Seb Falk,2020-11-17 Named a Best Book of 2020 by The Telegraph The Times and BBC History Magazine An illuminating guide to the scientific and technological achievements of the Middle Ages through the life of a crusading astronomer monk Falk s bubbling curiosity and strong sense of storytelling always swept me along By the end *The Light Ages* didn t just broaden my conception of science even as I scrolled away on my Kindle it felt like I was sitting alongside Westwyk at St Albans abbey leafing through dusty manuscripts by candlelight Alex Orlando Discover Soaring Gothic cathedrals violent crusades the Black Death these are the dramatic forces that shaped the medieval era But the so called Dark Ages also gave us the first universities eyeglasses and mechanical clocks As medieval thinkers sought to understand the world around them from the passing of the seasons to the stars in the sky they came to develop a vibrant scientific culture In *The Light Ages* Cambridge science historian Seb Falk takes us on a tour of medieval science through the eyes of one fourteenth century monk John of Westwyk

Born in a rural manor educated in England's grandest monastery and then exiled to a clifftop priory Westwyk was an intrepid crusader inventor and astrologer From multiplying Roman numerals to navigating by the stars curing disease and telling time with an ancient astrolabe we learn emerging science alongside Westwyk and travel with him through the length and breadth of England and beyond its shores On our way we encounter a remarkable cast of characters the clock building English abbot with leprosy the French craftsman turned spy and the Persian polymath who founded the world's most advanced observatory The Light Ages offers a gripping story of the struggles and successes of an ordinary man in a precarious world and conjures a vivid picture of medieval life as we have never seen it before An enlightening history that argues that these times weren't so dark after all The Light Ages shows how medieval ideas continue to color how we see the world today

Dorchester Abbey, Oxfordshire Warwick Rodwell, 2009-11-18 Dorchester on Thames and its abbey have been subjects of antiquarian interest for more than 450 years and during that time much has been written about them They are however still far from being comprehensively studied and recorded Indeed the most substantial architectural description of the medieval church was written as long ago as 1845 and a thoroughgoing reappraisal has long been overdue In this major new study on the origins history and architecture of Dorchester Abbey Warwick Rodwell assembles a huge amount of material from observations during repair and conservation and information derived from archaeological excavation as well as the unexpected discovery of previously unstudied and unpublished topographical and architectural material housed in several archives The volume is divided into two parts the first contains an account of the archaeology of the site and the architectural development of the abbey while the second comprises a series of detailed notes and observations on the present structure its fittings and furnishings

Adrian IV The English Pope (1154-1159) Brenda Bolton, Anne J. Duggan, 2017-05-15 The year 2000 witnessed the 900th anniversary of the birth of Adrian IV the only Englishman to sit on the papal throne His short pontificate of four and a half years distracted by crisis and controversy and followed as it was by an 18 year schism could be judged a low point in the history of the papacy The studies in this book challenge the view that Adrian was little more than a cipher the tool of powerful factions in the Curia This is the first large scale work on Adrian since 1925 and is supported by a substantial appendix of relevant sources and documents in facing translation Relations with the Empire the Norman kingdom and the Patrimony are all radically reassessed and the authenticity of Laudabiliter reconsidered At the same time the spiritual educational and devotional contexts in which he was operating are fully assessed his activities in Catalonia and his legatine mission to Scandinavia are examined in the light of recent research and his special relationship with St Albans is explored through his privileges to this great abbey These studies by leading scholars in the field together with the introductory chapter by Christopher Brooke reveal an active and engaged pope reacting creatively to the challenges and crises of the Church and the world

Lost Artefacts from Medieval England and France Katherine Baker, 2022 Contemporary descriptions of objects no longer extant examined to reconstruct these lost treasures Surviving accounts of the material culture of medieval Europe including buildings boats reliquaries wall paintings textiles ivory mirror cases book bindings and much more present a tantalising glimpse of medieval life hinting at the material richness of that era However students and scholars of the period will be all too familiar with the frustration of trying to piece together a picture of the past from a handful of fragments The material turn has put art architecture and other artefacts at the forefront of historical and cultural studies and the resulting spotlight on the material culture of the past has been illuminating for researchers in many fields Nevertheless the loss of so much of the physical remnants of the Middle Ages continues to thwart our understanding of the period and much of the knowledge we often take for granted is based on a series of arbitrary survivals The twelve essays in this book draw on a wide array of sources and disciplines to explore how textual records from the chronicles of John of Worcester and Matthew Paris and inventories of monastic treasuries and noble women to Beowulf and early English riddles when combined with archaeological and art historical evidence can expand our awareness of artistic and cultural environments Touching on a broad range of issues around how we imaginatively reconstruct the medieval past and a variety of objects both precious and ephemeral this volume will be of fundamental interest to medieval scholars whatever their disciplinary field Contributors Katherine Baker Marian Bleeke Deirdre Carter Laura Cleaver Judith Collard Joshua Davies Kathryn Gerry Karl Kinsella Katherine A Rush Katherine Weikert Beth Whalley Victoria Yuskaitis

From the Margins to the Centre in Seventeenth-Century England Angela McShane, Tim Reinke-Williams, 2025-05-20 Collection of essays showcasing how one of the greatest historians of seventeenth century England has shaped and continues to influence the direction of studies in early modern society culture

and belief This collection of essays showcases how over an illustrious career spanning more than fifty years Professor Bernard Capp FBA has shaped and continues to influence the direction of studies in early modern English social and cultural history Initially influenced by the historiographical agendas set in the 1960s by Christopher Hill and Sir Keith Thomas over the last five decades Capp has produced important studies of religious radicalism print culture gender and sibling relations the culture wars of the 1650s and the maritime world Collectively this body of work enabled him not only to recover the experiences of the marginalised but also to highlight the importance of topics previously deemed at best of marginal interest to historians of seventeenth century England The contributions to this volume produced by a new generation of historians whose doctoral work Capp supervised and examined are similarly wide ranging and innovative Engaging in dialogue with Capp s work as well as those he has been in dialogue with himself the authors provide novel studies of hermits sailors and surgeons as well as shedding fresh light on topics such as the politics of the parish the lives of plebeian women men s emotions and the cultural worlds of Jane Shore and John Taylor the Water Poet Like Capp the authors use evidence from legal records life writings and cheap printed texts to recover marginalised voices and reconstruct the everyday lives of those overlooked and misunderstood by their contemporaries and by historians By doing so they demonstrate how one of the greatest historians of seventeenth century England continues to inspire the production of innovative studies of early modern society culture and belief
