The Hinge Of Fate The Second World War:

The Second World War: The hinge of fate Winston Churchill, 1948 *The Hinge of Fate* Winston S. Churchill, Winston Churchill, 1986-05 From uninterrupted defeat to almost unbroken success a year when Rommel is gradually thrown back in North Africa and in the Pacific the tide turns *The Hinge of Fate* Winston Churchill, 1950 A chronicle of the period from January 1942 through May 1943 during which the fortunes of the Allies turned from disaster to success *The Hinge of Fate* Winston S. Churchill, 2019-09-05 The British prime minister recounts battles from Midway to Stalingrad and how the Allies turned the tide of WWII Superlative The New York Times The Hinge of Fate is the dramatic account of the Allies changing fortunes In the first half of the book Winston Churchill describes the fearful period in which the Germans threaten to overwhelm the Red Army Rommel dominates the war in the desert and Singapore falls to the Japanese In the span of just a few months the Allies begin to turn the tide achieving decisive victories at Midway and Guadalcanal and repulsing the Germans at Stalingrad As confidence builds the Allies begin to gain ground against the Axis powers This is the fourth in the six volume account of World War II told from the unique viewpoint of the man who led his nation in the fight against tyranny The series is enriched with extensive primary sources as we are presented with not only Churchill's retrospective analysis of the war but also memos letters orders speeches and telegrams day by day accounts of reactions as the drama intensifies Throughout these volumes we listen as strategies and counterstrategies unfold in response to Hitler's conquest of Europe planned invasion of England and assault on Russia in a mesmerizing account of the crucial decisions made as the fate of the world hangs in the balance No memoirs by generals or politicians are in the same class The New York Times *The Hinge of Fate* Winston S. Churchill, 1950 *The Second World War* W. S. Churchill (Sir), 1951 *Did Singapore Have to Fall?* Kevin Blackburn, Karl Hack, 2003-11-20 It will help students and general readers make up their own minds on the most crucial question which can be summed up as Did Singapore Have to Fall Jacket *The Second World War Vol. 4 The Hinge of Fate* Winston S. Churchill, 1955 **The Second World War: The hinge of fate** Sir Winston Churchill, 1950 1942 Taylor Downing, 2022-10-04 A revelatory new work of popular history focused on the year 1942 as the fate of Britain and Winston Churchill's leadership hangs in the balance Eighty years ago Britain stood at the brink of defeat In 1942 a string of military disasters engulfed Britain in rapid succession the collapse in Malaya the biggest surrender in British history at Singapore the passing of three large German warships through the Straits of Dover in broad daylight the longest ever retreat through Burma to the gates of India serious losses to Rommel's forces in North Africa the siege of Malta and the surrender at Tobruk All of this occurred against the backdrop of catastrophic sinkings in the Atlantic and the Arctic convoys People began to claim that Churchill was not up to the job and his leadership was failing badly Public morale reached a new low Taylor Downing's 1942 explores the story of frustration and despair of that year prompting Winston Churchill to demand of his army chief Have you not got a single general who can win battles Using newly discovered archival material historian Taylor

Downing shows just how unpopular Churchill became in 1942 with two votes attacking his leadership in the House of Commons and the emergence of a serious political rival Some argue that Britain s most precarious moment of the war was in 1940 when the nation stood up against the threat of German invasion during the Battle of Britain But in 1942 Taylor Downing describes in nail biting detail what was really Britain s darkest hour of World War II [The German Fleet at War, 1939-1945](#) Vincent O'Hara,2011-09-15 The German Fleet at War relates the little known history of the Kriegsmarine s surface fleet with a focus on the sixty nine surface naval battles fought by Germany s major warships against the large warships of the British French American Polish Soviet Norwegian and Greek navies It emphasizes operational details but also paints a broad overview of the naval war The book addresses the lack of information about the specifics of naval engagements in World War II and provides a database of naval engagements for comparison and analysis but unlike most reference works it has a continuous narrative and a theme The result is a unique overview of the German and Allied navies at war that provides new appreciation of their activities and accomplishments **The Second World War, Vol. 4** Winston S. Churchill,1985

Hitler, 1936-45 Ian Kershaw,2000 This one volume edition of Kershaw s superb biography Ian Buruma New York Times Book Review of Hitler will be the final word on the most demonic figure of the 20th century of photos **Out of the Shadows** Neill Lochery,2017-02-23 Out of the Shadows is a full account of post authoritarian democratic Portugal 1974 to Present following the Carnation Revolution which began on April 25th 1974 and based on documentary sources personal accounts and unpublished documents from the National Archive in Kew Lisbon and Portugal s best days are behind them is a common theme put forward by writers who focus their attention on the golden era of Portuguese discoveries the Empire and the role of Lisbon as a major Atlantic power Neill Lochery s book demonstrates that Portugal is not suffering from such inevitable decline In 1974 a dramatic overnight coup led to the fall of the Estado Novo dictatorship in Portugal in Lisbon the events became known as the Carnation Revolution As the colonies collapsed the United States helped airlift 13 000 refugees from Angola back to Portugal as US Secretary of State Henry Kissinger maneuvered to advance the moderate side of the government in Lisbon over the radicals and thus guarantee US interests As Neill Lochery argues one of the major misunderstandings of the post revolution era in Portugal has been the concentration on domestic over international factors in helping to shape its story Having emerged from its twentieth century financial crisis and bail out and thus out of the shadows he argues that Portugal is a country of huge relevance to the present day and of great future significance to the European continent Indeed the strengthening of bonds between Portugal and its European neighbours can be seen to be more important than ever given the heightened tensions in European politics the refugee crisis and the prospect of a changing European Union **The Birds That Wouldn't Sing** Justin Smith,2024-12-19 This compelling book offers a unique perspective on D Day and its aftermath through the personal testimonies of the Wrens who worked for Admiral Sir Bertram Ramsay during Operation Overlord Drawing on public and private archives it reveals the untold stories of the women serving

in the Women's Royal Naval Service WRNS balancing their wartime contributions with the strictures of secrecy and censorship. The narrative is framed by letters from these Wrens which provide intimate glimpses into both the personal and professional challenges they faced during World War II. The book captures the atmosphere of war as experienced by British auxiliaries. It highlights the Wrens' vital but often overlooked role in the D-Day planning effort and beyond, revealing the surreal coexistence of the ordinary and extraordinary in wartime. Focusing in particular on the wartime archive of one of the Wrens, Joan Prior, the author brings to life the contribution of these women to the war effort while also offering insights into British, French, and German morale and culture. This thoughtful and moving account adds depth to the broader historical narrative of World War II, making it a valuable addition for both the general reader and the professional historian.

King's Navy David Kohlen, 2024-11-28. An authoritative account of the rise and fall of American sea power between 1897 and 1947 and the definitive biography of Fleet Admiral Ernest J. King. Between 1897 and 1945, the US Navy rose to lofty heights with huge manpower, a lavish roster of ships, and a hard-earned reputation for professionalism and potency. By 1947, in the wake of the Second World War, the Navy, although still powerful, had been significantly scaled down; much of the senior leadership retired, and the wartime edge gradually dulled. This period from 1897 to 1947 was witnessed and to a large degree driven and determined by two admirals: Ernest J. King and King's mentor William S. Sims. These admirals were empowered by two giants of American political and military history: Presidents Theodore Roosevelt and Franklin D. Roosevelt. Through the lives of King, Sims, and the Roosevelts, Naval War College historian David Kohlen has crafted a sweeping history of American sea power from 1897 to 1947. This epic work was made possible through 20 years of research and writing. By accessing undiscovered and recently declassified source material, along with the full cooperation of the King and Sims families, the author has been able to tell new stories and draw fresh conclusions, making this volume a must-have for scholars of naval history.

Those Who Have the Courage Matthew Wright, 2024-06-17T00:00:00Z. Those Who Have the Courage will be a valuable resource for anyone who is interested in the military and social history of New Zealand. It is a comprehensive history of the Royal New Zealand Armoured Corps, the Mounted Rifles, and predecessor units. Governor General Dame Cindy Kiro from the Foreword. The product of painstaking multi-year research by esteemed historian and author Matthew Wright, this richly illustrated hardback is a must-have for the history reader. Part 1 covers the colonial cavalry that fought in the NZ Wars and Anglo-Boer War; then Part 2 moves to the Mounted Rifles, distinguishing themselves in the First World War at the end of which the tank came into play. Part 3 describes the Armoured Corps' varied roles in the Second World War. Part 4 details what Wright calls an armoured evolution through actions from the Korean War to Vietnam, and Part 5 records action in East Timor and Afghanistan, and modern challenges, rounding out this readable story. The appendices include rolls of honour, lists of vehicles, and organisational charts.
