The History, Civil and Commercial, of the British West Indies; with a Continuation to the Present Time Bryan Edwards,1819

City Status in the British Isles, 1830-2002 John Beckett,2017-07-05 Based on a wide variety of government and civic records this book traces the evolution of the changing nature of city status particularly through the nineteenth and twentieth centuries Beginning with an explanation of how city status first became connected to cathedrals in the medieval period the book explores how during the nineteenth century links evolved between Anglican diocesan sub divisions and city creation It then shows how in a few years between 1888 and 1907 the traditional interpretation of a city was overturned as the most major British industrial and commercial towns received city status and lord mayoralties The second half of the book concentrates on city status during the twentieth century and particularly the politicisation of the process and the linking of grants to royal occasions The study concludes by looking at the city status competitions of 2000 and 2002 in relation to the previous two hundred years of city history

Early Medieval Britain Pam J. Crabtree,2018-06-07 The growth and development of towns and urbanism in the pre modern world has been of interest to archaeologists since the nineteenth century Much of the early archaeological research on urban origins focused on regions such as Mesopotamia Egypt and Mesoamerica Intensive archaeological research that has been conducted since the 1960s much of it as a result of urban

redevelopment has shed new light on the development of towns in Anglo Saxon England In this book Pamela Crabtree uses up to date archaeological data to explore urban origins in early medieval Britain She argues that many Roman towns remained important places on the landscape despite losing most of their urban character by the fifth century Beginning with the decline of towns in the fourth and fifth centuries Crabtree then details the origins and development of towns in Britain from the 7th century through the Norman Conquest in the mid eleventh century CE She also sets the development of early medieval urbanism in Britain within a broader comparative framework
