Egypt and the Struggle for Power in Sudan

Rami Ginat, 2017-08-24 For decades the doctrine of the Unity of the Nile Valley united Egyptians of a variety of political and nationalist backgrounds. Many Egyptians regarded Sudan as an integral part of their homeland and therefore battled to rid the entire Nile Valley of British imperialism and unite its inhabitants under the Egyptian crown. Here Rami Ginat provides a vital and important revised account of the history of Egypt's colonialist struggle and their efforts to prove categorically that the Nile Valley constituted a single territorial unit. These were clustered around several dominant theoretical layers: history, geography, economy, culture, and ethnography. This book for both Middle Eastern and African historians uses a mixture of Arabic and English sources to critically examine the central stages in the historical development of Egypt's doctrine, concentrating on the defining decade 1943-1953 that first witnessed both the pinnacle of the doctrine's struggle and the subsequent shattering of a consensual nationalist dream.
