Hitler's Millennial Reich David Redles, 2008-11-01 A brilliant study of the convergence of apocalyptic anxiety and authoritarianism in Germany A story unfortunately of continuing relevance Charles B Strozier author of *Apocalypse On the Psychology of Fundamentalism in America After World War I* German citizens sought not merely relief from the political economic social and cultural upheaval that wracked Weimar Germany but also mental salvation With promises of order prosperity and community Adolph Hitler fulfilled a profoundly spiritual need on behalf of those who converted to Nazism and thus became not only Führer but Messiah contends David Redles who believes that millenarian sentiment was central to the rise of Nazism As opposed to many works which depersonalize Nazism by focusing on institutional factors Redles offers a fresh view of the impact and potential for millenarian movements The writings of both major and minor Nazi party figures in which there echoes a striking religiosity and salvational faith reveal how receptive Germans were to the notion of a millennial Reich such as that offered by Hitler Redles illustrates how Hitler's apocalyptic

prophecies of a coming final battle with the so called Jewish Bolsheviks one that was conceived to be a war of annihilation was transformed into an equally eschatological Final Solution Redles has done an extraordinarily careful and brilliant analysis of the archival material to reveal Hitler s messianic charisma his appeal both on the ideological and psychological level illustrating that if you can convince people that they live in apocalyptic times and you have the key to their collective salvation you can get them to do anything Richard Landes Director Center for Millennial Studies Department of History Boston University

A Brief History of

The Third Reich Martyn Whittock, 2011-06-23 The abuse of power genocide the destruction of total war unimaginable cruelty and the suffering of millions were all central features of Hitler's Nazi regime Yet the Nazis were also highly successful in manipulating images and information they mobilized and engaged vast numbers of people caught the imagination of the young and appeared remarkably modern to many contemporary observers Was the Third Reich a throwback to a mythical past or a brutally modern and technologically advanced state Was Hitler a strong dictator who achieved his clear goals or was his chaotic style of government symptomatic of a weak dictator unable to control the complex and contradictory forces that he had unleashed Was the Third Reich ruled by terror or largely supported by a compliant German population Was the genocide against the Jews a peculiarly German phenomenon or a uniquely German expression of a terrible wider trend Whittock explores these and other key questions interrogating the views of different historians and drawing on a wealth of primary sources from state sponsored art to diaries letters and memoirs of both perpetrators and victims to provide an overview of the complex evidence History should aim to put us firmly in touch with the lives of people living in the past and the issues they faced Whittock never loses sight of the individuals whose lives were caught up in these extraordinary events while also giving a lucid overview of the bigger picture
