The Hole In The Fabric Science Contemporary Literature And Henry James:

The Hole in the Fabric Strother B. Purdy, 1977 The Hole in the Fabric Strother Purdy, 2010-11-23 In this imaginative and provocative book Purdy draws upon the work of such writers as Kurt Vonnegut Vladimir Nabokov Alain Robbe Grillet Günter Grass Samuel Becket and Eugene Ionesco to suggest ways in which novelists explore the unknown His ingenious consideration of Henry James in conjunction with these novelists as well as with science fiction and detective fiction writers and with mid century scientific discoveries and advances black holes hydrogen bombs space travel offers rich new insights into James's work and into the twentieth century view of humanity's place in the world **Woman's Place In The Novels**

Of Henry James Elizabeth E Allen, 1984-06-21 **American Literature and Science** Robert Scholnick, 2014-07-11 Literature and science are two disciplines are two disciplines often thought to be unrelated if not actually antagonistic But Robert J Scholnick points out that these areas of learning up through the beginning of the nineteenth century were understood as parts of a unitary endeavor By mid century they had diverged but literature and science have continued to interact conflict and illuminate each other In this innovative work twelve leaders in this emerging interdisciplinary field explore the long engagement of American writers with science and uncover science's conflicting meanings as a central dimension of the nation's conception of itself Reaching back to the Puritan poet minister physician Edward Taylor who wrote at the beginning of the scientific revolution and forward to Thomas Pynchon novelist of the cybernetic age this collection of original essays contains essential work on major writers including Franklin Jefferson Poe Emerson Thoreau Twain Hart Crane Dos Passos and Charles Olson Through its exploration of the ways that American writers have found in science and technology a vital imaginative stimulus even while resisting their destructive applications this book points towards a reconciliation and integration within culture An innovative look at a neglected dimension of our literary tradition American Literature and Science stands as both a definition of the field and an invitation to others to continue and extend new modes of inquiry **The Historical Eye** Susan M. Griffin, 1991 **Henry James and the Abuse of the Past** P.

Rawlings, 2005-03-02 Henry James and the Abuse of the Past explores the complex uses to which James puts his oblique experience of the American Civil War Why does James use and abuse the past by fabricating and distorting people and events in his autobiographical work The study integrates four elements history the past and problems of narration and representation the homoerotics of the Civil war tales and other soldiering fiction a life long pre occupation with Shakespeare as a historical figure and theories of time as they come under the pressure of trauma and war This well written insightful and persuasive study is an important contribution to James scholarship and will be of interest to any students and scholars of James Love and the Quest for Identity in the Fiction of Henry James Philip Sicker, 2017-03-14 Contrary to the majority of Henry James's critics who either have ignored the central importance of love in his work or have mislabeled it as Platonic infantile and asexual Philip Sicker shows that romantic love played a substantial role in James's fiction Originally published in

1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Henry James: The Young Master Sheldon M. Novick, 2011-07-27 As if Henry James himself were guiding us we visit old Calvinist New York in the mid nineteenth century and share the coming of age of a young man whose boldness of spirit and profound capacity for affection attract both men and women to him We journey with James through Italy and France witness his first love affair in Paris and settle with him in London at the height of Empire in the Victorian Age We scale the heights of London society with him and as the world opens to James we share with him the experience of writing a series of celebrated and successful novels culminating with Washington Square on which the play *The Heiress* is based and his masterpiece *The Portrait of a Lady* The Washington Post Book World notes It is no small ambition to write a biography of James that is commensurate with that master and Sheldon Novick has done it Splendidly written Novick has aimed to bring James back to life and he has succeeded brilliantly The Washington Post Book World Like a movie of James s life as it unfold moment to moment The New York Times Masterful in bringing James and his world to life San Francisco Examiner Chronicle Beautifully written with a grace that enables Sheldon Novick to weave his subject s words in and out of his own with a properly Jamesian suavity Novick s account gives one a profound respect for James s persistence and power of will The New Republic NOTE This edition does not include a photo insert

George Eliot and Nineteenth-Century Science Sally Shuttleworth,1987-03-12 This study explores the ways in which George Eliot s involvement with contemporary scientific theory affected the evolution of her fiction Drawing on the work of such theorists as Comte Spencer Lewes Bain Carpenter von Hartmann and Bernard Dr Shuttleworth shows how as Eliot moved from Adam Bede to Daniel Deronda her conception of a conservative static and hierarchical model of society gave way to a more dynamic model of social and psychological life

Nineteenth Century American Realism Mary Elise Miller,1984 **The Grand Continuum** David A. White,2010-11-23 The assumptions that literary criticism and philosophy are closely linked and that both disciplines can learn much from each other lead David White to examine key passages in James Joyce s novels both as a philosopher and as literary critic In so doing he develops a thesis that Joyce s attempt to capture the mysterious process whereby perception and consciousness are translated into language entails a fundamental challenge to everyday notions of reality Joyce s stylistic brilliance and virtuosity his destruction of normal syntax and meaning shock one into a new reality In the book s final section White examines the subtle relation between literary language and human consciousness and traces parallels between Joyce s stylistic experimentation and Wittgenstein s and Husserl s ideas about language

After Innocence Terry Otten,2010-11-23 The fear of falling the awareness of lost innocence lost illusions lost hopes and intentions of civilization in decline these are the themes which link literature to theology both concerned with the shape of human destiny Otten discusses the continuing viability of the myth of the Fall in literature He relates a wide variety of romantic and modern works to fundamental issues in modern Christianity

American Literary Scholarship - 1977 American Literary Scholarship,1979-05 Essayists survey the recent thought and research concerning outstanding authors trends and movements in American literature

Mind of Winter William Bevis,2010-11-23 Bevis addresses the most puzzling and least studied aspect of Wallace Stevens poetry detachment Stevens detachment often associated by readers with asceticism bareness or withdrawal is one of the distinguishing and pervasive characteristics of Stevens poetic work Bevis argues that this detachment is meditative and therefore experiential in origin Moreover the meditative Stevens of spare syntax and clear image is in constant tension with the romantic imaginative Stevens of dazzling

metaphors and exuberant flight Indeed for Bevis Stevens is a poet not of imagination and reality but of imagination and reality but of imagination and meditation in relation to reality **American Literary Scholarship 1978** American Literary Scholarship,1980-05 Essayists survey the recent thought and research concerning outstanding authors trends and movements in American literature *The Metafictional Muse* Larry McCaffery,2010-10-12 McCaffery interprets the works of three major writers of radically experimental fiction Robert Coover Donald Barthelme and Willam H Gass The term metafiction here refers to a strain in American writing where the self concious approach to the art of fiction making is a commentary on the nature of meaning itself Inside Modernism Thomas Vargish,Delo E. Mook,1999-01-01 In this book a professor of literature and a physicist offer a broad new interdisciplinary account of Modernism Thomas Vargish and Delo E Mook encompass physics the visual arts and literature in a thought provoking analysis of the period from the 1880s to World War II Uncovering common structures and values underlying each of these disparate fields the authors define Modernism and its historical location between nineteenth century intellectual conventions that preceded it and the Postmodernism that followed Bridging boundaries that traditionally divide disciplines Vargish and Mook create a uniquely coherent and comprehensive view of the aesthetics and intellectual values that characterize the culture of Modernism
