Rees,2020-11-06 A study of archaeology and the early Church in Greece is long overdue So far no book has been published in English that examines the growth of Christianity in southern Greece from New Testament times until the medieval period taking into account both contemporary theological expertise and a detailed knowledge of the numerous and exciting current archaeological excavations Situated between Israel and Italy Greece is now yielding vital evidence of the development of early Christianity Mainland Greece and its surrounding islands is a vast region and this book focus on an area rich in early Christian remains namely the region stretching from Athens southwards The book examines evidence relating to Christianity in New Testament times particularly through the writings of St Paul and early theologians and juxtaposes these texts with recent and current excavations at Corinth with its twin ports of Kenchreai and Lechaion and its chief sanctuary beyond the city at Isthmia where St Paul worked during the celebration of the pan Hellenic Games Much of the excavation at Lechaion has been carried out underwater by divers pioneering new methods of preserving submerged material since most of the harbor is entirely submerged Later particularly from the sixth century onwards Christian basilicas were built throughout Greece A number of these are examined including those at Nemea and Epidauros Nemea provides unique evidence of an agricultural community guided by a bishop numerous Christian artefacts have been excavated at the site Epidauros was honored as the birthplace of the healing god Asclepius and early Christians inherited and developed these healing skills in unexpected ways At other locations monks developed a wide variety of lifestyles that were little known in the Western Church The archaeology of Christian sites in Greece is a new and unfolding discipline this book will encourage scholars and students to take these studies further      *Cyprus Within the Biblical World* James H. Charlesworth,Jolyon G. R.

Pruszinski,2021-03-25 This volume moves discussion of ancient Israelite culture beyond concepts of isolation and borders factoring in already well known insights from classical studies and ancient history that take greater account of the impressive connections between all the countries bordering the Mediterranean Sea Specifically the contributors focus on Cyprus and the Bible and offer archaeological and biblical insights to consider how and in what ways Cyprus and Cypriot culture was related to biblical life and perceptions Though the Mediterranean separated Palestine from Cyprus it also joined them archaeological finds expose significant trade relations and cultural commonalities not only in the Hellenistic and late Roman eras but for many centuries prior These relations developed and became even more intimate in the later biblical period as evidenced by early Jewish and Christian writings By exploring various methods of cultural contact the contributors suggest that further examination of cultural links between Cyprus and Palestine in the biblical period can repay dividends in understanding the development of ancient Israelite religion early Judaism and early Christianity      *Jesus as Mirrored in John* James H. Charlesworth,2018-12-13 James H Charlesworth begins from a burgeoning point of scholarly consensus More and more scholars are coming to recognize that the Fourth Gospel is more historically complex than previously thought Charlesworth outlines two historical horizons within John On the one hand there is the Jewish background to the text complete with the

evangelist's knowledge of Palestinian geography and Jewish customs which Charlesworth perceives as offering a window into pre 70 Palestinian Judaism. On the other hand the gospel also reflects a post 70 world in which non believing Jews with more unity begin to part definitely with those who identified Jesus as the Messiah. Split into four sections this volume first examines the origins of the Fourth Gospel its evolution in several editions and its setting in Judea and Galilee. Charlesworth then looks specifically at the figure of Jesus and issues of history. He proceeds to consider this Gospel alongside earlier and contemporaneous Jewish literature most notably the Dead Sea Scrolls. Finally the volume engages with John's symbolism and language looking closely at key aspects in which John differs from the Synoptic Gospels and raising such provocative questions as whether or not it is possible that Jesus married Mary Magdalene. From one of the New Testament's most noted scholars this book allows deeper understanding of the ways in which the Gospel of John is a vital resource for understanding both the origin of Christianity and Jesus' position in history.

*The Cave of John the Baptist* Shimon Gibson, 2004-08-17. The first archaeological evidence of the historical reality of the Gospel story. From a historical point of view the uniqueness of this cave is that it contains archaeological evidence that comes to us from the very time of the personalities and events described in the Gospels. For here is the largest ritual bathing pool ever found in the Jerusalem area and found in the village where John the Baptist was born showing unmistakable signs of ritual use in the first century AD. Also in the cave is the earliest ever Christian art depicting John the Baptist as well as the three crosses of the crucifixion. By using the forensic techniques available to the modern archaeologist Gibson and his international team have been able to draw information from the drawings pottery coins bones remains of ritual fire and pieces of cloth found in the cave and match these up with the contemporary literary sources. This is a unique opportunity to build up a picture of the very first Christians how they lived and even what they believed. As Gibson writes By fitting together the new archaeological facts with the historical information available and sometimes buried in scholarly literature I believe I am able to throw an amazing amount of light on the personality and mission of John the Baptist. Who was he? Where did he come from? What were his beliefs and what was the baptism all about?

**The Lithic Imagination from More to Milton** Tiffany Jo Werth, 2024-07-08. The Lithic Imagination from More to Milton explores how stones rocks and the broader mineral realm play a vital role in early modern England's religious and cultural systems a role that in turn informs the period's poetic and visual imagination. The scale of the human lifespan and the gyre like turns of England's long Reformation provide a conceptual framework for the various stony textual and visual archives this book studies. The texts and images participate in specifically English histories literary artistic political religious although Continental influences are frequently in dialogue. The religious orbit encompasses the Christian rivalry with Jewish culture touches on Christianity's tension with Islam but most intently centers on the antagonism between Catholic and variants of Protestant and Reformed belief. The volume features canonical writers such as Shakespeare Spenser Donne Wroth Herbert Milton and Pulteney but puts them in company with lesser known religious polemicists alchemists

anatomists painters mothers and stonemasons Accordingly the multimedia archive includes drama lyric and prose as well as biblical illustrations tapestries church furniture paintings anatomical drawings and statues The lithic too is capaciously construed as a continuum of rocky as well as mineral forms ranging from bodily encrustations like the kidney and bezoar stone to salt iron limestone marble flint and silicon The assemblage of materials bears witness to aspirational imperial fantasies and looming colonial conquests it engages in both syncretism and supersession upholds and subverts gender hierarchies limns the race making category of hue with desire and supports and sometimes thwarts elitist ideologies of an elect chosen people All come together via the storied pathways of stone as densely material and as a foundation for the abstract imaginary along the scala naturae Across the lithic human fold stone promises fascinates betrays As alpha and omega stone can herald salvation or it can threaten with damnation
