work of such women authors as Emily Post Christine de Pizan Hannah Webster Foster Emily Bront Frances E W Harper and Martha Stewart as well as such women filmmakers as Lois Weber and Kasi Lemmons Specifically Foster notes I was interested in the possibility of locating power and agency in the voices of popular etiquette writers Her investigation led her to analyze etiquette and conduct literature from the Middle Ages to the present Within this wide scope she redefines the boundaries of conduct literature through a theoretical examination of the gendered body as it is positioned in conduct books etiquette texts poetry fiction and film Drawing on Bakhtin Gates Foucault and the new school of performative feminism to develop an interdisciplinary approach to conduct literature and literature as conduct Foster brings a unique perspective to the analysis of ways in which the body has been gendered raced and constructed in terms of class and sexuality Even though women writers have been actively writing conduct and etiquette texts since the medieval period few critical examinations of such literature exist in the fields of cultural studies and literary criticism Thus Foster s study fills a gap and does so uniquely in the existing literature In examining these voices of authority over the body Foster identifies the dialogic in the texts of this discipline that both supports and disrupts the hegemonic discourse of a gendered social order **The Burnscale Ramblers**
