description of how memories of the past become traditions as well as the role of these traditions in the institutional development of the noh theater from its beginnings in the 14th century through the late 20th century *Miscellaneous Tariff Bills* United States. Congress. Senate. Committee on Finance. Subcommittee on International Trade,1981 **Traces in the Way** Noel J. Pinnington,2010-03-31 *Traces in the Way* is simultaneously a critical interpretation of the writings of noh playwright and thinker Komparu Zenchiku 1407-1470 a refutation of received views of Japanese traditional arts *michi* and an analysis of medieval Japanese uses of texts The disciplinary approach is broadly that of cultural studies combining close reading social contextualization and drawing on multiple fields The study is organized through the five elements that Konishi Jin ichi identified as essential to *michi*: specialization, transmission, conformity, universality, and authority Each of these is examined critically and revised, providing a basis from which Zenchiku's works can be elucidated This new approach makes it possible to solve much that in conventional studies has remained puzzling about Zenchiku's works, including the principles behind the works of classification, the purposes that resulted in the *rokurin ichiro* works, and the ideology present in the fragmentary work *Meishukushu* It becomes clear that Zenchiku far from being a docile recipient of his teacher Zeami's legacy, combined Zeami's texts with those of other *michi* to radically reposition his own practice in the cultural fields of his day Zenchiku drew on a range of legitimating styles to fashion a new rationale for performance, one adequate to changing patronage requirements and appropriate to the circumstances of his troupe In this position, taking Zenchiku was strikingly successful, as is witnessed by the survival of the Komparu line through the chaotic century after his death With this book we come to know a good deal about sarugaku's transmission in the fifteenth century, enough to remedy a facile idealization of Japanese *michi* *Gleams From Japan (Routledge Revivals)* S. Katsumata,2013-05-13 First published in 1937, this is a collection of articles written by the author under the pseudonym Waseda Eisaku for the Japan Tourist Bureau's magazine over twenty-five years Intended to satisfy the intellectual curiosity of cultivated tourists from abroad by giving the insider's view of all things Japanese, it was published as a book just before the outbreak of World War II Writing in the first person, Katsumata becomes both guide and confidante, writing about his own travel experiences in Japan and about Japanese customs and practices that interest him, such as traditional incense ceremonies or fishing with rod and creel This personal approach results in an unusual selection of topics and itineraries, including tray landscapes, old Japanese clocks, hot springs, Japanese humour, sumo wrestling, pines in Japanese scenery, the Japanese sun flag, and Buddhist temple bells The author not only describes but draws the reader into his own experiences his joy on buying an antiquarian book he cannot really afford, the monotony he feels when travelling too long through snowy landscapes, the delight he takes in telling you that the best bait for carp fishing is sweet potato Katsumata's unconventional choice of subjects and his informal and individualistic writing style make this a refreshingly different guide to Japan and a valuable record of the period in which it was written **Tourist**,1919 **Edo Culture** Kazuo Nishiyama,1997-03-01 Nishiyama Matsunosuke is one of the most important historians of

Tokugawa Edo popular culture yet until now his work has never been translated into a Western language Edo Culture presents a selection of Nishiyama's writings that serves not only to provide an excellent introduction to Tokugawa cultural history but also to fill many gaps in our knowledge of the daily life and diversions of the urban populace of the time Many essays focus on the most important theme of Nishiyama's work the seventeenth to nineteenth centuries as a time of appropriation and development of Japan's culture by its urban commoners In the first of three main sections Nishiyama outlines the history of Edo Tokyo during the city's formative years showing how it was shaped by the constant interaction between its warrior and commoner classes Next he discusses the spirit and aesthetic of the Edo native and traces the woodblock prints known as ukiyo-e to the communal activities of the city's commoners Section two focuses on the interaction of urban and rural culture during the nineteenth century and on the unprecedented cultural diffusion that occurred with the help of itinerant performers pilgrims and touring actors Among the essays is a delightful and detailed discourse on Tokugawa cuisine The third section is dedicated to music and theatre beginning with a study of no which was patronized mainly by the aristocracy but surprisingly by commoners as well In separate chapters Nishiyama analyzes the relation of social classes to musical genres and the aesthetics of kabuki The final chapter focuses on vaudeville houses supported by the urban masses
