**The Descent from the Mountain** Martin Ravndal Hauge, 2001-01-01 This close reading of Exodus 19 40 focuses on the repetition of the encounter on the mountain This double encounter is expressed in a narrative structure of preparatory episodes climaxed by the theophany The tension of the narrative is linked to the people as the unlikely heroes of encounter and solved by the divine descent from the divine mountain to the man made tent The new situation of permanent encounter is foregrounded by the juxtaposed stories of pre and post Sinai journey and the theme of the substitution of Moses underlines a radical reinterpretation of traditional concepts inviting the reader to embark on a process of identification A

**Texts and Culture in Late Antiquity** J. H. D. Scourfield, 2007-12-31 Late Antiquity has increasingly been viewed as a period of transformation and dynamic change in its literature as in society and politics In this volume thirteen scholars focus on the intellectual and literary culture of the time investigating complex relationships between late Antique authors and the texts which they had inherited through the classical pagan and Christian traditions Particular emphasis is placed on works that carried special authority Homer Virgil Plato and the Bible The volume thus contributes to the history of the reception of classical texts and through its inclusiveness classical and classicizing philosophical and patristic writing are all represented seeks to offer a view of the textual world of late Antiquity as a unified whole It affords a scholarly introduction to a sweep of late Antique literature in Greek and Latin Authors and genres discussed include Juvenius and Claudian Plotinus and Proclus Jerome and John Cassian geographical and grammatical writing and Christian cento *On Behalf of the Mystical Fool* John P. Dourley, 2009-09-30 Jung's explanation of the religious tendency of the psyche addresses many sides of the contemporary debate on religion and the role that it has in individual and social life This book discusses the emergence of a new mythic consciousness and details ways in which this consciousness supersedes traditional concepts of religion to provide a spirituality of more universal inclusion On Behalf of the Mystical Fool examines Jung's critique of traditional western religion demonstrating the negative consequences of religious and political collective unconsciousness and their consequent social irresponsibility in today's culture The book concludes by suggesting that a new religiosity and spirituality is currently emerging in the West based on the individual's access to the sense of ultimacy residual in the psyche and seeking expression in a myth of a much wider compass This book will be of interest to scholars and students at all levels who are engaged in the expanding field of Jungian studies It will also be key reading for anyone interested in the theoretical and therapeutic connections between the psyche and religious experience *The Mystical Theology of the Eastern Church* Vladimir Lossky, 1991-08-01 Lossky's great work on Eastern Orthodoxy covers the whole range of its spirituality and theology Combining careful theology with the warmth of the deep personal devotion of the author The Mystical Theology of the Eastern Church is the best introduction to Orthodox teaching and theology available It provides a reliable and informative

presentation of the theological spirit of the Eastern Church His account makes clear the profound theological differences underlying the practices of the East and West and yet it is also an important contribution to ecumenism and to the life of Christian devotion It brings together subjects that are more usually separated asserting that there is no true mysticism that is not firmly rooted in theology and no true theology that is not experienced and therefore mystical The tradition of the Eastern Church is presented as a mystical theology with doctrine and experience mutually conditioning each other
