The Case Against Christianity:

The Case Against Christianity Michael Martin, 1991 In this systematic philosophical critique of the major tenets of Christianity Michael Martin examines the semantic and epistemological bases of religious claims and beliefs Beginning with a comparison and evaluation of the Apostles Creed the Niceno Chalcedonian Creed and the Athanasian Creed Martin discusses the principal theological historical and eschatological assumptions of Christianity These include the historicity of Jesus the Incarnation the Second Coming the Virgin Birth the Resurrection Salvation through faith in Jesus and Jesus as a model of ethical behavior Until now an adequately convincing criticism of Christianity did not exist Martin s use of historical evidence textual analysis and interpretations by philosophers and theologians provides the strongest case made to date against the rational justification of Christian doctrines

,2015-09-27 Excerpt from *The Case Against the Church* A Summary of the Arguments Against Christianity The object of this essay is to present in outline the arguments against Christianity from the standpoint of materialism These arguments have never so far as I am aware been collected together in a condensed form The word skeptic implies to the average church member the idea of a monster of wickedness destitute of all moral restraint capable of committing any crime in the calendar and who always recants his opinions upon his death bed The clergy are at no pains to correct these erroneous impressions and set clearly before the laity the points in dispute between the Church and her opponents Indeed it is not to their interest to do so It have therefore thought that an attempt to sum up the case on the part of science would not be amiss at this time when the matter is attracting such general attention Of course in treating a subject of such magnitude in so limited a space anything like attention to detail is impossible For the latter the reader is referred to the literature of the discussion This question cannot be set at rest by abusing scientific men or by falling back upon a priori assumptions and appeals to the emotions It must be argued and the victory awaits that party which shall produce the most conclusive evidence About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Case Against Christianity* Alan A. Not since Nietzsche has a work so groundbreaking and explosive appeared to question the role of the world s three major monotheistic religions If Nietzsche proclaimed the death of God French philosopher Michel Onfray starts from the premise that not only is God still very much alive but increasingly controlled by fundamentalists who pose a danger to the human race Documenting the ravages from religious intolerance over the centuries Onfray makes a strong case against the three

religions for their obsession with purity and their contempt for reason and intelligence individual freedom desire and the human body sexuality and pleasure and for women in general In their place all three demand faith and belief obedience and submission extol the next life to the detriment of the here and now Tightly argued this is a work that is sure to stir debate on the role of religion in Australian society and politics **Atheism And The Case Against Christ** Matthew S.

Mccormick,2012-09-25 Hundreds of millions of people believe that Jesus came back from the dead This cogent forcefully argued book presents a decidedly unpopular view namely that the central tenet of Christianity the resurrection of Jesus is false The author asks a number of probing questions Is the evidence about Jesus as it has been relayed to us over the centuries of sufficient quantity and quality to justify belief in the resurrection How can we accept the resurrection but reject magic at the Salem witch trials What light does contemporary research about human rationality from the fields of behavioral economics empirical psychology cognitive science and philosophy shed on the resurrection and religious belief Can we use contemporary research about the reliability of people s beliefs in the supernatural miracles and the paranormal to shed light on the origins of Christianity and other religions Does it make sense that the all powerful creator of the universe would employ miracles to achieve his ends Can a Christian believe by faith alone and yet reasonably deny the supernatural claims of other religions Do the arguments against Christianity support atheism By carefully answering each of these questions this book undermines Christianity and theism at their foundations it gives us a powerful model for better critical reasoning and it builds a compelling case for atheism Without stooping to condescension or arrogance the author offers persuasive arguments that are accessible thoughtful and new The Definitive Case Against Christianity Carmona,2021-01-02 In this book a

former Christian and author of *Philosophical Atheism Counter Apologetics and Arguments For Atheism* R N Carmona presents a decisive case against Christianity A multidisciplinary approach one that employs the insights of history anthropology the sciences and philosophy is used to debase Christianity while bolstering the case for naturalism The central claims of Christianity are taken to task and evidence is provided to show that the claims are not true Humanism is offered as the way forward for self actualized human societies and as means to alleviate the issues we face *The Case Against the Church. Weldon ,2023-04-11 An examination of skepticism and one of its principal complaints against God the Bible and Christianity Despite the best efforts of the most skilled skeptics for 20 centuries the case against Christianity has never been made Alleged moral dilemmas often cited by skeptics as proof the Bible could not be divinely inspired have critical information left out *In Defence of Atheism* Michel Onfray,2011-05-26 In the twenty first century religion is making a comeback bringing in its wake extremism of all kinds From Christian anti abortion campaigns to suicide bombers claiming the righteousness of Islam we are witnessing a resurgence of fundamentalism Michel Onfray s response to the threat of a post modern theocracy is to lay down the principles of an

authentic atheism exposing the fiction that is God he proposes instead a new philosophy of reason that celebrates life and humanity In Defence of Atheism demonstrates that organised religion is motivated by worldly historical and political power that the three dominant monotheisms Christianity Islam and Judaism exhibit the same hatred of women reason the body the passions that religion denies life and glorifies death Onfray exposes some uncomfortable truths Judaism invented the extermination of a people Jesus never existed historically Christianity was enforced with extreme violence by Constantine Islam is anti Semitic misogynist warlike and incompatible with the values of a modern democracy
