Judaism and Global Survival Richard H. Schwartz, 2002 This book discusses the challenges facing humanity and the Jewish teaching related to these challenges in order to Galvanize Jews to help repair the world as required by Jewish law

The Eucharist and World Hunger Izunna Okonkwo, 2011-12-21 Hunger is a menace in different parts of the globe It has more unnatural than natural causes Though efforts have been made towards alleviating its causes and consequences more actions still need to be taken for its genuine alleviation and eventual eradication in the world For Joseph Grassi painful hunger is a daily occurrence that must be countered by ongoing effective programs that enter into the lives of every Christian Such position not only recognises the frequency and excruciating nature of hunger but also suggests that Christians and other religious groups have a very important role to play in order to eradicate hunger and its devastating effects This book explores the nuances of hunger its causes dimensions and approaches as well as its connection to the Eucharist It argues that hunger can be eradicated and that the Eucharist stands out as a veritable model

World Hunger Liz Young, 2002-01-04 World Hunger explores the nature and extent of contemporary world hunger explaining why hunger still persists while agricultural production increases and genetic engineering revolutionises food production and distribution Numerous case studies drawn from the North and South illustrate the diversity of diets in the world and the connections between the global and local Globalisation and access to food in the global supermarket is examined Explaining the essential political character of hunger the author exposes popular myths and identifies positive changes where prevailing inequalities and ideologies are challenged and it becomes possible to envisage a world where hunger is history

The Politics of Hunger John W. Warnock, 2019-07-19 Originally published in 1987 This important and provocative book explains the persistence of hunger poverty and the lack of balanced development in many countries and the central role of agriculture in economic development Most theories of agricultural development are based on the experiences of western Europe and the United States while the two models for successful late development have been Japan and the Soviet Union This book surveys the evolution of agriculture under colonialism in Latin America Africa and Asia and concludes that this long period distorted the development prospects for these areas and retarded the production of food Under strong state capitalist governments a few underdeveloped countries have broken the colonial patterns of development However other post revolutionary societies are having far less success because of economic blockades and outside military intervention While the primary focus of the book is on the short run problems of inequality the author examines the long run ecological and resource constraints to a sustainable food system and raising the standard of living in the underdeveloped world
