The Challenge Of Pierre Teilhard De Chardin:

The Challenge of Pierre Teilhard de Chardin Catherine Aller, 1964 Religion and the Challenges of Science
William Sweet, Richard Feist, 2017-11-30 Does science pose a challenge to religion and religious belief This question has been a matter of long standing debate and it continues to concern not only scholars in philosophy theology and the sciences but also those involved in public educational policy This volume provides background to the current science and religion debate yet focuses as well on themes where recent discussion of the relation between science and religion has been particularly concentrated The first theme deals with the history of the interrelation of science and religion The second and third themes deal with the implications of recent work in cosmology biology and so called intelligent design for religion and religious belief The fourth theme is concerned with conceptual issues underlying or implied in the current debates such as Are scientific naturalism and religion compatible Are science and religion bodies of knowledge or practices or both Do religion and science offer conflicting truth claims By illuminating contemporary discussion in the science religion debate and by outlining the options available in describing the relation between the two this volume will be of interest to scholars and to members of the educated public alike America's Teilhard Susan Kassman Sack, 2019 America's Teilhard Christ and Hope in the 1960s is a study of the reception of Teilhard in the United States during this period and contributes to an awareness of the thought of this important figure and the impact of his work Additionally it further develops an understanding of U S Catholicism in all its dimensions during these years and provides clues as to how it has unfolded over the past several decades Susan Sack argues that the manner and intensity of the reception of Teilhard's thought happened as it did at this point in history because of the confluence of the then developing social milieu the disintegration of the immigrant Catholic subculture and the opening of the church to the world through Vatican II Additionally as these social and historical events unfolded within U S culture during these years the way Teilhard was read and the contributions which his thought provided changed This book considers his work as a carrier at times for an almost Americanist emphasis upon progress energy and hope in other years his teleological understanding of the value of suffering moves to center Additionally the stories of numerous persons scientists theologians politicians and scholars who became involved in the American Teilhardian effort are detailed Africa and the Challenges of the Twenty-first Century Ebrima Sall, 2015-10-19 The Council for the Development of Social Science Research in Africa CODESRIA held its 13th General Assembly 5-9 December 2011 in Rabat Morocco The theme of the scientific conference was Africa and the Challenges of the Twenty first Century Some of the reasons that influenced the choice of this theme were to do with how Africa should position itself in the new global political and economic order in the context of an increasingly complex neoliberal globalisation Changes in intercultural relations at the global level climate change poverty rapid urbanisation the ICTs revolution the emergence of a multi polar world and the phenomenon of emerging powers of the South are some of the realities of our world that are widely and extensively discussed by both academics and policy makers

This book contains the statutory lectures of the 13th General Assembly Each one speaks to major challenges that African and the Global South are facing in this second decade of the Twenty first Century neoliberal globalisation capital flight the land question gender relations with a particular focus on matriarchy and universalism **The Problem of Evil** ,2022-04-19 This book is an intercultural exploration of the full scope of evil The problems of evil have beset humanity throughout the ages and continue to trouble us The studies here examine evil in Asian thought in Western theory in the cosmic order in human psychology and in social practice Insights are added to the philosophical discussions from religion culture history law technology and literature **Eco-theology** Celia Deane-Drummond,2008 Concern for the environment has developed and intensified over the last few decades to the point where it now dominates much of our contemporary political landscape and culture In Eco Theology Celia Deane Drummond offers a comprehensive resource book for this burgeoning field of enquiry that highlights and seeks to evaluate the merits or otherwise of contemporary eco theologies She introduces the reader to critical debates in eco theology tracing trends from around the globe and key theological responses and encourages reflection and analysis through further reading sections at the end of each chapter and questions for discussion Publisher

The Power of the God Who Can't Russ Dean,2023-10-31 In a world that values power above all else we need to rethink God It s not just better athletes and bigger engines but weapons of mass destruction assault rifles lethal drugs Our obsession with stronger faster more and bigger everything is killing us and at the top of this power pyramid an all powerful God validates it all For those who want a theology justifying the power game in all its forms omnipotence is the perfect pretext but for a growing segment of our modern scientific world the notion of an all controlling deity sounds increasingly superstitious tribalistic People of faith must do better Our world needs a God whose nature is love not all controlling power That God the God who can t is even more powerful The survival of the world even the future of God may depend on us learning to say God always does everything God can do *The Wisdom and Power of the Cross* Richard Viladesau,2020-09-17 The Wisdom and Power of the Cross is the fifth and final entry in Richard Viladesau s well regarded series on the theology of the cross from the historical crucifixion of Jesus to the present day Continuing his analysis of theological history through cultural contexts this volume correlates theoretical approaches with artistic representations showing the relation of theoretical to imaginative approaches The Wisdom and Power of the Cross examines modern and contemporary thought and images which look at the cross in the light of modern historical and scriptural studies science and the novelties of modern and post modern art and music Viladesau here considers how the passion of Christ has been thought about by theologians and portrayed by artists in the modern world Contemporary art and music reveal the lasting power of traditional images of the passion as well as new possibilities for expression The Wisdom and Power of the Cross surveys both traditional approaches to soteriology and revisionist theologies that take up the challenge of the meaning of the cross today in light of critical historical studies and modern science providing new understandings of traditional concepts like original sin

and redemption Through his in depth exploration of the interweaving of aesthetic and conceptual theology Viladesau once more deepens our understanding of the foremost symbol of Christianity and its role in salvation history *Earthing the Cosmic Christ of Ephesians--The Universe, Trinity, and Zhiyi's Threefold Truth, Volume 2* John P. Keenan, 2022-09-09 This is volume 2 of a wide ranging interfaith reading of the Letter to the Ephesians a New Testament text whose words have inspired and enhanced Christian spiritual life and liturgy over the centuries Unfortunately at the same time Ephesians has provided apparent scriptural support to those who would defend slavery patriarchy misogyny and the physical power of Christ over the cosmos How on earth are today's Christians to receive and understand such a text as this Earthing the Cosmic Christ of Ephesians The Universe Trinity and Zhiyi's Threefold Truth draws upon a broad array of scientific theological and philosophical thinkers who enable us both to marvel at today's ever expanding knowledge of our vast cosmos and to appreciate the importance of the Ephesian letter in the canon of our Christian scriptures even while we acknowledge the archaic geocentric cosmology that underlies its claims about the cosmic Christ and reject its accommodation to the patriarchal misogynistic and slaveholding norms of its first century culture Throughout this reading of Ephesians we look to Chinese Buddhist master Zhiyi and his threefold truth to enhance our understanding of trinity and the nascent trinitarian themes within this letter As a whole this work constitutes a new appreciation for Ephesians as well as a twenty first century apologetic for doctrinal humility and for theologizing within a global theological commons *A Path Through Teilhard's Phenomenon* W.
