Mamary, Meredith Trexler Drees, 2025-07-01 Innovative readings and creative reinterpretations of significant works in the field of ancient philosophy In classical Greece the word politeia in its largest sense meant the citizens engagement with the shared project that is the lived life of their polis city civic society Ancient philosophers poets historians and orators constantly reflected on what this shared project should be and how citizens could participate in it The chapters in this collection inspired by the work of Anthony Preus examine some of the products of their reflections both the written works themselves and the variety of comparative contexts into which they can be put from the Greeks neighboring Asian polities to contemporary philosophical engagements with similar issues The essays in Politeia hope to inspire readers to think about their own lives in conversation with the lives of the many communities to which we belong to not only demonstrate the idea of politeia but to bring to life politeia s connection of the individual to the collective something that seems to be of central importance in a world of division and to be the beating heart of the discipline of philosophy **The Big Book of Tarot Symbols** Liz Dean, 2025-10-14 Discover the magic of tarot symbols with bestselling author Liz Dean Ever noticed a symbol on your tarot card like the cat with the Queen of Wands the moon with the High Priestess or even the number X on the Wheel of Fortune You re not alone These symbols speak directly to our intuition making them key to unlocking deeper meanings in your readings Symbols are the language of tarot and each one whether it s a pattern a plant an animal or a color holds its own unique significance In The Big Book of Tarot Symbols bestselling author Liz Dean guides you through over 200 tarot symbols showing you how to interpret them for powerful insights and personal guidance By understanding these symbols you ll not only strengthen your connection to the cards but also enhance your ability to give more intuitive meaningful readings Here s what you ll find inside A beginner friendly introduction to tarot symbols plus easy to follow instructions on how to use the book A comprehensive explanation of the symbols and their meanings for all 78 cards in both the Major and Minor Arcana Practical tools to help you master tarot s symbolic operating system and provide more accurate insightful readings Dive into the world of tarot symbols and elevate your readings with this essential guide [Parmenides' Vision](#) Stuart B. Martin, 2016-03-30 This book intends to establish against his numerous modern critics that the ancient philosopher Parmenides was a mystic Instead

of arriving at his conclusions by cold reason Parmenides found the unity of Being which he called the Truth by turning to a life of meditation His use of reason throughout his poem was not intended to discover the Truth but to undermine those who would disallow the Truth which had been revealed to him the Truth as living and intelligent that is some One not something In making the case that Parmenides was basically a religious seer this book makes clear that the rationalist opponents of this interpretation have inevitably misread and emended the text to suit their views Far from rejecting a mythic presentation of ultimate Reality Parmenides narrative upholds the doctrine that all Truth is one as the mystics proclaim This book also attempts to explain how if Reality is ultimately one multiplicity and flux can be part of the human experience     *The Works of Plato* Plato,1861     Sport in the Ancient World from A to Z Mark Golden,2004-06 Arranged in an easy to use dictionary format this volume includes more than 700 entries discussing ancient athletes festivals important sites equipment and concepts It is the ultimate guide to ancient sport
