musicians work motivation providing a vital level of satisfaction and accomplishment The power of the experience consciously or unconsciously has given rise to the creation of heroic images in which jazz musicians are seen as being bold yet vulnerable strong and masculine but still capable of expressing emotions In this discourse musicians are pictured as people constantly putting themselves on the line exposing themselves and their hearts to one another as well as to the audience Heroic profiles are richly constructed within the jazz scene and their incorporation into narratives of flow suggests that such images are inseparable from jazz It is thus unclear how far the musicians are simply reporting personal experience as opposed to unconsciously perpetuating a profoundly internalised mythology Drawing on eighteen interviews conducted with professional jazz musicians from around the world Elina Hyt nen Ng examines the fundamentals of the phenomenon of flow in jazz that has led to this genre s popularity Furthermore she draws on how flow experiences are viewed and constructed by jazz musicians the meanings they attach to it and the quality of music that it inspires **Public**

of the multi faceted moral nature of schooling Everyone who pursues a career in teaching is fundamentally drawn to the moral dimensions of their work but there is little if any emphasis given to those fundamental moral features in teacher preparation programs and teacher professional development In this book Dr Joseph does the difficult work of both conceptualizing the moral domain and illustrating these dimensions in way that will uniquely help teachers and school leaders develop elegant moral language and fully understand their role as moral educators and moral agents It is an outstanding contribution from a scholar who brings the philosophy of morality and the psychology of moral development to bear on life in classrooms Rich Osguthorpe Brigham Young University In her book Teaching for Moral Imagination Pamela Joseph shows profoundly how moral values are embedded in education and in the pedagogical role of teachers Joseph brings together many different perspectives on moral education including philosophical and psychological foundations and develops her interesting own position with a focus on moral imagination She argues for widening ethical perspectives encouraging critical reflection on values stimulating new perspectives about how to be moral human beings and creating just and caring classroom and school communities Joseph s book can inspire teachers and researchers in their work on preparing young people for future society Wiel Veugelers University of Humanistic Studies This is an incredibly complex and wonderful book When you read Teaching for Moral Imagination what will become clear is what educators need to learn and do to transform the wider ethical environment all around us This is invaluable reading for all teachers school and district leaders and teacher educators who realise the significance of ethics in education and who seek to critically engage with the potential of human and social moral development Joseph offers a rich vision of interdisciplinary scholarship and on her horizon is nonviolence for all forms of life on the planet The book conceptualises how moral imagination generates powerful insights into individual social and cultural normative diversity and explores a range of transformative moral curricula to grow future generations capacities for tackling complex relations and global challenges Daniella J Forster University of Newcastle Australia The ^Aallure of Toxic Leaders Jean Lipman-Blumen,2006-10-16 Toxic leaders both political like Slobodan Milosevic and corporate like Enron s Ken Lay have always been with us and many books have been written to explain what makes them tick Here leadership scholar Jean Lipman Blumen explains what makes the followers tick exploring why people will tolerate and remain loyal to leaders who are destructive to their organizations their employees or their nations Why do we knowingly follow seldom unseat frequently prefer and sometimes even create toxic leaders Lipman Blumen argues that these leaders appeal to our deepest needs playing on our anxieties and fears on our yearnings for security high self esteem and significance and on our desire for noble enterprises and immortality She also explores how followers inadvertently keep themselves in line by a set of insidious control myths that they internalize For example the belief that the leader must necessarily be in a position to know more than the followers often stills their objections In addition outside forces such as economic depressions political upheavals or a crisis in a company can increase our anxiety and our longing for charismatic

leaders Lipman Blumen shows how followers can learn critical lessons for the future and survive in the meantime She discusses how to confront reform undermine blow the whistle on or oust a toxic leader And she suggests how we can diminish our need for strong leaders identify reluctant leaders among competent followers and even nurture the leader within ourselves Toxic leaders charm manipulate mistreat weaken and ultimately devastate their followers The Allure of Toxic Leaders tells us how to recognize these leaders before it s too late **Alchemists of Human Nature** Petteri

The Palgrave Handbook of Transformational Giftedness for Education Robert J Sternberg,Don Ambrose,Sareh Karami,2022-04-23 This handbook examines what education would look like if it prepared gifted students to transform the world to make it a better place for all not just for those who receive extra resources from schools in return for being labeled as gifted The editors explore how transformationally gifted people can seek to make the world a better and more just place they try to make a positive meaningful and possibly enduring contribution to changing things in the world that are not working They do not view giftedness merely as a transaction whereby in exchange for being labeled as gifted they accrue benefits to themselves such as a more prestigious education more income or residence in a more exclusive community The overarching aim of this book is to present conceptions of what identification and instruction of the gifted would look like if the focus of gifted education was transformational rather than transactional What if gifted education did not focus so much on acceleration vs enrichment or pull out versus in class integration but rather on how to be gifted in giving back in using one s gifts to create a better world *Awakening* Vern Neufeld Redekop,Gloria Neufeld Redekop,2019-11-12 Even if all of the elements we know to be significant in the process of reconciliation were present reconciliation would not necessarily take place Reconciliation is a nonlinear nonalgorithmic process that involves matters of the heart From emergent creativity and its links to mysticism to the evolution of emotions as drivers of thought Awakening weaves cutting edge discoveries in complexity theory with philosophical reflections on consciousness and language drawing on Lonergan and Wittgenstein Awakening as a phenomenon takes on a vibrant vitality as an aspect of transpersonal psychology and it manifests as imperatives to take responsibility for our relationships to address complex challenges of justice and to adopt a heart based approach to peacebuilding
