The Fateful Discourse Of Worldly Things:

The Fateful Discourse of Worldly Things David Halliburton, 1997-07-01 This broad interdisciplinary and comparative study of the ways in which we discursively make the world and its things aims to go beyond the poetic thinking of Heidegger toward a more pragmatic way of interpreting concrete social cultural and political experience. The book outlines three constitutive functions of world making Endowing signifies the direct provision of the wherewithal that must come into being if anything else is to come into being Enabling develops or facilitates what is endowed it is a kind of education in being in the world Entitling embraces the realm of justice and decision it concerns what is right for human beings to have and do and be Placing these functions in contemporary contexts the book offers as an alternative some perspectives of American pragmatism Dewey Peirce James Mead Buchler and Continental philosophy Arendt Merleau Ponty Heidegger Husserl Barthes Gramsci The book closely examines the thinking of Hobbes Descartes Vico Calder n and Jefferson and several literary figures and thinkers Yeats Emerson Hopkins Baudelaire Pascal Rilke Frost Brecht Throughout the book investigates and questions the tradition of possessive individualism interpreted by modern scholars notably Pocock The book is in five parts Part I argues a need to move beyond deconstructing toward reconstructing Part II considers the interactions of endowing enabling and entitling In Part III the author explores the ways in which discourse works in the Cartesian discourse of reason and the phenomenon of Manifest Destiny as rendered by Frost The focus of Part IV is incorporating which builds on Merleau Ponty's concept of flesh or the process by which the body acts and becomes fully worldly Part V addresses the phenomena of experience in a variety of modes including the role of story and natality experimental theater the epistolary novel and representations of the heroic Lucretia A postscript exploring the conclusion with which scholarly books typically end offers a perspectivist reading of the final text Emerson s Experience The Fateful Discourse of Worldly Things David Halliburton, 1997 Dialectic and Narrative Thomas R. Flynn, Dalia Judovitz, 1993-07-01 Dialectic and narrative reflect the respective inclinations of philosophy and literature as disciplines that fix one another in a Sartrean gaze admixing envy with suspicion Ever since Plato and Aristotle distinguished scientific knowledge episteme from opinion doxa and valued demonstration through formal final causes over emplotment mythos the palm has been awarded to dialectic as the proper instrument of rational discourse the arbiter of coherence consistency and ultimately of truth The matter becomes more complicated when we recognize the various uses of the term dialectic in the tradition some of which complement and even overlap the narrative domain By confronting these concepts with one another either de facto or ex professo the following essays not only raise anew the ancient questions of the identities of philosophy and literature but do so in the context of recent postmodern challenges to their relative autonomy

Literary Paternity, Literary Friendship Gerhard Richter, 2020-05-01 The twenty one original essays in this volume offer a rigorous reconsideration of modern forms of paternity and friendship as they emerge in works by writers and philosophers from the eighteenth through the twentieth

century Exploring various models of these twin themes contributors examine writings of canonical figures such as Goethe Schiller H Iderlin Kleist and Brentano as well as Kafka Benjamin and Arendt Together the essays combine an emphasis on the German literary philosophical tradition with comparative approaches offering both theoretical discussions and sophisticated readings of crucial texts that have helped shape our contemporary literary engagement with paternity and friendship This collection honors Stanley Corngold an influential scholar and teacher who taught German at Princeton University for more **Dramas of Culture** Wayne Jeffrey Froman, John Burt Foster, 2009-01-01 Dramas of Culture is the first volume in the TEXTURES Philosophy Literature Culture series to study drama as a cultural effect linking theatricality to main currents of continental philosophical thinking cultural critique and literary theory and interpretation from Aristotle to contemporary cultural studies.
