Bock Weiss, 2014-02-25 First published in 1996 The art of the extraordinary French artist Henri Matisse 1869-1954 has provided visual pleasures and intellectual challenges to its viewers for the last hundred years. This is a collection of gathered, summarized and evaluated major literature on the artist primarily from France, the United States, Germany and the Scandinavian countries where major Matisse collections bear witness to early and intense interest in the artist's work. **The Fauve Landscape 1991**, 1990 New York Magazine, 1991-03-25 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea. **The Languages of Landscape**, 1997 German Expressionist Painting Peter Selz, 2023-04-28 Published in 1957 German Expressionist Painting was the first comprehensive study of one of the most pivotal movements in the art of this century. When it was written, however, German Expressionism seemed like an eccentric manifestation far removed from what was then considered the mainstream of modern art. But as historians well know, each generation alters the concept of mainstream to encompass those aspects of the past which seem most relevant to the present. The impact of German Expressionism on the art and thought of later generations could never have been anticipated at the time of the original writing of this book. During the subsequent years, an enormous body of scholarly research and an even larger number of popular books on German expressionist art has been printed. Numerous monographs and detailed studies on most of the artists exist now and countless exhibitions with accompanying catalogues have taken place. Much of this new research could have been incorporated in a

revised edition and the bibliography certainly could have been greatly expanded to include the important writings which have been published in Germany the United States and elsewhere since this book was originally issued The author however was faced with the choice of reprinting the original text with only the most necessary alterations such as updating the captions to indicate present locations of the paintings or the preparation of a revised text and bibliography Desirable as a revision appeared present printing costs would have priced the paperback out of reach for students It is for this reason that I decided to reissue the original text which stands on its own as a primary investigation of German Expressionist Painting *German Expressionist Painting*, 1957 *Masterpieces of European Painting, 1800-1920, in the Metropolitan Museum of Art* Metropolitan Museum of Art (New York, N.Y.), Kathryn Calley Galitz, 2007 **Les Fauves** Russell T. Clement, 1994-05-25 This is the first comprehensive scholarly bibliography research guide sourcebook on the major French Fauve painters Henri Matisse and Georges Braque are treated in separate Greenwood bio bibliographies It includes information on 3 120 books and articles as well as chronologies biographical sketches and exhibition lists Each artist receives a primary and secondary bibliography with many annotated entries Secondary bibliographies include details about each artists life and career relationships with other artists work in various media iconography and more Designed for art historians art students museum and gallery curators and art lovers alike this volume organizes the vast literature surrounding this fascinating revolutionary 20th century art group Genuinely new art is always challenging sometimes even shocking to those unprepared for it In 1905 the paintings of Matisse Derain Vlaminck and their friends shocked conservative museum goers hence the eventual popularity of art critic Louis Vauxcelles s tag les fauves or wild beasts by which these artists became known Although it lasted only three or four years Fauvism is recognized as the first artistic revolution of international consequence in the 20th century It was based on the glorification of pure saturated colors and the free expression of primitivism It was a dynamic sensualism an equilibrium of passion and order fire and austerity that could not last By the end of 1908 Fauvism collapsed in the face of Cubism which moreover several Fauve artists helped to form *Framing France* Richard Thomson, 1998 Landscape painting in France between 1870 and 1914 was a battleground fought over by avant garde and conservative artists as well as the Left and Right in French politics This collection of essays by distinguished contributors throws light on how representing the land became an evolutionary vehicle not only for art but society as well 70 illustrations **The Once Upon a Time World** Jonathan Miles, 2023-09-05 Chronicling two hundred years of glamour intrigue and hedonism this rich and vivid history of the French Riviera features a vast cast of characters from Pablo Picasso and Coco Chanel to Andre Matisse and James Baldwin 1835 Lord Brougham founded Cannes introducing bathing and the manicured lawn to the wilds of the Mediterranean coast Today much of that shore has become a concrete mass from which escape is an exclusive dream In the 185 years between the stretch of seaboard from the red mountains of the Esterel to the Italian border hosted a cultural phenomenon well in excess of its tiny size A mere handful of towns and resorts created by foreign visitors notably English

Russian and American attracted the talented rich and famous as well as those who wanted to be For nearly two centuries of creativity luxury excess scandal war and corruption the dark and sparkling world of the Riviera was a temptation for everybody who was anybody Often frivolous it was also a potent cultural matrix that inspired the likes of Picasso Matisse Coco Chanel Scott Fitzgerald Cole Porter James Baldwin Catherine Mansfield Sartre and Stravinsky In *Once Upon a Time World* Jonathan Miles presents the remarkable story of the small strip of French coast that lured the world to its shores It is a wild and unforgettable tale that follows the Riviera's transformation from paradise and wilderness to a pollution imperiled concrete jungle

Modern Painting: A Concise History (World of Art) Simon Morley, 2023-10-17 This new concise history of modern painting offers an indispensable reference to the complexities and characteristics of this medium which now exists alongside many other contemporary practices that embrace radically expanded ideas about art While acknowledging the legacy of Herbert Read's classic 1959 study *A Concise History of Modern Painting* in the *World of Art* series academic and artist Simon Morley places the foundation of modern art much earlier than Read at the emergence of Romanticism and the dawn of the industrial age Structured loosely chronologically by period the focus is as much on individual artists as movements with

works discussed within a broader context stylistic historical geographic and gender and ethnic frames themes which recur throughout the chapters Generously illustrated the global and diverse range of artists featured include William Blake douard Manet Hilma af Klint Kazimir Malevich Willem de Kooning Amrita Sher Gil Faith Ringgold and Kehinde Wiley This guide also includes an appendix in the form of questions the reader might like to ask about the artists and ideas discussed in order to reconsider the works from a contemporary perspective

Details of Consequence Gurminder Kaur Bhogal,2013-09-11 Details of Consequence examines a trait that is taken for granted and rarely investigated in fin de si cle French music ornamental extravagance Considering why such composers as Claude Debussy Maurice Ravel Gabriel Faur Igor Stravinsky and Erik Satie turned their attention to the seemingly innocuous and allegedly superficial phenomenon of ornament at pivotal moments of their careers this book shows that the range of decorative languages and unusual ways in which ornament is manifest in their works doesn t only suggest a willingness to decorate or render music beautiful Rather in keeping with the sorts of changes that decorative expression was undergoing in the work of Eug ne Grasset Pierre Bonnard Henri Matisse and other painters composers also invested their creative energies in re imagining ornament relying on a variety of decorative techniques to emphasize what was new and unprecedented in their treatment of form meter rhythm melody and texture Furthermore abundant displays of ornament in their music served to privilege associations that had been previously condemned in Western philosophy such as femininity sensuality exoticism mystery and fantasy Alongside specific visual examples author Gurminder Kaur Bhogal offers analyses of piano pieces orchestral music chamber works and compositions written for the Ballets Russes to highlight the disorienting effect of musical experiments with ornament Acknowledging the willingness of listeners to borrow vocabulary from the visual arts when describing decorative music Bhogal probes the formation of art music metaphors and studies the cognitive impetus behind tendencies to posit stylistic parallels She further illustrates that the rising expressive status of ornament in music and art had broad social and cultural implications as evidenced by its widespread involvement in debates on French identity style aesthetics and progress Drawing on a range of recent scholarship in the humanities at large including studies in feminist theory nationalism and orientalism Details of Consequence is an intensely interdisciplinary look at an important facet of fin de si cle French music

Modern: Genius, Madness, and One Tumultuous Decade That Changed Art Forever Philip Hook,2022-04-19 A revelatory fast paced account of the most exciting frenzied and revolutionary decade in art history 1905 to the dawn of World War I in 1914 and the avant garde artists who indelibly changed our visual landscape Modern begins on a specific day March 22 1905 at a specific place the Salon des Ind pendants in Paris where works of art we recognize as modern were first exhibited Drawing on his forty five year fine art career author Philip Hook illuminates how this new art came to be and how truly shocking it was With Hook s expert guidance we witness movement upon movement that burst forth in dizzying succession Fauvism Expressionism Primitivism Symbolism Cubism Futurism and Abstract art As Hook barnstorms across Europe to London

Germany Moscow Scandinavia and everywhere modern art was being made his vivid accounts breathe new life into the work and times of Picasso Matisse Modigliani Kandinsky Malevich Klimt Schiele Munch and nearly two hundred other artists who painted sculpted and exhibited alongside them and whose collective genius was understood and appreciated by few at the time Hook reconsiders the decade from a series of fresh angles What was the conventional art against which Modernism sought to rebel Why were avant garde artists so self obsessed What persuaded a few bold collectors to buy difficult modern art And why did others pay so much money for Old Masters at the same time Modern helps us answer these questions and more and to see how avant garde artists marshaled their genius and oftentimes their madness to create works of such profound consequence they still reverberate today and which taken together made for a movement more influential than even the Renaissance
