The Feathers of Death Simon Raven, 1972 The Feathers of Death (Valancourt 20th Century Classics) Simon Raven, 2018-05-29 When Lieutenant Alastair Lynch shoots young Drummer Malcolm Harley in the back for desertion in the face of an enemy attack his action seems to be clearly justified by military precedent But after a court martial is convened to examine the facts of the case a different story emerges A tale of passionate love possessiveness and jealousy between the two men a brazen and scandalous relationship that ended in Harley s violent death The tension builds as the truth about the two men s liaison and Lynch s decision to pull the trigger gradually emerges leading to a shocking finale Simon Raven s classic first novel *The Feathers of Death* 1959 is a gripping thriller told in the clever witty and compulsively readable style for which Raven is known This edition features a new introduction by Gregory Woods One of the finest novelists of the post war years the most entertaining of writers a novelist of supreme merit Charles Spencer *The Telegraph* Extraordinary entertaining gripping and in fact memorable *Sunday Times* An exceptional gift for storytelling told with a narrative verve so rare those with the stomach for a tough and ugly tale will find it enthralling *The Times* London **The Feathers of Death** ,19??

The Coming Death Richard F. Calichman,2022-02-01 The Coming Death explores the question of death and mortality in several key texts of East Asian literature and cinema By exposing the specific fields of Japanology and Sinology to the more general discourse of thanatology Richard Calichman aims to define death more expansively on the basis of loss and disappearance Typically death is understood to be purely separate from life where death is life is not and where life is death is not Yet this view fails to account not only for the frequency with which living individuals encounter the death of others but also and far more radically for the disturbing fact that life in its unfolding remains at each moment open to the possibility of its own destruction In this regard Calichman argues death must be conceived not simply as an actual event but even more fundamentally as a general possibility without which life itself could not develop At issue is how death reveals the emptiness of all identity which demands that life and death no longer be conceived as purely oppositional If mortal death can appear at the very origin of life

then the fullness or presence of life is at each instant threatened by the possibility of its negation Through a reading of the works of such major artistic and intellectual figures as Kurosawa Akira Tsai Ming liang Lu Xun and Takeuchi Yoshimi The Coming Death argues for a fundamental rethinking of mortality
