**The Feminine in Jungian Psychology and in Christian Theology** Ann Belford Ulanov, 1971 The Feminine in Jungian Psychology and in Christian Theology investigates the implications for Christian theology of Jung's special insights into the feminine. In it Ann Belford Ulanov gathers together in one volume what Jung and Jungians have discovered about the feminine in order to explore what Jungian thought and methods may illuminate about the place of the feminine in Christian theology. Jung focuses on the human person and sees as central its mixture of masculine and feminine elements. In a time when so much is asserted and written about women in society their rights, roles, identities, needs, and contributions, it is especially significant that Jung asserts the existence of the feminine as a key element not only in women but in men as well. No less contested are the roles and identities of Christians. Ulanov brings into focus the deep and fascinating connections between theology and psychology.

**Receiving Woman - Studies in the Psychology and Theology of the Feminine** Ann Belford Ulanov, We live in a time of unparalleled opportunity for women and a time just because of that opportunity of great stress. It is a time when every woman can find her own particular style to develop her skills to acknowledge her needs and failures and to claim both her satisfactions and dissatisfactions. The old stereotypes are all but dead. But another danger threatens of new stereotyped roles for women in the very range of choices and opportunities presented to the RECEIVING WOMAN. It grew out of a decade of reflections on women's experiences, my own, my patients, and my students, writes Professor Ulanov. From all of them a common voice emerged speaking about each woman's struggle to receive all of herself. Each was trying to find and put together different parts of herself into a whole that was personal, alive, and real to her and to others. I know that women want to be all of themselves and want to be their own selves, not examples of types. They want to work out their own individual combinations of what have been called the masculine and feminine parts of themselves. This book focuses on that possibility on women receiving themselves, all of themselves, wisely and gladly.

**Jung and Feminism** Demaris S. Wehr, 2015-12-14 Jung, in contrast to Freud, has typically been considered more sympathetic to women, largely because of his emphasis on the feminine as a way of being in the world and on the anima, the unconscious feminine aspect of male personality. Feminists, however, have viewed Jung's whole notion of the feminine with suspicion, seeing it as a projection of male psyche and not an authentic understanding of female humanity. For Demaris Wehr, both feminism and Jungian psychology have been guiding forces, and in this book, originally published in 1988, she mediates between feminists and classical Jungians, two groups historically at odds. She faces squarely the male-centered assumptions of some Jungian concepts and challenges Jung's claims for the universality and purely empirical basis of his work, but nevertheless maintains an appreciation for the value of Jung's understanding of human nature and the process of individuation. By bringing the insights of feminist theology to bear on the seemingly unbridgeable gap between analytical psychology and feminism, she succeeds in reclaiming Jungian psychology as a freeing therapy for women and reveals it as the ultimately liberating vision of its founder.

**La Comunidad Latina in the United States** David T. Abalos,1998-05-26 La

comunidad Latina the fastest growing ethnic group in the United States has long been told that assimilation is the only way to succeed in American society This book challenges that generally accepted view and concludes instead that transformation as a way of life is the only viable option for the Latino community as a whole regardless of racial class regional or religious differences It highlights how in the everyday life of la comunidad Latina the members of the community can recognize the underlying ways of life the stories and the patterns of relationships that cripple them and how to break with these ways of life stories and relationships to create fundamentally more loving and compassionate alternatives Along with all men and women Latinos and Latinas face four choices retaining a blind loyalty to a romanticized past assimilating violating each other or transforming their ethnic and racial group for the better This examination of the underlying sacred meaning of the stories of the Latino culture attempts to determine whether these stories are destructive or creative Now coming of age la comunidad Latina previously wounded by assimilation continues to tell its story in art literature history and religion so that the world may perhaps for the first time see its personal political historical and sacred faces The most important story now being lived is that of Latina women and Latino men who are making choices that will determine the ultimate meaning of a new Latino culture in this nation

*Cinderella and Her Sisters*, 1983-01-01 Through a discussion of the Cinderella fairy tale the nature of envy is explored from the viewpoints of psychology and theology

*The Unfolding God of Jung and Milton* James P. Driscoll, 2014-07-15 In this first extensive Jungian treatment of Milton's major poems James P. Driscoll uses archetypal psychology to explore Milton's great themes of God man woman and evil and offers readers deepened understanding of Jung's profound thoughts on Godhead The Father the Son Satan Messiah Samson Adam and Eve gain new dimensions of meaning as their stories become epiphanies of the archetypes of Godhead God and Satan of Paradise Lost are seen as the ego and the shadow of a single unfolding personality whose anima is the Holy Spirit and Milton's muse Samson carries the Yahweh archetype examined by Jung in Answer to Job and Messiah and Satan in Paradise Regained embody the hostile brothers archetype Anima animus and the individuation drive underlie the psychodynamics of Adam and Eve's fall Driscoll draws on his critical acumen and scholarly knowledge of Renaissance literature to shed new light on Jung's psychology of religion The Unfolding God of Jung and Milton illumines Jung's heterodox notion of Godhead as a quaternity rather than a trinity his revolutionary concept of a divine individuation process his radical solution to the problem of evil and his wrestling with the feminine in Godhead The book's glossary of Jungian terms written for literary critics and theologians rather than clinicians is exceptionally detailed and insightful Beyond enriching our understanding of Jung and Milton Driscoll's discussion contributes to theodicy to process theology and to the study of myths and archetypes in literature
