that we shall enjoy ourselves here after
by having what we called happiness on
Earth repeated in a few days and so
repeated.

The Finer Tone: Keats' Major Poems Earl Reeves Wasserman, John Keats, 1953 **The Finer Tone** Earl R. Wasserman, 1967 The Finer Tone, 1970 The Finer Tone: Keat's Major Poems Earl R. Wasserman, 1960 **The Finer Tone, Keats' major Poems...**, **Earl R. Wasserman** Earl Reeves Wasserman, 1953 **The Living Dead** James B. Twitchell, 1981 In his Preface to *The Living Dead A Study of the Vampire in Romantic Literature* James Twitchell writes that he is not interested in the current generation of vampires which he finds rude boring and hopelessly adolescent However they have not always been this way In fact a century ago they were often quite sophisticated used by artists varied as Blake Poe Coleridge the Brontes Shelley and Keats to explain aspects of interpersonal relations However vulgar the vampire has since become it is important to remember that along with the Frankenstein monster the vampire is one of the major mythic figures bequeathed to us by the English Romantics Simply in terms of cultural influence and currency the vampire is far more important than any other nineteenth century archetypes in fact he is probably the most enduring and prolific mythic figure we have This book traces the vampire out of folklore into serious art until he stabilizes early in this century into the character we all too easily recognize **John Keats, Updated Edition** Harold Bloom, 2009 Presents a collection of critical essays on the works of John Keats *Keats: The Narrative Poems* John Spencer Hill, 1983-12-15 This is a Bloomsbury Academic title For our full Academic Catalogue please visit <https://www.bloomsbury.com/uk/academic> Charles J. Rzepka, 1999 The Romantic poetas exemplified by Wordsworth Coleridge and Keats is attracted to and made anxious by two opposite ideas of the self On the one hand he identifies with the inner self as a mind wholly at one with its perceptions and with the world as an image within it On the other hand since this inner self is wholly private the poet turns to others for confirmation of its reality either literally in direct confrontations or figuratively in the voice and workmanship of his text Because his dependence on others for a sense of his own reality jeopardizes the poet's feelings of self possession however he tries to minimize this threat by manipulating of preempting others responses to him Previous discussions of the Romantic self have focused on the self as a mental power immanent in the vision of the world it shapes Charles Rzepka now draws our attention to the poet's attitude toward the self as socially formed and confirmed and the effects of this attitude on Romantic poetry and perception **A Routledge Literary Sourcebook on the Poems of John Keats** John R. Strachan, 2003 John Keats was one of the central figures of English Romanticism and is still one of England's most popular poets This sourcebook brings together texts and documents that provide a gateway towards an understanding of the man his life and his work Keats's Anatomy of Melancholy White Robert White, 2020-09-09 A detailed study of John Keats's classic volume of poetry published in 1820 considered in the light of the history of melancholy First book length critical study of John Keats's collection of poems *Lamia Isabella The Eve of St Agnes And Other Poems* 1820 Considers the anthology as a poetically and thematically unified collection instead of the more usual method of analyzing the poems in chronological order of writing Proposes that the main

theme running through the volume is melancholy a very capacious medical category extending back to ancient Greco Roman writers through the Renaissance and the subject of literary cults in the Romantic age The first detailed study of Keats s markings and annotations on his copy of Robert Burton s *The Anatomy of Melancholy* 1621 which was his favourite book during 1819 when he was writing the poems This book examines John Keats s immensely important collection of poems *Lamia Isabella The Eve of St Agnes And Other Poems* 1820 and is published in the volume s bicentenary It analyses the collection as an authorially organised and multi dimensionally unified volume rather than as a collection of occasional poems R S White argues that a guiding theme behind the 1820 volume is the persistent emphasis on different types of melancholy an ancient all consuming medical condition and literary preoccupation in Renaissance and Romantic poetry Melancholy was a lifelong interest of Keats s touching on his medical training his temperament and his delighted reading in 1819 of Burton s *The Anatomy of Melancholy*

Constituent and Pattern in Poetry Archibald A. Hill, 2014-07-03 *Constituent and Pattern in Poetry* is a collection of essays on literature and language It is built on the assumption that works of literature have existence in the real world and that they may be analyzed in a fashion that is not totally subjective Using models derived from structural linguistics Archibald A Hill presents a number of theoretical contributions to the study of poetry as well as new ways of looking at specific poems The book as a whole provides an overview of the tools and ideas Hill has developed for analyzing works of literature and it is the first time the essays have been gathered together in one volume The book is divided into three sections Definition of Literature and Study of Its Patterns Types of Meaning and Imagery and Principles for Interpreting Meaning Each section

opens with a theoretical essay followed by three essays that work analytically with specific poets and poems using the methods defined in the first In his examination of such poets as Hopkins Browning Milton Blake Keats and Dickinson Hill uses such proposals as the law of least lexical contribution and maximal contextual contribution the hypothesis that when possible meanings occur together in a cluster they support each other and the idea that it is sometimes possible to recover underlying language sequences from which the author has departed for identifiable reasons By applying these suppositions to the study of particular poems Hill shows how the reader may arrive at statements about the relative artistic merit of works of literature

Romanticism, Hermeneutics and the Crisis of the Human Sciences Scott Masson, 2017-11-28 The human sciences established and developed in the nineteenth century have slowly disintegrated It is an ironic end It was in the name of the greater legitimacy of more universal psychological criteria that its architects disavowed the traditional theological standard for valuing and evaluating human words and deeds With hindsight we can see that universality was indeed gained but only at the cost of alienating any sense of common legitimacy Harold Bloom defending the canon largely in the humanising moral sense convention of critics operating since Matthew Arnold has resolutely maintained the common legitimacy of aesthetic value against the claims of particular interest groups But the very universality attached to aesthetic value is at odds with the world of common sense and thus lies at the root of the problem To complicate matters this universality has been understood as a traditional criterion A more radical treatment of the subject is needed This study begins by surveying the field of modern hermeneutics Noting its repeated crises of self legitimisation it traces these to circular beliefs bequeathed by Romanticism that human nature is self begetting and can thus be known intimately and autonomously After providing a historical overview of how human nature had been understood the focus shifts to the attack

in Coleridge's *Biographia Literaria* on Wordsworth's 1802 Preface to *Lyrical Ballads* and to a reading of some key Romantic texts It reads Coleridge's famous definition of the imagination as an attack on Romantic hermeneutics rooted in the traditional view that man has been created in *Imago Dei* **The poetry of Dante G. Rossetti** Florence S. Boos, 2016-07-25
