Lee, 1995-11-01 In the summer of 1980 Dave Foreman along with four conservationist colleagues founded the millenarian movement Earth First A provocative counterculture that ultimately hoped for the fall of industrial civilization the movement emerged in response to

rapid commercial development of the American wilderness The earth should come first was a doctrine that championed both biocentrism an emphasis on maintaining the earth's full complement of species and biocentric equality the belief that all species are equal Martha Lee was successful in gaining extraordinary access to information about the movement as well as interviews with its members While following Earth First's development and methods she illustrates the inherent instability and the dangers associated with all millenarian movements This book will be of interest to environmentalists and those interested in political science and sociology [Return to First-Earth](#) L.E. Johnson,2019-07-30 This is a somewhat twisted Cinderella story about a beautiful princess and her two terrible twin stepbrothers who bullied her to death and the good that came of it many years later It travels through time a fantasy adventure like no other filled with wonderful stories of the great state of MICHIGAN and its fantastic legends tales of Michigan's Indians and local stories of Michigan places historic railroad depots Cat Lake and places in Michigan's Thumb of the Mitten and the Heart of the Thumb a little town called Marlette It is a tale of Good versus Evil in a time before ours and before the prehistoric Ice Age descended on our Earth and basically killed off everything but left the glorious rivers and lakes and streams and ponds that made Michigan the Water Wonderland It has Navy SEALs a Sheriff's Posse diver sunken treasure prehistoric animals Michigan and Detroit's historic automobiles It also has a little bit of Disney's magic with wizards and dwarves and Cattle and some dragons It is a very fun and happy book to enjoy and read again and again *Understanding God's First Earth* Howard W. Hall,2011-08 Readers of Understanding God's First Earth believers and non believers alike will feel Howard W Hall's unconstrained child like faith God commands of His children as this impassioned and devoted veteran Sunday School teacher of more than thirty years explains his studied understanding of the Creation as recorded in the Holy Bible's first eight chapters in easily understood layman's words Whether you agree or disagree with any or every aspect of Mr Hall's heartfelt conclusions Understanding God's First Earth encourages each of us to reevaluate the so called scientific evidence presented as fact by the vast majority of contemporary science and academia today In humankind's anxious pursuit of divine wisdom through science and technology Mr Hall contends much of the basis for our higher understanding is built upon supposition Ultimately Mr Hall most readily concedes only God can answer the many questions of how why and when we were created posed by humanity's innate curiosity But Understanding God's First Earth is one man's reflective insightful verse by verse interpretation of the first eight chapters of Genesis that will most surely aid your understanding of Creation as written in the Holy Bible [The First Christians on Earth](#) Darrell Poeppelmeyer,2023-04-05 This book examines twenty six stories in the book of Acts concerning the salvation experience of the first Christians on earth Before doing so it walks through Luke demonstrating Jesus provided Jewish salvation before He provided Christian salvation By the end of the book you will have a list of the essential elements of salvation as experienced by the first Christian on earth **The Americana** Frederick Converse Beach,George Edwin Rines,1912 **A First Book in Geology.
