**The Painted Triptychs of Fifteenth-Century Germany** Lynn F. Jacobs,2025-10-01 This book presents four case studies that interrogate how German fifteenth century painted triptychs engage with and ultimately blur various boundaries Some of the boundaries are internal to the triptych format for example transgressed frames between narrative scenes on triptych interiors or interconnections between imagery on triptych interiors and exteriors Other blurred boundaries are regional ones between the Netherlands and Cologne metaphysical ones between heaven and earth and artistic distinctions between the media of painting and sculpture The book's case studies which shed new light on Conrad von Soest Stefan Lochner and the Master of the St Bartholomew Altarpiece illuminate the importance of German fifteenth century painting while providing a fresh assessment of relations between German triptychs and their more famous Netherlandish counterparts The case studies also demonstrate the value of probing Medialit t that is

Boxall,Richard Tresley,2015-11-25 The Book of Revelation has fired the imaginations of theologians preachers artists and ordinary Christians across the centuries The resulting number of commentaries on the book is enormous and most studies

can only touch upon at most a representative sample of this vast literature. As a consequence many focus largely on the interpretation of the Apocalypse only within specific periods such as the patristic period or during the Reformation. One result of this severe limitation given the vast literary corpus is how historical interpretations in critical commentaries of the Book of Revelations tend to prioritize authors from the modern period. In *The Book of Revelation and Its Interpreters* Short Studies and an Annotated Bibliography editors Richard Tresley and Ian Boxall fill a significant gap in the scholarly literature. At its heart is an extensive annotated bibliography covering commentaries on the book up to 1700 including most of the early illuminated Apocalypses. Supporting the presentation of this survey of the historical interpretations of the Book of Revelation is an extended overview of Revelation's often colorful reception history by Christopher Rowland together with a number of short studies on various aspects of the book. These include discussions of specific commentators such as Sean Michael Ryan's look at Tyconius and Francis X Gumerlock's exploration of Chromatius of Aquileia alongside a more general treatment of Revelation's impact on the figure of John of Patmos in an essay by Ian Boxall and the visual reception of Revelation in Natasha O'Hear's article. *The Book of Revelation and Its Interpreters* provides a valuable bibliographical resource for those working in the field of Biblical Studies, history of Christianity, eschatology and apocalyptic studies. The accompanying essays orient the authors recorded in the bibliography within a larger context offering specific examples of the Apocalypse's capacity to speak in fresh and often surprising ways to diverse audiences throughout history.

[Approaches to the Visual in Religion](#) Daria Pezzoli-Olgia, Christopher Rowland, 2011-06-16. The authors of this volume investigate the analysis of visual sources and their indispensable role for understanding and interpreting religions, their symbol systems and the wider traditions of which they are a part. A particular interest in this study is the focus on the methodological challenge of images from a comparative perspective. The common concern that ranges over all the contributions is the search for a methodological perspective where images may be analysed in a comprehensive way with particular regard for the social and wider intellectual settings as well as the religious in which the images are embedded. Accordingly we seek to show that visual sources need to be interpreted from different angles. In the last decades a broad range of publications has contributed to highlight the significance of images and visual media in general for understanding religious traditions, communities and discourses in both historical and contemporary perspective. In more recent research streams focussing on visual media in religious traditions and symbol systems various avenues have opened up and been explored focussing on the status of images and of the gaze of the viewer as central aspects. Furthermore there are illuminating contributions dealing with the theoretical premises and settings with which to approach the visual as a central component of religion on the one hand giving an overview of essential definitions and implications on the other hand concentrating on specific techniques and or media.

**A Journey Round John** Wendy E. S. North, 2015-06-18 In *A Journey Round John* Wendy E S North considers a range of themes relevant to the interpretation of the Fourth Gospel First the relationship between the Gospel and 1 John North explores the value of the Epistle as a means of identifying traditional material the evangelist knew on which basis she appeals to 1 John to account for the form of Jesus prayer in chapter 11 Second John s Christology in which North looks to John s cultural roots in monotheistic Judaism to understand his capacity to align Jesus with God Third the crucial issue of the Jews in John where North clarifies the data by observing a narrative logic in John s use of the expression Fourth North identifies John s anticipated eschatology as a consolation strategy aimed at a readership struggling under life threatening circumstances in the absence of Jesus Finally North looks at John and the Synoptics and demonstrates how evidence drawn from the Gospel itself can serve to indicate whether or not John composed directly on the basis of the Synoptic record This collection draws together a number of ground breaking studies from over thirty years of work on the Fourth Gospel presenting a coherent development of thought on this crucial Christian text

**Thresholds and Boundaries** Lynn F. Jacobs, 2017-09-25 Although liminality has been studied by scholars of medieval and seventeenth century art the role of the threshold motif in Netherlandish art of the late fourteenth fifteenth and early sixteenth centuries this late medieval early early modern period has been much less fully investigated *Thresholds and Boundaries Liminality in Netherlandish Art 1385 1550* addresses this issue through a focus on key case studies Sluter s portal of the Chartreuse de Champmol and the calendar pages of the Limbourg Brothers Tr s Riches Heures and on important formats altarpieces and illuminated manuscripts Lynn F Jacobs examines how the visual thresholds established within Netherlandish paintings sculptures and manuscript illuminations

become sites where artists could address relations between life and death aristocrat and peasant holy and profane and man and God and where artists could exploit the betwixt and between nature of the threshold to communicate paradoxically both connections and divisions between these different states and different worlds Building on literary and anthropological interpretations of liminality this book demonstrates how the exploration of boundaries in Netherlandish art infused the works with greater meaning The book s probing of the often ignored meanings of the threshold motif casts new light on key works of Netherlandish art **ARLIS/NA Update** ,2000 *Rick Steves Europe Through the Back Door* Rick Steves,2022-03-08 You can count on Rick Steves to tell you what you really need to know when traveling through Europe With Rick Steves Europe Through the Back Door you ll learn how to Plan your itinerary and maximize your time Pack light and right Find good value hotels and restaurants Travel smoothly by train bus car and plane Avoid crowds and tourist scams Hurdle the language barrier Understand cultural differences and connect with locals Save money while enjoying the trip of a lifetime Travel safely and hygienically in the wake of Covid 19 After 40 years of exploring Europe Rick considers this travel skills handbook his life s work and with his expert introductions to the top destinations in Europe choosing your next trip will be easy and stress free Using the travel skills in this book you ll experience the culture like a local spend less money and have more fun
