The Historian and the Climate of Opinion Robert Allen Skotheim, 2018-10-24 This volume of writings by outstanding twentieth century American historians presents one aspect of the problem which results from the conflict between the subjectivity of the historian and the objectivity of the past It examines in particular the relationship between the historian and the climate of opinion in which he does he work

*The historian and the climate of opinion, edited by Robert Allen Skotheim* Robert Allen Skotheim, Routledge Library Editions: Historiography Various, 2021-06-23 The greatest problem in historical scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture Both historiography and historical thinking advanced as never before The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect

Trust in an Age of Arrogance C FitzSimons Allison, 2011-05-26 God is in the dock Shall we convict him or forgive him Shall we replace the God of Scripture with another of our choosing mock and deride him or ignore him Shall we replace revelation with the chaos of speculation We perceive ourselves rather than God as the center of the world and this universal condition leads to conflict with others and with God Maintaining our center causes cheating lying litigation divorce wars genocide and human misery Western civilization is

giving up trust in the promise of God's mercy, justice and forgiveness and replacing it with trust in the goodness of man. Jesus warned us to beware the teaching of the Sadducees and Pharisees. The Sadducees, who denied hope of eternal life, are a rough equivalent of our modern-day secularists with their religious trust that this world is all there is. Replacing God with trust in flawed human nature is a mark of arrogance that even pagans would have characterized as hubris, evoking divine wrath. The Pharisee's yeast of self-righteousness is a natural condition of us all. Even when cleansed, it reappears in every tradition, rendering forgiveness and transformation a promise only for those who think they have earned and deserve it. Such a distortion of God's word is congenial to our self-as-center but it robs us, sinners, of the justice and mercy of a loving God. Following Jesus's warning, we have the opportunity to wipe away the Sadducee arrogance and the Pharisee self-righteousness and discover anew the supreme power and joy of the Christian faith.

*The Study of History*, 1988. The chief objective of this text is to provide a handy reference guide for teachers, students and researchers of modern European economic and social history. Since the bibliography covers only works written in the English language, it will probably be of less use to the last named group at least insofar as those within it are already seasoned researchers on a particular country or topic. However, it would have been quite impossible from the point of view of length to have included all the literature in foreign languages while to have done so would have defeated the essential aim of the volume, namely that of providing a reasonably convenient guide for those who teach and study the subject but who are not primarily specialists in the field.

**The Writing of American History** Michael Kraus, Davis D. Joyce, 1990-01-01. Events which become historical, says Michael Kraus, do not live on because of their mere occurrence. They survive when writers re-create them and thus preserve for posterity their otherwise fleeting existence. Paul Revere's ride, for example, might well have vanished from the records had not Longfellow snatched it from approaching oblivion and given it a dramatic spot in American history. Now Revere rides on in spirited passages in our history books. In this way, the recorder of events becomes almost as important as the events themselves. In other words, historiography, the study of historians and their particular contributions to the body of historical records, must not be ignored by those who seriously wish to understand the past. When the first edition of Michael Kraus's *Writing of American History* was published, a reviewer for the *New York Herald Tribune* wrote: "No serious study of our national origins and development can afford not to have such an aid as this at his elbow." The book quickly came to be regarded as one of the few truly standard general surveys of American historiography, invaluable as a reference book, as a textbook and as a highly readable source of information for the interested general reader. This new edition, with coauthor Davis D. Joyce, confirms its position as the definitive work in the field. Concise yet comprehensive, here is an analysis of the writers and writings of American history from the Norse voyages to modern times. The book has its roots in Kraus's pioneering *History of American History*, published in 1937, a unique and successful attempt to cover in one volume the entire sweep of American historical activity. Kraus revised and updated the book in 1953 when it was published under the present title. Now, once again, the

demand for its revision has been met Davis D Joyce with the full cooperation and approval of Kraus has thoroughly revised and brought up to date the text of the 1953 edition The clarity and evenhandedness of Kraus s text has been carefully preserved The last three chapters add entirely new material surveying the massive and complex body of American historical writing since World War II Consensus American Historical Writing in the 1950s Conflict American Historical Writing in the 1960s and Complexity American Historical Writing in the 1970s and Beyond Michael Kraus Professor Emeritus at City College of New York received the Ph D from Columbia University and in his long career established himself as one of America s foremost historiographers Davis D Joyce is Professor Emeritus of History East Central University Ada Oklahoma and is the author of HOWARD ZINN A RADICAL AMERICAN VISION and ALTERNATIVE OKLAHOMA CONTRARIAN VIEWS OF THE SOONER STATE He teaches part time at Rogers State University Claremore Oklahoma

**The Legacy of Leo Strauss** Tony Burns, James Connelly, 2016-12-22 Leo Strauss was a political philosopher who died in 1973 but came to prominent attention in the United States and also Britain around the beginning of the War in Iraq Charges began emerging that architects of the war such as Paul Wolfowitz and large numbers of staff in the US State and Defense Departments had studied with or been influenced by the academic work of Strauss and his followers A vague but powerful idea was generated in the popular press that a group known as the Straussians had been instrumental in the long range strategic planning of American foreign policy both to advance American interests and to encourage democratic revolutions outside the West This volume of essays opens up the topic of Leo Strauss and the Straussians to those outside the relatively narrow circles who have been concerned with him and his followers up to now
