The Hopi People Stewart B. Koyiyumptewa, Carolyn O'Bagy Davis, 2009 The diverse people of the Hopi whose name means the peaceful ones are today united on the Hopi Reservation which is composed of 12 villages on more than 2 500 square miles in northeastern Arizona In fact the village of Orayvi is considered the oldest continuously inhabited settlement in the United States dating back more than a millennium Often referred to as a corn culture the Hopis have developed dry farming techniques that have sustained them in the harsh arid landscape where annual precipitation is often only 12 inches or less The Hopi people are hardworking and spiritual and their lifestyle has survived for centuries only minimally changed by influences from the outside world

The Southwest in the American Imagination Sylvester Baxter, 1996 In the fall of 1886 Boston philanthropist Mary Tileston Hemenway sponsored an archaeological expedition to the American Southwest Directed by anthropologist Frank Hamilton Cushing the Hemenway Expedition sought to trace the ancestors of the Zu is with an eye toward establishing a museum for the study of American Indians In the third year of fieldwork Hemenway s overseeing board fired Cushing based on doubts concerning his physical health and mental stability and much of the expedition s work went unpublished Today however it is recognized as a critical base for research into all of southwestern prehistory Drawing on materials housed in half a dozen institutions and now brought together for the first time this projected seven volume work presents a cultural history of the Hemenway Expedition and early anthropology in the American Southwest told in the voices of its participants and interpreted by contemporary scholars Taken as a whole the series comprises a thorough study and presentation of the cultural historical literary and archaeological significance of the expedition with each volume posing distinct themes and problems through a set of original writings such as letters reports and diaries Accompanying essays guide readers to a coherent understanding of the history of the expedition and discuss the cultural and scientific significance of these data in modern debates This first volume *The Southwest in the American Imagination* presents the writings of Sylvester Baxter a journalist who became Cushing s friend and publicist in the early 1880s and who traveled to the Southwest and wrote accounts of the expedition Included are Baxter s early writings about Cushing and the Southwest from 1881 to 1883 which reported enthusiastically on the anthropologist s work and lifestyle at Zu i before the expedition Also included are published accounts of the Hemenway Expedition and its scientific promise from 1888 to 1889 drawing on Baxter s central role in expedition affairs as secretary treasurer of the advisory board Series co editor Curtis Hinsley provides an introductory essay that reviews Baxter s relationship with Cushing and his career as a journalist and civic activist in Boston and a closing essay that inquires further into the lasting implications of the invention of

the Southwest arguing that this aesthetic was central to the emergence and development of southwestern archaeology. Seen a century later the Hemenway Expedition provides unusual insights into such themes as the formation of a Southwestern identity, the roots of museum anthropology, gender relations and social reform in the late nineteenth century and the grounding of American nationhood in prehistoric cultures. It also conveys an intellectual struggle ongoing today to understand cultures that are different from the dominant culture and to come to grips with questions concerning America's meaning and destiny.

Odyssey of the Pueblo Indians William M. Eaton, 2002-06 The author William M. Eaton brings to his studies of Pueblo Indian culture a unique background. He was commissioned as 2nd Lt in the USAAF with specialized training as a celestial navigator. One day as he surveyed a petroglyph panel he was impressed with the fact that the Pueblo Indian shaman had imprinted several star panels, namely Ursa Major and Ursa Minor, into the petroglyph panel. One set of obscure dots soon led to another and a remarkable source of astronomical data was developed, including the utilization of Pleiades, Orion and the star Capella. This data, some of which related to star panels announcing the summer and winter solstices, was intended to initiate the annual schedules of a number of Pueblo Indian events such as the Niman Dance in Summer Solstice, the Soyal Winter Solstice Ceremony and the Momtciit Warrior Initiation Rites in late December.

Nampeyo and Her Pottery Barbara Kramer, 2003-02-01 At the beginning of the twentieth century Hopi Tewa potter Nampeyo revitalized Hopi pottery by creating a contemporary style inspired by prehistoric ceramics. Nampeyo ca. 1860-1942 made clay pots at a time when her people had begun using manufactured vessels and her skill helped convert pottery making from a utilitarian process to an art form. The only potter known by name from that era, her work was unsigned and widely collected. Travel brochures on the Southwest featured her work and in 1905 and 1907 she was a potter in residence at Grand Canyon National Park's Hopi House. This first biography of the influential artist is a meticulously researched account of Nampeyo's life and times. Barbara Kramer draws on historical documents and comments by family members not only to reconstruct Nampeyo's life but also to create a composite description of her pottery-making process from gathering clay through coiling, painting and firing. The book also depicts changes brought about on the Hopi reservation by outsiders and the response of American society to Native American arts.

The Orion Zone Gary A. David, 2007-02-03 David explores the ground-sky relationship between the pyramids of Egypt and the stars of Orion and ponders its global reach and significance. Packed with diagrams, maps and astronomical charts, this useful guidebook decodes the ancient mysteries of the Pueblo Indian world.
